# Welcome to the Osher Lifelong Learning Institute at Texas Tech University!

At Texas Tech University, we aspire to provide students an experience that is transformative, one that promotes intellectual curiosity, and promotes life-long learning.

The Osher Lifelong Learning Institute at Texas Tech University embodies these attributes. It offers unique opportunities for local citizens of more than 50 years of age who have a common interest in continuing their learning experiences

and intellectual stimulation in an organization of like-minded people who value the joy of learning.

Many individuals have taken advantage of the offerings afforded through this exciting program. Courses are developed by peers with the goal of providing a high-quality learning experience accessible to all. In addition, OLLI membership provides an opportunity for social interaction and new friendships with members who bring a lifetime of personal and professional experience to class.

I welcome and encourage your participation in this program that will provide opportunities to grow intellectually and socially.

Sincerely,

Lawrence Schovanec, Ph.D.  
President.

## The Osher Foundation

The Bernard Osher Foundation, headquartered in San Francisco, was founded in 1977 by Bernard Osher, a respected businessman and community leader. The Foundation seeks to improve

quality of life through support for higher education and the arts. Mr. Osher is a community-oriented businessman whose philanthropy created Osher Lifelong Learning Institutes (OLLI) across the country. Our OLLI is in a network of 124 lifelong learning programs on university and college campuses across the country, with at least one grantee in each of the 50 states and the District of Columbia.

OLLI owes its existence to Bernard and Barbro Osher, whose vision and continuing moral and financial support of lifelong learning is unprecedented and unparalleled. We are very fortunate and proud to have an OLLI at Texas Tech University.

## Our Mission

The mission of Osher Lifelong Learning Institute (OLLI) at Texas Tech University is to provide enjoyable and stimulating non-credit learning and cultural opportunities for its members.

## What is Osher Lifelong Learning Institute?

OLLI began as a continuing education program at Texas Tech University in 2002-2003 as Texas Tech Lifelong Learning. In 2008, endowment support was received from the Bernard Osher Foundation. In recognition of its affiliation with the Osher Foundation and as one of 124 such institutes nationwide, Texas Tech Lifelong Learning was re-named Osher Lifelong Learning Institute (OLLI) at Texas Tech University. We are self-sustaining, supported through membership dues, class fees, an endowment from the Bernard Osher Foundation, donations and in-kind support from Texas Tech University. *No tests, no grades, no research papers – just intellectual stimulation.*

## What are the requirements to join?

Everyone age 50 and older may join. The only prerequisite is a desire to learn.

## What does membership cost?

Membership is \$35 per person, valid for a year from date of purchase, and does not include cost of individual courses.

## Who teaches OLLI classes?

Most of our classes are taught by distinguished professors, both active and retired. Other instructors are experts in their fields, university doctoral students or OLLI members. There is one common denominator: they teach because they enjoy education and OLLI students.

## Where is the OLLI office?

Our office is in the Texas Tech Plaza, 5th floor, Suite 513 at 19th and University Avenue, Lubbock, Texas. Our email is [olli@ttu.edu](mailto:olli@ttu.edu), and our phone number is (806) 742-OLLI (6554).

## What happens for weather or other emergency cancellations?

OLLI follows the same policy as Texas Tech University for cancellations because of weather or other acts of nature or emergencies. If TTU classes are canceled, OLLI classes are also canceled. Postings can be found at [www.emergency.ttu.edu](http://www.emergency.ttu.edu) as well as on local television or radio stations. OLLI reserves the right to substitute instructors, rearrange class schedules, or cancel classes because of low enrollment or illness. In case of class cancellation or a schedule change, you will be notified and may receive a credit for another class in the same semester or a refund.

## What if I have to cancel my registration?

Because space in classes is limited, please let the office know as soon as possible if you need to cancel a class registration. It is important that you are aware that canceling any class requiring bus transportation, food or supplies will result in loss of the registration fee unless the member is able to find a replacement to attend in their place.

For all other classes, we ask that members let us know of their cancellation at least four days in advance to be eligible to receive a credit transfer to be applied to another class or a refund. Members may also choose to donate their refund if they wish to support OLLI operations. We do provide full refunds on a case-by-case basis for illness, medical emergencies, etc. Membership fees cannot be credited or refunded.

## Arts and Culture

### Citizen Kane and Vertigo: What Do They Have In Common?

Motion picture critics and writers for the last half of the 20th Century and into the current century rated Orson Welles' "Citizen Kane" the number one movie. During the last decade, many now rank Alfred Hitchcock's Vertigo as the top movie. What do these films have in common? The soundtrack score of both films was composed by Oscar winner Bernard Herrmann. In this class, participants will learn about Mr. Herrmann and view the two movies and his final picture scoring from 1976.

**Instructor:** Bill Pesetski is a retired Department of Defense systems analyst. He attended Drake University and the University of Wisconsin-Milwaukee, earning a degree in economics.

## Viva the Difference – Understanding Generational Differences

The Greatest Generation, boomers, Gen X, millennials, Gen Y and Gen Z are terms heard daily. Do these terms describe important differences in the age groups or are they stereotypes? Understanding generational differences is the first step to working together in harmony and could be a determining factor in the success of an organization. Along with suggestions for how to work with each generation, this class will describe how generational differences arise and provide key descriptions of the core characteristics of each group.

**Instructor:** Terry Waldren, Ph.D., is the owner of The Waldren Group consulting firm, whose clients include: Texas Tech, TTUHSC, City of Lubbock and United Supermarkets.

**Date:** Tuesday, April 7

## History

### Joan of Arc: The Most Famous Teenager in History

Joan of Arc, arguably the most famous teenager in history, heard voices compelling her to ride to Charles VII, besiege Orleans and see that Charles was crowned. Later captured and sold to the English, she was sentenced to death. Many of the 10,000 people who witnessed her execution averred that the Church and the English killed a saint; later, the Church agreed. This class analyzes how this young girl fared against the mighty Catholic Church.

**Instructor:** Jim Brink earned degrees in French and history from the University of Kansas and a master's and doctorate degree from the University of Washington. He taught in Texas Tech University's Department of History and spent 12 years in the Office of the Provost, finishing his 42 years at Texas Tech in the Honors College.

Steep Canyon Rangers

## Steep Canyon Rangers

With their new album “Out In The Open,” Steep Canyon Rangers affirm their place as one of the most versatile bands in contemporary American music. The Grammy award-winning sextet has spent nearly two decades bending and shaping the bluegrass aesthetic. Since Steep Canyon Rangers came together in 2000, they have developed a remarkable catalogue of original music that links them to the past while also demonstrating their ambitious intent to bring string-based music into contemporary relevance. Steep Canyon Rangers are easily among the hardest working bands in any genre, pulling double duty on their own and as collaborators with Steve Martin.

**Date:** Friday, February 7 | **Time:** 7 p.m.

**Fee:** \$12 for OLLI Members

**Location:** Texas Tech University Allen Theatre

m-pact

## m-pact

Hailed “one of the best pop-jazz vocal groups in the world” by the San Francisco Chronicle, m-pact is respected worldwide as a cutting edge trailblazer in the realm of vocal music. Emerging from an age of auto-tune and overproduction, this Los Angeles-based sextet has cultivated a new generation of ears hungry for the fresh, raw power of nature’s “first instrument” – the human voice. Over the last 12 years, their signature sound has been used in both television themes and animated Disney feature films and is enjoyed on syndicated radio worldwide.

**Date:** Friday, March 27 | **Time:** 7 p.m.

**Fee:** \$12 for OLLI Members

Ranky Tanky (by Jay Gilbert)

## Ranky Tanky

Ranky Tanky released their eponymous debut on Oct. 20, 2017. By December of that year, the group had been profiled on NPR’s Fresh Air with Terry Gross and their album soared to the No. 1 position on the Billboard, I-Tunes, and Amazon jazz charts. This Charleston, South Carolina-based quintet performs timeless music of Gullah culture born in the southeastern Sea Island region of the United States. From playful game songs to ecstatic shouts, from heartbreaking spirituals to delicate lullabies, the musical roots of Charleston are a “rank” and fertile ground from which these contemporary artists are grateful to have grown.
