Subject: Lone Star College CyFair

We are looking for a Grounds Supervisor for our 160 acre CyFair campus in Cypress, TX. I was the previous Grounds supervisor, before my promotion, and am now tasked with finding my replacement. The position is not posted yet, but should be posted at <https://www.lonestar.edu/employment/> soon. We would prefer applicants with some education in Horticulture or a closely related field. If they are bilingual or have irrigation knowledge it would be beneficial, but is not required. Lone Star offers great benefits, holidays, spring and winter breaks off (paid), and a good working environment. If anyone is interested they can email me their resume, or watch the website for the job posting. I would encourage all qualified applicants to apply. We do not discriminate.

Thanks,

Mike

Michael D. Tolman
