

TA OF THE WEEK

September 30, 2022

Conner Dempsey

Hometown: San Angelo, Texas

Research Advisor: Ioannis Chatzakis

Once again, the TA of the Week is someone who stepped up to cover for someone else. This is Conner's first semester here at Tech. Conner is currently teaching PHYS 2401 labs. On Wednesday morning, his lab is at 10:00 AM. That morning the TA with the lab immediately following his woke up sick and couldn't come in, and so emailed the rest of the 2401 TAs asking for someone to cover. Conner stepped up and took two back-to-back labs, meaning if he ate lunch that date, it was in the middle of the afternoon. That's dedication.

CONGRATULATIONS, CONNER!!!
