

# Understanding Your College GPA

Tech has an unweighted 4-point GPA scale. Each credit hour is worth up to 4 quality points.

A = 4   B = 3   C = 2   D = 1   F = 0

Example (Spring 2022):

Course	Credit Hours	Letter Grade	Quality Points
ENGL 1302	3	C+	$3 \times 2 = 6$
MATH 1452	4	B+	$4 \times 3 = 12$
PHYS 1408	4	A-	$4 \times 4 = 16$
ART 1309	3	B	$3 \times 3 = 9$
<b>TOTAL</b>	<b>14</b>		<b>43</b>

GPA = quality points / credit hours =  $43 / 14 = 3.07$

All physics majors should strive to maintain a 2.5 institutional GPA.

Furthermore, only grades of C- or better will count towards your physics major! Courses in which students receive a grade of D+ or lower must be retaken and grade replaced.
