Learning in Socially Distanced Environments: Impacts and Implications.

09.01.2020

As the world careens towards a 'new normal' of social distancing, educators, and learners are facing challenges of adjustment and adaptation like never before.

a zoom talk

Social distancing at this rate is unprecedented which leaves us with more questions than answers, as we try to navigate these uncharted waters blindfolded! To protect the integrity of our learning environments and academic intents, it is crucial to investigate key questions that might help us better prepare for the long roads of distanced learning ahead. That is the core purpose behind the series of studies by Dr. Papia Bawa.
