

Physics & Astronomy Reception for Dr. Jessica Esquivel

Friday, April 14

4:30pm to 6:00pm in Science 103

As sponsors of the 6th annual Big 12 LGBTQIA & Allies Summit, the Texas Tech Department of Physics & Astronomy will be hosting the summit's plenary speaker Dr. Jessica Esquivel for a come-and-go reception. Please swing to chat and snack with Dr. Esquivel, an Associate Scientist at Fermilab!

Dr. Esquivel is one of ~100 Black women with a PhD in physics in the country, the 2nd black woman to graduate with a PhD in physics from Syracuse University, and the 3rd Black woman to hold an Associate Scientist position at Fermilab. She identifies as female, Black, Mexican, lesbian, neurodivergent, a physicist, and Texan. Dr. Esquivel is a recognized advocate for creating just and equitable spaces in physics and focuses on the intersections of race, gender and sexuality in her community engagement efforts.
