"The Nature of Color" read at a public lecture sponsored by the University of Texas, Dallas, on November 4, 1982.

"Kripke and Putnam on Scientific Discovery" read at the New Mexico and West Texas Philosophical Society meeting in April 1982.

"Color Terms and Their Use" read at the West Virginia Philosophical Society meeting, April 1979.

Commentator on Professor David Hill's paper "Galileo's Analysis of Centrifugal Tendencies" at the West Virginia Philosophical Society meeting of October 21, 1977.

Funded Research: Fellowships and Grants

Visiting Fellowship at the *Center for Philosophy of Science* at the University of Pittsburgh for the 1992-1993 academic year. Project: how can programs running on brains explain visual representation? The amount paid by these fellowship differs from fellow to fellow. My stipend was for \$8,000, which is the highest sum paid any fellow.

Faculty Development Leave from Texas Tech University for the 1992-1993 academic year to further my research on color and its connection to visual representation. This Leave was also granted to me so that I could accept the Visiting Fellowship describe above. This leave paid half my yearly salary.

Faculty Development Leave from Texas Tech University for the Fall of 1986 to complete my work on sensations (which eventually became "Functionalism, The Absent Qualia Objection and Eliminativism" - see under publications) and on dispositions (which eventually became "Are Physical Properties Dispositions?" - see under publications). This leave paid my salary for the Fall of 1986.

Fellowship for College Teachers from the National Endowment for the Humanities, for the year 1 September 1984 to 31 August 1985. The purpose of the fellowship was to give me time off from teaching duties so that I could pursue my research interests in color and the objective-subjective

distinction. (Two papers came out of these studies. "Color and the Anthropocentric Problem" and, eventually, "The Relational Nature of Color" - see under publications.) The fellowship paid me the amount of my 1984-1985 salary. Texas Tech University augmented this by paying the benefits that I would have received had I taught at Tech during 1984-1985.

Fellowship for \$2,500 to attend a Summer Seminars for College Teachers, sponsored by the National Endowment for the Humanities. This Summer Seminar was called "Reasons, Justification and Knowledge" and it was directed by Professor Robert Audi at the University of Nebraska, Lincoln from June 15, 1981 to August 7, 1981.

Post-doctoral Fellowship for \$1,600 to attend a Summer Institute sponsored by the National Endowment for the Humanities. This Summer Institute was called "Psychology and the Philosophy of Mind: Conceptual Issues in the Cognitive Sciences" and it was directed by Professor Jerry Fodor from M. I. T. at the University of Washington, Seattle, Washington from June 21, 1981 to July 31, 1981 (I declined this fellowship to accept the fellowship for College Teachers described above.)
