

TA OF THE WEEK

November 4, 2022

Niramay Gogate

Hometown: Pune, India

Research Advisor: Andrew Whitbeck

This week's TA of the week is Niramay Gogate.

A couple of weeks ago, more than one TA needed a substitute to cover their labs. Niramay stepped up, covering multiple labs for more than one TA. The standard expectation for a TA covering someone's lab is once per week. Niramay showed himself to be a true team player by exceeding that expectation.

CONGRATULATIONS, NIRAMAY!!!
