

# TA OF THE WEEK

*April 8, 2022*

**Eric Stringer**

**Hometown:** Salem, Oregon

**Research Advisor:** Thomas Kupfer

Eric is one of our most conscientious and dedicated TAs. He is being recognized as TA of the Week for two reasons. First, he has paid attention to the work his students turn in. As a result, he has found several instances of students who have gone online and copied the answers. Since these answers are often both incorrect and from different versions assigned in earlier semesters, they aren't hard to spot. He has communicated with Dr. West in those situations. Furthermore, Eric has aided other TAs when they were not clear on some of the concepts covered in labs. The TA who nominated Eric recognized that he was giving of his time to do so.

**CONGRATULATIONS, ERIC!!!**
