

## Field Technician

Come work with us in the great outdoors and wide open spaces of West Texas. We are an established multi-generational broad acre farming operation centrally located 10 miles north of the Lubbock Airport. The field technician is a crucial team member responsible for carrying out the field plan set forth by the Farm Manager.

### Things you will learn about:

- Land and resource management
- Environmental stewardship
- Modern farming methods/ techniques
- Farm Technology
- Incorporating livestock into a broadacre system.
- Chemistry, Microbiology, Mechanical engineering, Hydrology, Phytology

### Things you will do:

- Operating tractors utilizing various farm implements.
- Performing simple scheduled maintenance on farm equipment.
- Welding (Depending on ability)
- Pump maintenance

### Minimum Requirements:

- Committed to learning
- Ability to work independently or with a team
- General Knowledge of Agriculture
- Experience with farm machinery
- Ability to work in dusty environments
- Ability to lift, pull, or push at least 50 lbs consistently throughout the day

### Compensation:

Competitive compensation starts at \$12/ hour but will increase based on skills, experience, and proven performance. This is a great opportunity for someone wanting to pursue a career in any area of agriculture.

### Disclaimer:

The above statements are intended to describe the general nature and level of work being performed by people assigned to this classification. They are not constructed as an exhaustive list of all responsibilities, duties, and skills required of personnel so classified. All personnel may be required to perform duties outside of their normal responsibilities from time to time, as needed.
