Texas Tech and the Office of LGBTQIA Education & Engagement are happy to have you! We know living in a residence hall can be nerve-racking for any college student, but being a part of the queer community adds other challenges. At the Office, we would be happy to offer additional support to navigate safe campus housing whilst respecting gender identity, expression, or sexual orientation.

**WELCOME!**

This option gives upper-class students the opportunity to choose their roommate(s) regardless of gender.

For more information go to https://www.depts.ttu.edu/housing/flexhousing.php

**Gender-Neutral Housing**

Living on campus is an experience like no other that we want every student, regardless of identity, to have. However, there are provisions for students that need to live off-campus should they meet the requirements. Students are encouraged to read OP 30.25 when requesting to live off-campus. For more information please reach out to John Romero.

**Residence Halls with Private Bathrooms**

We understand that for our transgender, nonbinary, and non-cisgender Red Raiders, communal bathrooms may serve as an extra, uncomfortable challenge while living on campus.

The following residence halls offer private bathrooms instead of communal restrooms. If restrooms are one of your concerns, check out one of these options*:

- Carpenter/Wells
- Gordon
- Murray
- Talkington
- West Village

*contingent upon availability

**Roommates**

It is important to us that you are paired with a roommate or roommates that are affirming of your identity. Please reach out to Amanda Reeves for assistance on finding a good fit for you.
