

FROM LUBBOCK TO DC

Translating Public Administration/Political Science into a Career Solving the Government's Most Challenging Problems.

**WEDNESDAY,
APRIL 28, 2021**
3:30pm - 5:00pm

Join Texas Tech alums, Anna Lavis and Monica Rivas, for an inside look on how they chartered a career working among our nation's top federal leaders to solve some of the most challenging problems. From helping agencies like NASA to Department of Agriculture, they will provide insights on how their education led them to this exciting career and tips on how you can do the same.

Visit www.guidehouse.com to learn more about their company before the event. Come with any questions you wish to ask – they are looking to Techsanize our nation's capital!
