

FAQ

What is the teaching topic?

Mesozoic Texas – Join us on a virtual journey through the Triassic, Jurassic, and Cretaceous eras of Texas, as we explore the Mesozoic period. During this virtual tour of the Changing World Gallery, you will see fossils and learn about the fascinating history of this time. (Virtual)

What is the maximum number of students that can attend?

There is no limit as long as all students are able to properly view a screen and engage.

Can we combine classes of the same grade level?

Yes

Can we combine grade levels?

If you want to combine grade levels, please let us know what grades are to be combined and provide an explanation as to why there is a need to combine grade levels for preparation purposes.

Will there be any materials provided for this?

Yes, there will be an informational packet.

How long is the presentation?

15 – 30 minutes depending on grade level.

How do I prepare for this?

Have questions prepared before the presentation begins and provide them to the paleontology team beforehand so they can work those questions into the lesson plan. The presentations will supplement the teacher’s lesson plan.
