OP 10.02: Delegation of Authority by the President

DATE: October 13, 2020

PURPOSE: The purpose of this Operating Policy/Procedure (OP) is to establish a clear delegation of authority to selected senior administrative officers to facilitate the management of Texas Tech University by permitting as many decisions as possible to be made at lower levels in the chain of command and, thereby, to permit the President to devote proper time to items of major executive concern.

REVIEW: This OP will be reviewed in June of even-numbered years by the Vice President for Administration & Finance and Chief Financial Officer with substantive revisions forwarded to the President.

POLICY/PROCEDURE

1. Authority

   a. The Legislature, in Chapters 109, 110, and in Section 51.352 of the Texas Education Code, delegates to the Board of Regents of the Texas Tech University System (TTUS) the power and authority to govern, control, and direct the policies of Texas Tech University (TTU).

   b. Section 109.23 of the Texas Education Code requires the Board of Regents to "provide a chief executive officer, who shall devote his/her attention to the executive management of the university and who shall be directly accountable to the board for the conduct of the university. The board, when required by law to be the governing body of any other state educational institution or facility, shall also direct the chief executive officer to be directly responsible for the executive management of that other institution or facility."

   c. Section 02.04, Regents ’ Rules, provides that “the president of each component institution of the TTUS is the chief executive officer of that institution and reports to and is responsible to the chancellor; but the component institution president shall have access to the board, and the board shall have access to the component institution president. ”

   d. It is the policy of the President to delegate specified authority to selected administrators in order to facilitate the management of the university while retaining the responsibility and accountability vested in the President.

      These administrators may make further delegation to heads of activities under their jurisdiction; however, an individual to whom the President has delegated authority is still primarily responsible, irrespective of any further delegation by the administrator to subordinate officers.
2. Annual Review

The President will perform annual evaluations of the vice presidents.

3. Personnel

a. Senior Level Administrators

Per 1.d, the President is assisted by the following senior level administrators.

(1) Provost and Senior Vice President

The President delegates to the Provost and Senior Vice President the authority for the management, supervision, and direction of:

(a) Academic deans and activities of the schools and colleges;

Per OP 32.03, Academic Deans, Associate or Assistant Deans, and Department Chairpersons, the deans are the principal administrative officers of the colleges of Agricultural Sciences & Natural Resources, Architecture, Arts & Sciences, Engineering, Honors, Human Sciences, Visual & Performing Arts, Media & Communication, Graduate School, School of Law, University Libraries, Business Administration*, and Education.

A dean’s chief responsibility is the development, supervision, and operation of the academic programs of the college or school. The academic dean and staff serve as consultants on all academic matters such as course changes, choice of major, and degree requirements. Since all degrees given by Texas Tech University are granted through these colleges and schools, the respective dean and the faculty members of a specific college or school establish their own degree requirements. Deans serve in their administrative capacities without tenure and at the discretion of the Provost and Senior Vice President. Each dean has an annual performance conference with the Provost and Senior Vice President.

Associate and assistant deans aid in the administrative work of the colleges and schools. These individuals serve in their administrative capacities without tenure and at the discretion of the dean. Each associate or assistant dean is to report on his/her performance at least annually through a conference with the dean.

Department, division, and area chairpersons are normally appointed for three-year terms by the Provost and Senior Vice President on the recommendation of the dean of the appropriate college. The chairperson, in cooperation with the faculty, is responsible for supervising activities of the department/division/area, scheduling classes, assisting in faculty evaluations, preparing budget requests, initiating appointment recommendations, and developing the curriculum. They serve in their administrative capacities without tenure and at the discretion of the dean. The dean reviews chairpersons annually and, before a chairperson’s term expires, the dean initiates an extensive review with the faculty. Reappointment as a chairperson may be recommended.
* The Rawls College of Business Administration is non-departmentalized and does not have departmental chairpersons. It is organized and functions under an area concept and, therefore, corresponding positions will be entitled “area chairpersons.”
