Bi-Weekly Newsletter: Faculty, Staff and Ph.D. Student Updates

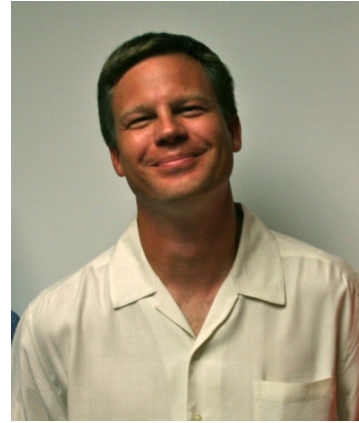

Little WiSElette Arrives:

Congratulations to WiSE Ph.D. Academic Coordinator Kelsey Seger and new papa Andy on the birth of Mary Evangeline Seger on April 25th. She weighed 8 lbs 1 oz. and everyone is healthy.

Welcome to the WiSE family, little one!

WiSE Reminder:

Since our fearless leader, WiSE Director Dr. John Schroeder, has been in the field so long, the editor thought it might be an idea to give everyone a reminder that this photo is what he looks like should you see him roaming the corridors in the upcoming month.

He is not some random stranger. :-)

Regional 4-H Students Tour WiSE:

A large group of students from a regional 4-H recently visited the WiSE research facilities to learn more about the research that is occurring there.

The group was so large that it was split into two shifts, which worked well and enabled everyone to receive a quality experience.

Thanks to everyone who was involved in making this tour the success it was!

(Right) WiSE Ph.D. student Rich Krupar III demonstrates the Stick-Net project to the group.
