

# TA OF THE WEEK

*September 16, 2022*

## **Gabriela Hamilton Ilha Machado**

**Hometown:** Santana do Livramento, Brazil

**Research Advisor:** Andrew Whitbeck

When one of our TAs gets sick, it falls to their colleagues to cover lab for them. Often with little to no notice. This past week one TA was ill all week. Gabriela covered two of this TA's labs. One lab section is what one TA usually covers for another. This is certainly beyond what is expected. So, for stepping up and helping out when she was needed, the TA of the Week goes to Gabriela for going the extra mile.

**CONGRATULATIONS, GABRIELA!!!**
