

TA OF THE WEEK

February 25, 2022

Savannah Ivey

Hometown: Stephenville, Texas

While most of our TAs are graduate students, we have a small number of undergraduates (UGAs) who help in some of our classes, primarily in the inquiry-based sections in room 106.

The primary responsibility of these UGAs is to assist during class. They are not required to hold office hours or assist students outside of class, but they are certainly free to do so if they choose.

Here's what the student who nominated Savannah had to say: "Savanah noticed that I was having a hard time and asked if I wanted to meet outside of class to go over some of the topics that I'm struggling with. Not only did Savanah spend three whole hours with me last night, but she taught me how to solve everything I struggled with. Her teaching style not only made so much sense to me, but she made sure I understood the steps, as well as knowing how to explain them!"

CONGRATULATIONS, SAVANNAH!!!
