

## Part Time Job Opportunity

My brothers and I are TTU CASNR Alumni and started an environmental reclamation company in 2014. We are located in Shallowater and would like to employ a college student part time. We were fortunate to have great part time jobs throughout college and want to offer the same opportunity to TTU CASNR students.

This position will be outdoors/indoors and require lifting of at least 50 lbs. Job description will be pretty broad but will include :

- forklift operations
- cleaning shop
- cleaning trucks
- grounds upkeep
- parts runner
- maintenance on equipment

Working hours would be flexible between 8 - 5.

Thanks for your time.

Thanks,

Landon Kerby
