ARTIFICIAL INTELLIGENCE (AI) USE POLICY

This policy covers any generative AI tool, such as ChatGTP, Elicit, Photo Math, etc. This includes text and artwork/graphics/video/audio, etc.

All work submitted in this course must be your own. You may not use artificial intelligence tools to complete your assignments in this course.

If an instructor suspects that an assignment is not the work of the student, it is incumbent upon the student to demonstrate their skills/knowledge in an alternative method. The student may be required to attend a one-on-one video conference to discuss content with the instructor. The grade will be determined at the instructor's discretion.

The incident will be reported to the administration and documented in the student's file. Continued violations of Texas Tech University's Academic Integrity Policy will result in the removal of the student from the program. Texas Tech Student Handbook
