“

I heard about the work the TTU Innocence Clinic was doing through a couple of podcasts I listen to, and I felt a true calling for that type of work. I learned that Texas Tech's Innocence Clinic is unlike any other law school's, and it does by far the most work. I learned more during my time in the clinic than I ever could have learned in a classroom, during an internship, or even in the real world – not fresh out of law school. I learned how to properly conduct client interviews and how best to communicate with clients. I had the chance to write briefs that went to the Court of Criminal Appeals and even the United States Supreme Court.

FINANCIAL AID

Scholarships and loans are available to help students finance their legal education at Texas Tech Law. Law students must be enrolled in at least 12 credit hours in the fall and spring semesters (four credit hours during the summer) to be considered a full-time student for financial aid purposes.

Scholarships

- In awarding scholarships to new students, Texas Tech Law uses the same factors considered in evaluating the applicant for admission. All admitted students are automatically considered for any scholarship funds for which they are eligible. Scholarships are also available to students in their second or third year of law school and are awarded on the basis of academic performance and financial need.
- Non-Resident Tuition Waiver: Texas allows non-resident students who receive a competitive academic scholarship of at least \$1,000 to receive a waiver of non-resident tuition. Non-resident students who receive such a scholarship will be charged resident tuition, which represents an additional savings of over \$10,000 per year.

Loans

- All students seeking financial aid other than scholarships must complete the Free Application for Federal Student Aid (FAFSA). This application enables the Law School to determine eligibility for grants and loans available to assist students with their education. Law students are eligible for several kinds of loans available from the federal government, the most common being Direct Unsubsidized and Direct PLUS loans.
