

Name _____

Phonics Review

In words with the VCe pattern, the first vowel stands for a long vowel sound, and the final *e* is silent. The word *dislike* has two syllables. Blend the CVC syllable and the VCe syllable to read the word.

When the vowels *e* or *i* follow *c* and *g*, the letters usually stand for a soft sound, like in *mice* and *cage*.

► Read the words in the Word Bank. Write a word to complete each sentence.
