

# TA OF THE WEEK

*February 11, 2022*

**Darien Perla**

**Home State:** Texas

**Research Advisor:** Vallia Antoniou

Darien has been an excellent TA. He truly goes the extra mile to make sure that his students have all the information they need to succeed in the course.

He is also very generous with his time. We had a TA out with COVID and when Gwen asked for someone to cover labs for the TA in quarantine, he was the first one to contact her about covering for the other TA.

**CONGRATULATIONS, DARIEN!!!**
