

TA OF THE WEEK

February 13, 2023

Nasir Siddiqui

Hometown: Karachi, Pakistan

Research Advisor: Juyang Huang

This week's TA of the week is Nasir Siddiqui.

This past week one of our TAs woke up sick the morning he had two labs. On such short notice, it is hard to find someone to cover the labs. Nasir had taught this particular lab in the past but has a different assignment this semester. When he heard about the other TA getting sick, Nasir volunteered to cover for him. Many thanks to Nasir for being willing to assist another TA with little notice.

CONGRATULATIONS, NASIR!!!
