

# Assessment: Assessment Plan

## Degree Program - AS - Kinesiology (MS)

**CIP Code:** 31.0505.00

**Degree Program Coordinator:** Joaquin Gonzales

**Degree Program Coordinator Email:** joaquin.gonzales@ttu.edu, angela.lumpkin@ttu.edu

**Modality:** Face-to-Face

### Student Learning Outcome: Kinesiology MS 1

Articulate and demonstrate competent understanding and critical analysis of existing literature in kinesiology, knowledge of the scientific method, and essential elements of a research study in kinesiology.

**Outcome Status:** Active

**Outcome Type:** Student Learning

**Start Date:** 08/24/2015

#### Assessment Methods

Students will complete a proposal that demonstrates competent performance on the capstone grading rubric showing the necessary elements of a valid research study or equivalent research-based assignment. (Active)

**Criterion:** 80% of students will earn 80% or above on assessment.

Benchmark 1.1 Students will demonstrate competence in the ability to include essential elements of a valid research study in Kinesiology.

Course: KIN 5315; Assessment Method: Writing Assignments

**Related Documents:**

[MS in Kinesiology Benchmark 1.1 5315.docx](#)

**Exam - Assessment Method:** component of the midterm exam (Active)

**Criterion:** 80% of students will earn 80% or above on assessment.

Benchmark 1.2 Students will demonstrate knowledge of the scientific method.

**Related Documents:**

[Previous and no longer used MS in Kinesiology Benchmark 1.2 Comps.docx](#)

Writing Assignment (Active)

**Criterion:** 80% of students will score 80% or above on assessment.

Benchmark 1.3 Students will demonstrate competence in the ability to critically analyze the existing literature in the field of Kinesiology.

**Related Documents:**

[Previous and no longer used MS in Kinesiology Benchmark 1.3 5332.docx](#)

# Degree Program - AS - Kinesiology (MS)

## Student Learning Outcome: Kinesiology MS 2

Students will describe, apply, and evaluate responses and adaptations to human movement.

**Outcome Status:** Active

**Start Date:** 08/24/2015

### Assessment Methods

#### Class Discussions - Research Discussion (Active)

**Criterion:** 80% of students will earn 80% or above on assessment.

Benchmark 2.1 Students will be able to describe adaptations to human movement.

Courses: KIN 5302/5305/5307 & 5336

**Related Documents:**

[Previous and no longer used MS in Kinesiology Benchmark 2.1 5335 5330.docx](#)

#### Capstone Assignment/Project - Application Portion of Literature Review (Active)

**Criterion:** 80% of students will earn 80% or above on assessment.

Benchmark 2.2 Students will be able to apply information regarding the benefits of human movement.

Courses: KIN 5302/5305/5307 & 5336

**Related Documents:**

[Previous and no longer used MS in Kinesiology Benchmark 2.2 5303.docx](#)

#### Writing Assignments (Active)

**Criterion:** 80% of students will score 80% or above on assessment.

Benchmark 2.3 Students will be able to evaluate acute and chronic responses to human movement.

Courses: KIN 5302/5305/5307 & 5336

**Related Documents:**

[Previous and no longer used MS in Kinesiology Benchmark 2.3 .docx](#)

## Student Learning Outcome: Kinesiology MS 3

Students will demonstrate comprehension and the ability to communicate psychological concepts and physiological principles in kinesiology.

**Outcome Status:** Active

**Outcome Type:** Student Learning

**Start Date:** 08/24/2015

### Assessment Methods

# Degree Program - AS - Kinesiology (MS)

**Survey - Student** - pre/post survey Students will be reassessed on a series of questions at the end of the semester to determine improved understanding of course-related material.  
(Active)

**Criterion:** Criterion: 80% of students will score 80% or above on assessment

Benchmark 3.1 Students will demonstrate improved comprehension of psychological concepts and physiological principles in kinesiology.  
KIN 5303 & KIN 5335

**Related Documents:**

[MS in Kinesiology Benchmark 3.1 5312 and 5335.docx](#)

Performance on writing assignments used for this benchmark. (Active)

**Criterion:** 80% of students will score 80% or above on assessment.

Benchmark 3.2 Students will demonstrate competence in the ability to apply psychological concepts and physiological principles in kinesiology to real-world scenarios.  
Starting in the fall of 2019, this benchmark will now be assessed in KIN 5335 Cardiopulmonary Exercise Physiology and KIN 5303 Psychology of Sport.

Performance on writing assignments used for this benchmark will guide instructors on the development of exam questions that will allow for an ongoing reassessment of student's ability to articulate knowledge. (Active)

**Criterion:** 80% of students will score 80% or above on assessment.

Benchmark 3.3 Students will demonstrate the ability to accurately articulate psychological concepts and physiological principles in kinesiology.  
Starting in the fall of 2019, this benchmark will now be assessed in KIN 5335 Cardiopulmonary Exercise Physiology and KIN 5303 Psychology of Sport.
