Honorable Rick Perry
Governor of Texas

Honorable Susan Combs
Texas Comptroller

Ms. Ursula Parks
Director, Legislative Budget Board

Mr. John Keel, CPA
State Auditor

To Agency Heads Addressed:

We are pleased to submit the annual financial report of Texas Tech University for the year ended 08/31/2012, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

As indicated by the following letter of transmittal, this report has been prepared by the fiscal office of the University to provide a summary of the University's financial records. If you have any questions, please contact Debra Crowder, Director of Financial Reporting at 806-742-2970. Simone Barnhill, Managing Director of Sponsored Programs Accounting and Reporting may be contacted at 806-742-2985 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

TEXAS TECH UNIVERSITY (733)

Notes to the Financial Statements

Note 1: Summary of Significant Accounting Policies

Reporting Entity

Texas Tech University is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Annual Financial Reporting Requirements for State Agencies.

Texas Tech University is one of four components of the Texas Tech University System. The other three components, reported separately, are Texas Tech University Health Sciences Center, Angelo State University, and Texas Tech University System Administration. Texas Tech University includes within this report all components as determined by an analysis of their relationship to Texas Tech University as listed below.

Blended Component Units

The National Wind Resource Center (NWRC) is a not-for-profit 501(c)(3) organization, exempt from income taxes, and is reported as a blended component unit of Texas Tech University. The NWRC was founded to support research at Texas Tech University. Based on the application of GASB Standard No. 14 criteria, the NWRC's financial data has been blended into the financial data of Texas Tech University due to the significance of its financial relationship with the University.

Texas Tech Foundation, Inc. is a component unit of the consolidated Texas Tech University System since it serves the fundraising needs of all colleges, schools, programs, and campuses of the Texas Tech University System. No balances or activities associated with Texas Tech Foundation, Inc. are included in this Annual Financial Report.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial statements to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Basis of Accounting

The accounting records of Texas Tech University are maintained using a modified accrual basis of accounting. Accounting data for most external reports, including this Annual Financial Report, are converted to full accrual basis of accounting in compliance with Governmental Accounting Standards Board (GASB) Statements 34 and 35. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. For financial reporting purposes, Texas Tech University is considered a special-purpose government engaged only in business-type activities. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods or services, and focus on determining operating income, changes in net assets, financial position, and cash flows. Accordingly, the University's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting.

Cash and Cash Equivalents

For the purpose of financial statement reporting, cash and cash equivalents are defined as all cash on hand, cash in banks, reimbursements due from the State Treasury, local balances of legislative appropriations (held in the State Treasury), and temporary investments with original maturities of 90 days or less. Texas Tech University utilizes bank deposits and eligible investment pools as cash equivalents in its Short/Intermediate Term Investment Fund.

The University records and reports its deposits in the general deposit account at cost. It records and reports its special deposit accounts at fair market value.

Investments

Texas Tech University accounts for its investments at fair market value, as determined by quoted market prices, in accordance with GASB Statement No. 31 – *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of the investments are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Assets.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of revenue bonds and revenues set aside for statutory or contractual requirements.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories such as maintenance supplies, housing supplies, janitorial supplies, office supplies, and telecommunications supplies. Inventories are valued at cost, generally utilizing the last-in, first-out method.

Receivables

Accounts receivable consist of tuition and fees charges to students and auxiliary enterprise services provided to students, faculty, and staff. Accounts receivable are recorded net of estimated uncollectible amounts.

UNAUDITED

Texas Tech University (733) – Notes to the Financial Statements (continued)

Federal receivable includes amounts due from the federal, state, and local governments or private sources, in connection with reimbursement of allowable expenditures disbursed by the University's grants and contracts department.

Gift receivables are accounted for at their estimated net realizable value. The estimated net realizable value consists of the present value of long-term pledges and a reduction for any allowance for uncollectible pledges. Pledges vary from one to ten years and are used to support specifically identified University programs and initiatives.

Interest and income receivable consists of amounts due from investment holdings, cash management pools, and cash invested in various short-term investment items.

Other receivables include year-end revenue accruals not included in any other receivable category.

Prepaid Expenses

Disbursements for insurances, subscriptions, prepaid postage, prepaid travel costs and similar services paid in the current or prior fiscal years and benefiting more than one accounting period are allocated among accounting periods. Also included are scholarships paid in the current period for future terms.

Loans and Notes Receivable

These receivables are student loans receivable that consist of amounts due from the Federal Perkins Loan Program, and from other loans administered by the University.

Capital Assets

Furniture, equipment, and vehicles with a cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. Capitalization thresholds for buildings, building improvements, facilities and other improvements are \$100,000. The capitalization threshold for infrastructure is \$500,000. These assets are capitalized at cost. Donated assets are reported at fair market value as of the acquisition date. Routine repairs and maintenance and capital assets acquired for less than the threshold amounts are charges to operating expenses in the year in which the expense was incurred. Depreciation is based on allocation methods and estimated lives prescribed by the State Property Accounting System (SPA). Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Intangible capital assets are defined as assets that lack physical substance, are nonfinancial in nature, and have an initial useful life extending beyond a single reporting period. These assets are required to be reported if they are identifiable. Land use rights are capitalized if the cost meets or exceeds \$100,000. Purchased computer software is capitalized if the aggregate cost of the purchase meets or exceeds \$100,000. Internally generated computer software has a capitalization threshold of \$1,000,000, and other intangible capital assets must be capitalized if the cost meets or exceeds \$100,000. Intangible assets are amortized based on the estimated useful life of the asset using the straight-line method.

Accounts Payable and Accrued Liabilities

Accounts Payable and Payroll Payable represent the liability for the value of assets or services received, and wages/salaries owed at the balance sheet date for which payment is pending.

Deferred Revenues

Deferred Revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Employees' Compensable Leave Balances

Employees' Compensable Leave payable balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the Statement of Net Assets.

Notes and Loans Payable

Notes payable represents amounts owed for commercial paper that was issued during the current accounting period. Notes and loans payable are further explained in Note 5.

Bonds Payable

Texas Tech University has a number of bond issues outstanding, most of which are supported either directly or indirectly by tuition revenue. Bonds payable are addressed in more detail in Note 6.

Funds Held for Others

Current balances in funds held for others result from the University acting as an agent or fiduciary for faculty and student organizations.

Net Assets

Net Assets are the difference between fund assets and liabilities. They are presented in three separate classes: Invested in Capital Assets – Net of Related Debt, Restricted and Unrestricted.

Invested in Capital Assets, Net of Related Debt

This category represents capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by a party external to the University such as creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of restricted net assets. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be moved or modified.

Interfund Activity and Transactions

Texas Tech University is regularly involved in both interfund activity and interfund transactions. Interfund activity is defined as financial interaction between internal funds, including blended component units. Interfund transactions are defined as financial transactions between legally separate entities. Interfund activity and interfund transactions are both clearly identifiable and are eliminated where appropriate.

Note 2: Capital Assets

Depreciation of capital assets is recorded as a periodic expense and accumulated as an offset to the asset book values. Depreciation of capital assets is based on allocation methods and estimated lives prescribed by the State Property Accounting (SPA) system. Accumulated depreciation is classified by capital asset category, providing for an estimation of the net book value of each asset category.

Capital assets are categorized as (1) Land and Land Improvements, (2) Buildings and Building Improvements, (3) Infrastructure, (4) Furniture and Equipment, (5) Vehicles, Boats and Aircraft, (6) Construction in Progress, (7) Other Capital Assets, (8) Facilities and Other Improvements, (9) Land Use Rights, (10) Computer Software, or (11) Other Intangible Capital Assets. Note 3: Deposits, Investments, and Repurchase Agreements

Texas Tech University's investment portfolio is invested pursuant to the parameters of applicable Texas law and the governing board's Investment Policies. Under Texas law, Texas Tech University investments may be "any kind of investment that persons of ordinary prudence, discretion, and intelligence, exercising the judgment and care under the circumstances then prevailing, acquire or retain for their own account in the management of their affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital." Under Texas law, Texas Tech University is required to invest its institutional funds according to written investment policies adopted by the Board of Regents. No person may invest Texas Tech University funds without express written authority from the governing board.

The governing investment policy is Regents' Rules Chapter 09, "Investment and Endowments." The majority of Texas Tech University assets are invested in two investment pools; the Long Term Investment Fund (LTIF) and the Short/Intermediate Term Investment Fund (STIF), both having their own stand-alone investment policies. Endowment funds and certain eligible long-term institutional funds are invested in the LTIF, which invests in equity and fixed income securities, as well as alternative investments such as hedge funds and private equity, and is operated using a total return philosophy. Other institutional funds not in the LTIF are invested in the STIF. Other assets include securities gifted to Texas Tech University with donor instructions to maintain in their original form, and bond proceeds invested in external investment pools.

Employees’ Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee’s resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Under state law, the accumulated hours are limited based on the employees’ length of service, with a maximum accrual of 532 hours for employees with 35 or more years of service. The expense and liability are recorded annually as these benefits accrue for employees. This obligation is paid from a central vacation pool account which collects the funding from the same funding source(s) from which the employee’s salary or wage compensation was paid. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Pollution Remediation Obligations

Texas Tech University is waiting further review by the Texas Commission on Environmental Quality to determine the responsible party and the cost for pollution remediation activities on land that the University owns in Carson County, Texas.

Bonds Payable

See Note 6 for detailed information on bond liability balances and transactions.

Notes and Loans Payable

Notes Payable represents commercial paper payable, which is issued to provide interim funding for long-term construction and equipment projects in advance of the issuance of authorized bonds. Even though commercial paper itself is short-term in nature, because the intent of the commercial paper issuance is to continue funding of these long-term projects to be financed by bond issues, the payable is reported as long-term debt. Debt service for the obligation is provided in general appropriation for tuition revenue bonds and revenue from various projects. All commercial paper outstanding at 8/31/12 will mature in fiscal year 2013. Commercial paper has short maturities up to 270 days with interest rates ranging from .08% to .18%.

Sources of Debt-Service Revenue

On October 21, 1993, the governing board of the Texas Tech University System established a Revenue Financing System for the purpose of providing a financing structure for all revenue supported indebtedness of Texas Tech University System components. The source of revenues for debt service issued under the Revenue Financing System includes pledged general tuition, pledged tuition fee, pledged general fee and any other revenues, income, receipts, rentals, rates, charges, fees, including interest or other income, and balances lawfully available to Texas Tech University System components. Excluded from the revenues described above are amounts received under Article 7, Section 17 of the Constitution of the State of Texas, general revenue funds appropriated by the Legislature except to the extent so specifically appropriated, encumbered housing revenues, and practice plan funds.

Pledged Future Revenues

GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, makes a basic distinction between sales of receivables and future revenues, on the one hand, and the pledging of receivables or future revenues to repay a borrowing (a collateralized borrowing), on the other. The following table provides the pledged future revenue information for Texas Tech University's revenue bonds:

	Business - Type Activities
Pledged Revenue Required for Future Principal and Interest on Existing Revenue Bonds	\$ 491,989,496.62
Term of Commitment for Year Ending 8/31	2038
Percentage of Revenue Pledged	100%
Current Year Pledged Revenue	\$ 537,011,719.12
Current Year Principal and Interest Paid.	\$ 31,889,575.98

Pledged revenue sources from business-type activities include income from tuition/fees, investments, other sales and services, TRB state appropriations, auxiliary activities, and plant gifts.

Note 7: Derivative Instruments

As of August 31, 2012, Texas Tech University held no derivative instruments subject to reporting requirements.

Note 8: Leases

Texas Tech University had no outstanding capital leases as of August 31, 2012.

Texas Tech University has entered into various operating leases for buildings and equipment. Expenses for operating lease obligations included in the financial statements were \$722,581.53 for the fiscal year ended August 31, 2012.

Future minimum lease rental payments under non-cancelable operating leases having an initial term in excess of one year as of August 31, 2012 are as follows:

Fiscal Year Ended August 31,	
2013	\$ 737,337.28
2014	637,146.93
2015	313,105.20
2016	113,490.00
2017	113,490.00
Total Minimum Future Lease Rental Payments	\$ 1,914,569.41

Texas Tech University also leases building space to outside parties under various operating leases. Rental income from these leases of \$242,242.52 is included in the financial statements for the fiscal year ended August 31, 2012.

Leased space comprises approximately 14.7% of the total building space. The carrying value of the building is \$2,125,538.14, with a historical cost of \$5,182,795.13, and related accumulated depreciation of \$3,057,256.99 as of August 31, 2012. There were no reported contingent rental revenues.

Minimum future lease rental income under non-cancelable operating leases as of August 31, 2012 was as follows:

Fiscal Year Ended August 31,	
2013	\$ 228,697.00
2014	235,019.00
2015	237,454.00
2016	239,822.00
2017	240,163.64
Total Minimum Future Lease Rental Income	\$ 1,181,155.64

Note 9: Pension Plans

The State has established an Optional Retirement Program (ORP) for institutions of higher education. Participation in ORP is in lieu of participation in the Teacher Retirement System of Texas and is available to certain eligible employees. The contributions made by plan members and the employer for the fiscal year ended August 31, 2012 are:

Description	Year Ended 8/31/2012
Member Contributions	\$ 6,990,613.39
Employer Contributions	7,473,334.68
Total Contributions	\$ 14,463,948.07

Note 10: Deferred Compensation (administering agencies only)

Not applicable.

Note 11: Postemployment Health Care and Life Insurance Benefits

Not applicable.

Note 12: Interfund Activity and Transactions

As explained in Note 1 on interfund activities and transactions, there are numerous transactions between funds and agencies. At year-end, amounts to be received or paid are reported as:

- Interfund Receivables or Interfund Payables
- Due from Other Agencies or Due to Other Agencies
- Transfers In or Transfers Out
- Legislative Transfers In or Legislative Transfers Out

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer. Repayment of interfund balances will occur within one year from the date of the financial statement.

Individual balances and activity at August 31, 2012, follow.

Note 13: Continuance Subject to Review

Texas Tech University is not subject to the Texas Sunset Act.

Note 14: Adjustments to Fund Balances and Net Assets

Texas Tech University has no restatement of Fund Balance or Net Assets as of August 31, 2012.

Note 15: Contingencies and Commitments

At August 31, 2012, various lawsuits and claims involving Texas Tech University were pending. While the ultimate liability with respect to litigation and other claims asserted against the University cannot be precisely estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is in legal counsel’s opinion, not likely to have a material effect on the University.

Note 16: Subsequent Events

Texas Tech University has no subsequent events to disclose.

Note 17: Risk Management

Texas Tech University by state law is required to be a participant in the Worker’s Compensation Program and Pool managed by the State Office of Risk Management (SORM). The University is assessed fees by SORM based upon claims cost, claim count, payroll and FTE. Total payments to SORM for fiscal year 2012 totaled \$785,526.14. The State Office of Risk Management pays all WCI claims. The Worker’s Compensation pool for the fiscal year was funded by a .25 percent charge on non-educational and general gross payroll for paying its proportionate share of the SORM assessment.

Texas Tech University (733) – Notes to the Financial Statements (continued)

The University has self-insured arrangements for Unemployment Compensation Fund coverage. The State of Texas pays 50% of claims for employees paid from state funds. The University pays the remainder for employees paid from state funds and 100% of the claims paid for employees from non-state funds. Total payments for unemployment compensation for fiscal year 2012 amounted to \$312,647.62. The claims for employees paid from non-state funds are funded by interest earnings on the Unemployment Compensation Fund balance and utilization of fund balance.

Insurance for University vehicles owned or leased is purchased through commercial carriers. Liability limits are \$250,000 per person/\$500,000 per collision bodily injury, and \$100,000 per collision property damage for collisions occurring within Texas. Out of state limits are \$1,000,000 combined single limit per occurrence.

Note 18: Management Discussion and Analysis (MD&A)

Texas Tech University continues to experience growth in student enrollment. Overall, the student enrollment count for fall, spring and summer terms for fiscal year 2012 increased from 80,159 to 82,740, resulting in a 3.22% increase compared to the enrollment count for the same terms in fiscal year 2011.

Note 19: The Financial Reporting Entity

Texas Tech University is an agency of the State of Texas, and is one of four components of the Texas Tech University System.

The National Wind Resource Center (NWRC) is a not-for-profit 501(c)(3) organization, exempt from income taxes, and is reported as a blended component unit of Texas Tech University. The NWRC was founded to support research at Texas Tech University. Based on the application of GASB Standard No. 14 criteria, the NWRC's financial data has been blended into the financial data of Texas Tech University due to the significance of its financial relationship with the University.

Note 20: Stewardship, Compliance and Accountability

Texas Tech University has no material stewardship, compliance, and accountability issues.

Note 21: N/A

Note 22: Donor Restricted Endowments

Expenditure of endowed funds is not allowed without the express consent of the donor. Most of Texas Tech's endowments are held in perpetuity. In many cases, endowment earnings are expendable for student financial assistance or other purposes as designated by the donor. In other cases, endowment earnings are reinvested.

Endowment assets are invested predominantly in the Long Term Investment Fund (LTIF). The LTIF has experienced varying performance since its inception. The cumulative effect of valuation changes assignable to endowment fund assets by the University are summarized in the following table:

UNAUDITED

Texas Tech University (733) – Notes to the Financial Statements (continued)

Donor-Restricted Endowment	Amount of Net Appreciation	Reported in Net Assets
True Endowments	\$ 12,366,682.75	Restricted Nonexpendable
Term Endowments	54,591.43	Restricted Nonexpendable
Total	\$ 12,421,274.18	

The System’s spending policy reflects an objective to distribute as much total return as is consistent with overall investment objectives while protecting the inflation-adjusted value of the principal. The following factors are considered in the spending policy: the duration and preservation of the LTIF, the purposes of the System and the LTIF, general economic conditions, the possible effect of inflation or deflation, the expected total return from income and the appreciation of investments, other resources of the System and the overall investment policy. The distribution of spendable earnings shall not exceed 6% nor be less than 4% of the average NAV of the LTIF for the 12 quarters just ended.
