

CURRICULUM VITAE

March 3, 2025

I. PERSONAL INFORMATION

Katie Lynn Lewis, Ph.D.

Professor, Soil Chemistry and Fertility

Texas A&M AgriLife Research and Texas Tech University

1102 E. Drew Street

Lubbock, TX 79403

Phone: 806-746-6101

E-mail: katie.lewis@ag.tamu.edu katie.lewis@ttu.edu

Appointed Sept. 2, 2020

II. EDUCATION

Ph.D., Soil Science, Texas A&M University, College Station, Texas, December 2014.

Title: *Soil and Plant Responses to Lipid-extracted Algae Soil Amendment*

M.S., Soil Science, Texas A&M University, College Station, Texas, December 2010.

Title: *Effects of Oilseed Meals on the Germination, Growth, and Survival of Crop and Weed Species*

B.S., Chemistry for Professional Chemists (ACS certified), Sam Houston State University, Huntsville, Texas, May 2008.

III. PROFESSIONAL EXPERIENCE

Current Position

A. Professor, Soil Chemistry and Fertility, appointed Sept. 1, 2024

Joint appointment of 75% at Texas A&M AgriLife Research (Lubbock, TX) and 25% at Texas Tech University, Plant and Soil Science Department (Lubbock, TX).

B. Position Description, Expectations, and Effort

Texas A&M AgriLife Research (100% Research Appointment, 75% of time)

1. Conduct and publish research independently and as part of a multidisciplinary team.
2. Communicate effectively with producers, industry, students, and other audiences through writing and public speaking.
3. Procure contract and grant funding.
4. Publish research findings in reputable journals.
5. Develop and sustain a strong graduate student training program.

Texas Tech University (25% of time)

1. Teach undergraduate and graduate-level soil fertility courses once per year in the fall semester.
2. Advise and train graduate students.
3. Conduct funded research.
4. Publish research in reputable journals.

Previous Positions

- A. Associate Professor, Soil Chemistry and Fertility, Texas A&M AgriLife Research/Texas Tech University, Lubbock, TX, Sept. 1, 2020 – Aug. 31, 2024
- B. Assistant Professor, Soil Chemistry and Fertility, Texas A&M AgriLife Research/Texas Tech University, Lubbock, TX, Sept. 2, 2014 – Aug. 31, 2020
- C. Tom Slick Graduate Student Fellow, Texas A&M University, College Station, TX, Jan. 2014 – Sept. 2014
- D. Graduate Research Assistant/Teaching Assistant, Texas A&M University, College Station, TX, August 2008 – Sept. 2014

IV. RESEARCH

Percent of Effort: 80% of AgriLife Research appointment

A. Program Statement

My program aims to establish a nationally recognized Soil Chemistry and Fertility Program based on innovative research and competitive graduate student training. The Soil Chemistry and Fertility Program conducts research to **determine more practical soil fertilization and management strategies that will maintain or enhance the value and quality of soils and optimize nutrient and water use efficiency**. Graduate training is a major component of the research and education within this program.

Grants and Contracts supporting my research, as well as detailed summaries of my **Publications and Professional Output** are given in the following sections. Being a PI on several federal grants provides evidence for leadership in my field.

a. Major Research Activities and Collaborations:

1. Sustainable agricultural intensification and enhancement through the utilization of regenerative agricultural management practices

The *project goal* is not only to intensify agricultural production but to achieve this in an environmentally sustainable manner that enhances agronomic, economic, and community resiliency in the US Southern Great Plains (SGP). This is being achieved by successfully demonstrating the benefits of integrating regenerative agricultural practices and providing training on emerging technologies to increase C sequestration, reduce greenhouse gas (GHG) emissions, mitigate climate change impacts, diversify producer income, conserve scarce water, and enhance rural economies. Intensification will be achieved by significantly reducing fallow periods. Through this increased use of land resources, I anticipate this research, and outreach will provide the foundational information needed to increase agricultural production and profitability of multiple commodities while reducing agriculture's environmental footprint.

- Collaboration of five universities and two institutes.
- I am the lead project investigator with a total of 28 project investigators.
- Currently 6 Ph.D. students and 2 postdocs are involved with the project.
- Expected to be at least 28 peer-reviewed publications and 150 conference presentations.

- Develop regionally calibrated agricultural and climatological models and economic models.

2. Developing baseline soil organic carbon levels across Texas

Soil organic carbon (SOC) is the fundamental building block of soil physical, chemical, and biological processes. Because of the large environmental and soil effects on C capture and storage, C sequestration potential could vary drastically across the state. The reason for conducting this research is due to a dearth of information on soil C in Texas cropping systems and to assess the potential for increase in soil C with the adoption of conservation practices.

- This research represents the largest C assessment in Texas history and improves our understanding of the C dynamics of Texas cropping systems.
- The sampling scheme accounted for more than 7.5 million ha (18.4 million acres) of arable Texas cropland.
- In total, 83 farms in five regions were sampled and analyzed for soil characteristics.

3. Diversifying organic cotton production in semi-arid environments of Texas

The objective of this project was to 1) identify and quantify the effects of soil health promoting practices in organic and conventional cropping systems in semi-arid regions of Texas via on-farm assessments; 2) evaluate the impact of cover crops (type and seeding rate), crop rotations, and conservation tillage practices in organic and conventional systems on weed control, ecological services (C sequestration, GHG emissions, and N availability) and stored soil moisture in replicated research trials; 3) Conduct economic analysis of the proposed production systems to evaluate factors limiting adoption of soil health promoting practices in organic and conventional farming; 4) compile and disseminate information to growers, researchers, county agents, natural resource managers, and regional public officials on the production potential, financial viability, and ecological impacts of evaluated cropping systems.

4. Nutrient demands of modern cotton cultivars in the Southern High Plains and Rolling Plains of Texas

The objectives of this proposed research are to determine the nutrient requirements of modern cotton (*Gossypium hirsutum*) cultivars of different maturities and growth habits with the goal of optimizing fertilizer inputs and reducing cost per unit of production across multiple environments. Over the past two to three decades, improved plant genetics have increased the yield potential of cotton partially as the result of greater efficiency and enhanced tolerance to abiotic and biotic stress. Industry and academia have optimized many aspects of crop management strategies for modern cultivars, but little has been done to reevaluate nutrient requirements. Of course, nutrient requirements will likely increase with an increase in yield potential.

However, due to the increased efficiency of modern cultivars, we have determined that the requirements per production unit (nutrient uptake index) are less than the recommendations established in the early 1990s. The next question to address is how maturity and growth habits of modern cultivars influences nutrient uptake dynamics (amount and time). This research aims to determine nutrient requirements and accumulation rates of modern cotton cultivars of varying maturities produced in multiple environments of the Rolling Plains and High Plains of Texas.

5. Impacts of cotton cropping systems, conservation practices, and nitrogen fertilization on soil's productive capacity in the Texas Southern High Plains
The objective of this proposed research will be to evaluate cropping systems and management strategies that could render deficit or dryland farming more viable. When optimized for regional conditions, conservation tillage, crop rotation, and cover crop practices could conserve water and soil resources through increased water holding capacity and SOC, which thereby reduces irrigation water requirements, while also improving soil health. In addition to SOC, optimum nitrogen (N) fertilization could also improve cotton yield and lint quality of deficit irrigation farming operations. By increasing organic inputs in conservation management systems, there is a greater potential to increase net N immobilization, particularly in semiarid environments. One of the reasons that yields may be reduced when implementing these systems could be due to reduced N availability. This series of proposed studies focuses on optimizing crop rotations and tillage, irrigation, and N management practices specific to the Texas SHP that will maintain or enhance cotton production while securing the health of our soils.

26. **Lewis, K.L.**, and J.A. Burke. 2022. Soil health in Texas cropping systems. Caprock Crops Meeting. 8 September 2022. Hereford, TX. Attendance: 55.
27. **Lewis, K.L.** 2022. Nutrient management strategies to improve use efficiency. Sandyland Ag Conference. 9 February 2022. Seminole, TX. Attendance: 200.
28. **Lewis, K.L.** 2022. Carbon storage and market thoughts. Mid-Plains Ag Expo. 8 February 2022. Plainview, TX. Attendance: 15.
29. **Lewis, K.L.** 2022. Carbon cycling and storage. Southern Mesa Ag Conference. 20 January 2022. Lamesa, TX.
30. **Lewis, K.L.** 2022. Nutrient management strategies to improve use efficiency. 60th Annual Blackland Income Growth Conference. 11 January 2022. Virtual
31. **Lewis, K.L.** 2022. Carbon cycling and storage. 60th Annual Blackland Income Growth Conference. 11 January 2022. Virtual.
32. **Lewis, K.L.**, J.A. Burke, C.D.R. White, C.J. Cobos, J.W. Keeling, and P.B. DeLaune. 2022. Cover crop challenges and carbon storage in semi-arid, sandy soil of the Texas High Plains. High Plains Cotton Conference. 28 January 2022. Spearman, TX.
33. Burke, J.A., **K.L. Lewis**, C.D.R. White, C.J. Cobos, J.W. Keeling, and P.B. DeLaune. 2022. Soil health and carbon markets in semi-arid cropping systems. Northwest Panhandle Ag Conference. 27 January 2022. Dalhart, TX. Attendance: 50.

34. **Lewis, K.L.**, G. Ritchie, M. Maeda, R. Noland, P. DeLaune, and J. Dever. 2021. Optimizing nutrient management of modern cotton cultivars. Tom Green Cotton Tour. 29 September 2021.
35. **Lewis, K.L.**, J.W. Keeling, P.B. DeLaune, J.A. Burke, M. McDonald, and C.J. Cobos. 2021. Cover crops and carbon storage in semi-arid, sandy soils. Martin County Producer Meeting. 29 September 2021.
36. **Lewis, K.L.** 2021. Fertility concerns in the semi-arid High Plains. Texas Ag Industries Association. 15 September 2021. Virtual.
37. **Lewis, K.L.** 2021. Carbon cycling and storage. West Texas Agricultural Chemical Institute. 12 September 2021. Lubbock, TX. Attendance: 114.
38. **Lewis, K.L.** 2021. Soil health and cotton. Lower Rolling Plains Ag Conference. 7 April 2021. Virtual.
39. **Lewis, K.L.** 2021. Using cover crops to improve soil health. The Master Irrigator. 24 March 2021. Virtual.
40. **Lewis, K.L.** 2021. Soil health and fertility in cotton. Southeast Panhandle Ag Conference. 3 March 2021. Virtual.
41. **Lewis, K.L.** 2021. Soil and nutrient management for cotton in sandy soil. Sandyland Ag Conference. 25 February 2021. Virtual Live-Stream Meeting.
42. **Lewis, K.L.**, G. Ritchie, M. Maeda, R. Noland, P. DeLaune, and J. Dever. 2021. Optimizing nutrient management of modern cotton cultivars. NW Panhandle Ag Conference. 28 January 2021.
43. **Lewis, K.L.** J.W. Keeling, P.B. DeLaune, J.A. Burke, A. Bumguardner, and C.J. Cobos. 2021. Optimizing nitrogen management across cotton cropping systems. NW Panhandle Ag Conference. 28 January 2021. Virtual Live-Stream Meeting.
44. **Lewis, K.L.** 2021. Soil health and cotton production. Llano Estacado Cotton Conference. 26 January 2021. Virtual.
45. **Lewis, K.L.**, G. Ritchie, M. Maeda, R. Noland, P. DeLaune, and J. Dever. 2021. Optimizing nutrient management of modern cotton cultivars. NW Panhandle Ag Conference. 20 January 2021.
46. **Lewis, K.L.** 2020. Crop rotations, cover crops, and nutrient management. High Plains Ag Conference. 4 December 2020. Lubbock, TX.
47. **Lewis, K.L.**, G. Ritchie, M. Maeda, and E. Kimura. 2020. Cotton and Peanuts across the High Plains and Rollings Plains - Panel. West Texas Agricultural Chemical Conference. September 2020. Virtual.
48. **Lewis, K.L.** 2020. Later season foliar potassium fertilizer: is it worth the cost? Coastal Bend Soil Campaign. October 2020. Virtual.
49. **Lewis, K.L.** and P. DeLaune. 2020. Cover crops across the High Plains and Rollings Plains. Cotton Strategy Meeting. July 2020. Virtual.
50. **Lewis, K.L.** 2020. Soil health and cover crops. Castro County Ag Day. February 2020. Dimmitt, TX.
51. **Lewis, K.L.** 2020. Fertility decisions and cover crop potential. Hub of the Plains Ag Conference. February 2020. Lubbock, TX.
52. **Lewis, K.L.** 2020. Soil health. Turf and Ornamental Workshop. February 2020. Lubbock, TX.

53. **Lewis, K.L.** 2020. Fertility decisions and cover crop potential. Llano Estacado Ag Conference. February 2020. Muleshoe, TX.
54. **Lewis, K.L.** 2020. Soil Health across the Southern High Plains. Southern Mesa Ag Conference. January 2020. Lamesa, TX.
55. **Lewis, K.L.** 2019. Cover crops and soil health. High Plains Ag Conference. December 2019. Lubbock, TX.
56. **Lewis, K.L.** 2019. Soil Fertility and nutrient management. Texas Ag Industries Association. September 2019. Lubbock, TX.
57. **Lewis, K.L.** and W. Keeling. 2019. Cover crops and soil health. High Plains Consultants Conference. March 2019. Lubbock, TX.
58. **Lewis, K.L.** 2019. Soil health management systems. Concho Valley Cotton Conference. February 2019. San Angelo, TX.
59. **Lewis, K.L.** 2019. Nutrient Management. Lubbock Master Gardener Program. February 2019. Lubbock, TX.
60. **Lewis, K.L.** 2019. Soil health management systems. Cotton Conference. February 2019. Olton, TX.
61. **Lewis, K.L.** 2019. Soil health management systems. Cotton Conference. February 2019. Spearman, TX.
62. **Lewis, K.L.** 2019. Soil health management systems. Llano Estacado Cotton Conference. January 2019. Muleshoe, TX.
63. **Lewis, K.L.** 2019. Soil health management systems. Top of Texas Cotton Conference. January 2019. Pampa, TX.
64. **Lewis, K.L.** 2019. Soil and nutrient management for cotton production. Southern Mesa Ag Conference. January 2019. Lamesa, TX.
65. **Lewis, K.L.** 2018. Cover crops and nutrient management. High Plains Ag Conference. December 2018. Lubbock, TX.
66. **Lewis, K.L.** 2018. Soil and nutrient management for cotton production. Caprock Crop Production Conference. January 2018. Plainview, TX.
67. **Lewis, K.L.** 2018. Soil and nutrient management for cotton production. South Plains Ag Conference. January 2018. Brownfield, TX.
68. **Lewis, K.L.** 2018. Soil and nutrient management for cotton production. Southern Mesa Ag Conference. January 2018. Lamesa, TX.
69. **Lewis, K.L.** and W. Keeling. 2017. Soil and nutrient management effects on cotton yield. Dawson County Field Day, AG-CARES farm. September 2017. Lamesa, TX.
70. **Lewis, K.L.** 2017. Cover crop and soil management practices. West Texas Agricultural Chemical Conference. September 2017. Lubbock, TX.
71. **Lewis, K.L.** 2017. Phosphorus management in Texas' High Plains. Tri County Crop Tour (Glasscock, Reagan, and Upton Counties). September 2017.
72. **Lewis, K.L.** 2017. Soil health and nutrient management. High Plains Consultants Conference. March 2017. Lubbock, TX.
73. **Lewis, K.L.** 2017. Nutrient management in the Southern High Plains. West Central, LLC Agronomy Update. January 2017. Plainview, TX.
74. **Lewis, K.L.** 2017. Soil health and nutrient management. Caprock Crop Production Conference. January 2017. Plainview, TX.

75. **Lewis, K.L.** 2016. Nutrient effects on cotton lint quality. AgriLife Quality Cotton Conference. August 2016. Lubbock, TX.
76. **Lewis, K.L.** and W. Keeling. 2016. Soil management effects on cotton yield. Dawson County Field Day, AG-CARES farm. September 2016. Lamesa, TX.
77. **Lewis, K.L.** and P. DeLaune. 2016. Soil and nitrogen fertilization management. Rolling Plains Spring Field Day. May 2016. Chillicothe, TX.
78. **Lewis, K.L.** 2016. Soil nutrient management strategies. Lower Rolling Plains Ag Conference. April 2016. Snyder, TX.
79. **Lewis, K.L.** 2016. Irrigation water: salinity and nutrients. South Plains Irrigation Conference. April 2016. Brownfield, TX.
80. **Lewis, K.L.** and J. Moore. 2016. Beneficial reuse of oil and gas produced water. Water Advancement, Technology, Training & Solutions (WATTS) Conference. March 2016. Lubbock, TX.
81. **Lewis, K.L.** and J. Moore. 2015. Beneficial reuse of oil and gas produced water. Energy Water Solutions – Pecos Field Day. November 2015. Pecos, TX.
82. **Lewis, K.L.** 2015. Potassium availability and uptake. Texas Ag Industries Association Conference. September 2015. Lubbock, TX.
83. **Lewis, K.L.** 2015. Soil nutrient management strategies. Lower Rolling Plains Ag Conference. April 2015. Snyder, TX.
84. **Lewis, K.L.** 2015. Soil fertility in the Texas Southern High Plains. Southern Mesa Agricultural Conference. January 2015. Lamesa, TX.
85. **Lewis, K.L.** 2014. Soil fertility research update and program introduction. 62nd Annual Agricultural Chemicals Conference – WTACI. September 2014. Lubbock, TX.

B. Professional improvements and activities

1. AgriLife LEAD, leadership program. (2023 – 2024)
2. Cultivating Change Foundation, Focus Group. Virtual. (2020)
3. Soil Health Institute – Soil Health Webinar Series. Virtual. (2020)
4. Soil and Crop Sciences Faculty Retreat. College Station, TX. (December 2019)
5. Professional Development Seminar, “Making the transition from staff to supervisor”. Lubbock, TX. (January 2018)
6. Invited guest at the Lubbock Professional Women’s Group lunch to participate on a panel discussion: “Women in a male dominated field”. Lubbock, TX. (September 2017)
7. Attended Pedagogy workshop at AgriLife Staff Conference, College Station, TX. (January 2017)
8. Extension Professional Development – Soil Fertility and Nutrient Management Lectures (2016)
9. Leadership Conference – TAMU, College Station, TX. (November 2014)

C. Committees

a. Professional organization committees

1. Fluid Fertilizer Foundation FERT – Board Member, Research Representative (2025 – present)

2. West Texas Ag Chemical Institute – Scholarship Committee, Chair (2019 – 2023)
3. West Texas Ag Chemical Institute – Program Committee (2017 – 2020)
4. Great Plains Soil Fertility Conference – Organizing Committee (2017 – present)

b. Departmental and Texas A&M AgriLife Research committees

1. AgriLife Research Center Director, search committee (2023)
2. AgriLife Research Greenhouse Gas Center Director, search committee (2023)
3. Extension Viticulture, search committee (2022 – 2023)
4. Extension State Cotton Specialist, search committee (2022 – 2023)
5. Weed Science/Cropping System assistant professor, search committee (2022 – 2023)
6. Faculty Regional Director of the AgriLife Field to Market, FieldPrint Calculator Program (2016-present)
7. Extension Plant Pathology Specialist, search committee (2019)
8. Extension State Cotton Specialist, search committee (2019)
9. Soil Carbon assistant/associate professor, search committee (2017-2018)
10. Soil Chemistry and Fertility assistant/associate professor, search committee (2015-2016)

c. Departmental Texas Tech committees

1. Pedology Associate Professor, search committee (2022)
2. Thornton Chair Forage Agronomist, search committee (2021)
3. Plant and Soil Science farm management committee (2017 – present)
4. Soil Microbiology assistant/associate professor, search committee (2016)
5. Ecophysiology assistant/associate professor, search committee (2015-2016)
6. Soil and Water Agroecology research assistant professor, search committee (2015)

D. Invited reviews and editorial roles

a. Editor

1. Agrosystems, Geosciences, and Environment (2024 to present)

b. Associate editor

1. Agrosystems, Geosciences, and Environment (2018 to present)
2. Agronomy Journal (2023)

c. Peer-reviewed publications

1. Agronomy: 2020 (x2)
2. Agricultural & Environmental Letters: 2019, 2020 (x2), 2021, 2022 (x2)
3. Crop Science Journal: 2018
4. Peanut Science: 2016
5. Agronomy Journal: 2014, 2015, 2017 (x2), 2018, 2019
6. Geoderma: 2015
7. Soil and Water Conservation: 2014 and 2016

8. Applied and Environmental Soil Science: 2012

d. Peer-review grant proposals

1. California Government Research Program, July 2023
2. NIFA-AFRI, Foundational Program, November 2022
3. NIFA-AFRI, Soil Health Program, August 2021
4. NIFA-AFRI, Foundational Program, September 2020

e. Judging student competitions

1. Beltwide Cotton Conference. Ph.D. student oral competition. Agronomy, Physiology, and Soil. January 2024. Fort Worth, TX.
2. Beltwide Cotton Conference. Ph.D. student oral competition. Agronomy, Physiology, and Soil. January 2023. New Orleans, LA.
3. ASA-CSSA-SSSA. Graduate student rapid session. S4/S8 Soil Fertility and Plant Nutrition. November 2022. Baltimore, MD.
4. Great Plains Soil Fertility Conference. Graduate student poster competition. March 2022. Virtual.
5. Beltwide Cotton Conference. Ph.D. student oral competition. Agronomy, Physiology, and Soil. January 2021. Virtual.
6. ASA-CSSA-SSSA. Graduate student poster competition. Cover Crop Community. November 2020. Virtual.
7. ASA-CSSA-SSSA. Ph.D. student oral competition. Cover Crop Community. November 2020. Virtual.
8. Beltwide Cotton Conference. M.S. student oral competition. Agronomy, Physiology, and Soil poster session. January 2019. New Orleans, LA.
9. Beltwide Cotton Conference. Ph.D. student poster competition. Agronomy, Physiology, and Soil poster session. January 2017. Dallas, TX.
10. Beltwide Cotton Conference. Ph.D. student oral competition. Agronomy, Physiology, and Soil oral session. January 2017. Dallas, TX.
11. ASA-CSSA-SSSA. Graduate student poster competition. ASA, Soil-Plant-Water-Relations Community. November 2016. Phoenix, AZ.
12. Great Plains Soil Fertility Conference. Graduate student poster competition. March 2016. Denver, CO.

E. Professional organization involvement

a. Leadership roles

1. Great Plains Soil Fertility Conference – Chair (2021 – present)
2. Soil Fertility Section, Soil Science Society of America, Chair (2024 – 2025)
3. Soil Fertility Section, Soil Science Society of America, Vice Chair (2023 – 2024)
4. Agronomy, Physiology, and Soil Conference, Beltwide Cotton Conference – Past Chair (2020 – 2021); Chair (2019 – 2020); Vice Chair (2018 – 2019)
5. West Texas Ag Chemical Institute – Past President (2019 – 2020); President (2018 – 2019); Vice President (2017 – 2018); Secretary (2016 – 2017)
6. International Plant Nutrition Institute (IPNI) Potassium Working Group – Texas representative (2018 – 2019)

7. Cover Crop Community, ASA Conference – Chair (2019 – 2020); Vice Chair (2018 – 2019)
8. No-Till – Texas Advisory Board (2017 – 2019)
9. Great Plains Soil Fertility Conference – Southern Region Representative (2017 – present)
10. Southern Cover Crops Council – Texas representative for Southern Cover Crops Council development (2016 – 2018)
11. Plant and Soil Science Agronomy Club Advisor, Texas Tech University (2015 – present)

b. Leadership activities

1. Beltwide Cotton Conference. Moderator for Agronomy, Physiology, and Soil Conference. San Antonio, TX. (January 2022)
2. Beltwide Cotton Conference. Moderator for Agronomy, Physiology, and Soil Conference. Virtual. (January 2021)
3. Beltwide Cotton Conference. Moderator for Agronomy, Physiology, and Soil Conference. Austin, TX. (January 2020)
4. ASA-CSSA. Moderator for Cover Crop ASA Session. San Antonio, TX. (November 2019)
5. ASA-CSSA. Moderator for Cover Crop ASA Session. Baltimore, MD. (November 2018)
6. Beltwide Cotton Conference. Moderator for Agronomy, Physiology, and Soil Conference. San Antonio, TX. (January 2018)
7. ASA-CSSA-SSSA. Moderator for ASA session. Tampa, FL. (October 2017)
8. Beltwide Cotton Conference. Moderator for Agronomy, Physiology, and Soil Conference. Dallas, TX. (January 2017)
9. Beltwide Cotton Conference. Moderator for Soil Management and Plant Nutrition Conference. New Orleans, LA. (January 2016)

F. Professional affiliations

1. West Texas Agricultural Chemical Board (2016 – present)
2. Great Plains Soil Fertility Conference Board (2017 – present)
3. High Plains Association of Crop Consultants (2015 – present)
4. Texas Ag Industries Association (2015 – present)
5. Soil Science Society of America (2008 – present)
6. American Society of Agronomy (2008 – present)
7. Crop Science Society of America (2008 – present)

G. Community Service

1. Smith Sprouts – Elementary Garden Club. Provided soil science education. (2022).
2. Mentor to Whiteface I.S.D. 6th grade science fair team. Soil health evaluation – laboratory experiments. Placed at National Competition (2016 – 2018)
3. Ag-in-the-Bag. Provided cotton education to Lubbock elementary schools. (September 2017 and 2019).

VI. TEACHING

Percent of Effort: 10% of AgriLife Research appointment

A. Courses

Courses	Credit Hours	Frequency Taught	Number of Students	Student Evaluation Avg.
Undergraduate Courses				
PSS 4335-001 (Soil Fert. & Nutr. Mgmt., classroom)	3	Once every 2 years	116	4.75
PSS 4335-D01 (Soil Fert. & Nutr. Mgmt., distance)	3	Once every 2 years	142	4.37
Graduate Courses				
PSS 5331-001 (Adv. Nutr. Mgmt., classroom)	3	Once every 2 years	80	4.90
PSS 5331-D01 (Adv. Nutr. Mgmt., distance)	3	Once every 2 years	85	4.55
			423	4.64

Fall 2024 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-D01, distance (24 students, evaluation score of 4.23, 4.44 PSS avg, 4.43 COL avg, 4.40 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-D01, distance (10 students, evaluation score of 4.70, 4.44 PSS avg, 4.43 COL avg, 4.40 TTU avg)

Fall 2023 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-001 (15 students, evaluation score of 4.73, 4.47 PSS avg, 4.43 COL avg, 4.37 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-001 (11 students, evaluation score of 4.69, 4.47 PSS avg, 4.43 COL avg, 4.37 TTU avg)

Fall 2022 – Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-D01, distance (26 students, evaluation score of 4.80, 4.41 PSS avg, 4.44 CASNR avg, 4.39 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-D01, distance (22 students, evaluation score of 4.39, 4.41 PSS avg, 4.44 CASNR avg, 4.39 TTU avg)

Fall 2021 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-001 (11 students, evaluation score of 4.90, 4.43 PSS avg, 4.43 CASNR avg, 4.37 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-001 (17 students, evaluation score of 4.93, 4.43 PSS avg, 4.43 CASNR avg, 4.37 TTU avg)

Fall 2020 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-D01, distance (19 students, evaluation score of 4.29, 4.37 PSS avg, 4.34 CASNR avg, 4.36 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-D01, distance (23 students, evaluation score of 4.51, 4.37 PSS avg, 4.34 CASNR avg, 4.36 TTU avg)

Fall 2019 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-001 (32 students, evaluation score of 4.60, 4.43 PSS avg, 4.37 CASNR avg, 4.37 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-001 (16 students, evaluation score of 4.90, 4.43 PSS avg, 4.37 CASNR avg, 4.37 TTU avg)

Fall 2018 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-D01, distance (31 students, evaluation score of 4.17, 4.36 PSS avg, 4.28 CASNR avg, 4.34 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-D01, distance (12 students, evaluation score of 4.20, 4.36 PSS avg, 4.28 CASNR avg, 4.34 TTU avg)

Fall 2017 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-001 (34 students, evaluation score of 4.90, 4.33 PSS avg, 4.33 CASNR avg, 4.37 TTU avg)

Advanced Nutrient Management (graduate)

PSS 5331-001 (16 students, evaluation score of 4.87, 4.33 PSS avg, 4.33 CASNR avg, 4.37 TTU avg)

Fall 2016 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-001 (9 students, evaluation score of 4.79)

PSS 4335-D01, distance (18 students, evaluation score of 4.15)

Advanced Nutrient Management (graduate)

PSS 5331-001 (9 students, evaluation score of 4.96)

PSS 5331-D01, distance (13 students, evaluation score of 4.33)

Spring 2016 - Texas Tech University, Plant and Soil Science:

Problems: Soil Nutrient Management (undergraduate)

PSS 4001-003 (1 student, evaluation score not available)

Fall 2015 - Texas Tech University, Plant and Soil Science:

Soil Fertility and Nutrient Management (undergraduate)

PSS 4335-001 (15 students, evaluation score of 3.88)

PSS 4335-D01, distance (24 students, evaluation score of 3.96)

Advanced Nutrient Management (graduate)

PSS 5331-001 (11 students, evaluation score of 4.67)

PSS 5331-D01, distance (4 students, evaluation score not available)

Guest lecture for Plant Pathology in PSS Department. Nutrient Management and Plant Diseases. Texas Tech University. Lubbock, TX. Nov. 2017.

Guest lecturer in Biofuels and the Environment. Utilizing biofuel byproducts, such as oilseed meal residue and lipid-extracted algae, as soil amendments. Texas A&M University. College Station, TX. Nov. 2011.

B. Graduate Students

	Since Last Promotion (September 1, 2024)		Career (2014 – present)	
Degree	Chair or Co-chair	Member	Chair or Co-Chair	Member
M.S.	2	0	15	22
Ph.D.	1	0	12	13
Total	3	0	27	35

a. Presently chair, M.S.:

1. Katie Cason, Texas Tech University – Lubbock, 2025 – 2027
2. Tessa Bennett, Texas Tech University – Lubbock, 2022 – 2024
Recruitment Fellowship (Texas Tech Graduate School)

3. Noelia Curbelo-Lopez, Texas Tech University – Lubbock, 2024 – 2026
- b. Presently co-chair, M.S.:**
 1. Hensley Repak, Texas Tech University – Lubbock, 2024 – 2026
 - c. Presently on committee, M.S.:**
 1. Joshua Doria, Texas A&M University – College Station, 2022 – 2025
 - d. Presently chair, Ph.D.:**
 1. Nicholas Boogades, Texas Tech University – Lubbock, 2023 – 2026
 - e. Presently co-chair, Ph.D.:**
 1. Jennifer Chagoya, Texas Tech University – Lubbock, 2021 – 2025
 2. Christopher Cobos, Texas A&M University – College Station, 2021 – 2025
 - f. Presently on committee, Ph.D.:**
 1. Amanda Shine, Texas A&M University – College Station, 2024 - 2027
 2. Stephanie DeVilleneuve, Texas A&M University – College Station, 2021 – 2025
 3. Rupak Karn, Texas Tech University – Lubbock, 2022 – 2024
 4. Chase Brooks, Texas A&M University – College Station, 2023 – 2027
 5. Megan Singletary, Texas Tech University – Lubbock, 2024 - 2026
 - g. Graduated served as chair, M.S.:**
 1. Riley Babcock, Texas Tech University – Lubbock, 2022 – 2024
 2. Rebekah Ortiz, Texas Tech University – Lubbock, 2020 – 2023
 3. Hector Valencia, Texas Tech University – Lubbock, 2021 – 2023
 4. Taylor Wright, Texas Tech University – Lubbock, 2017 – 2020
“Response of different cotton varieties to Velum® Total in fields infested with *Rotylenchulus reniformis*”
Phytogen (Lubbock, TX)
 5. Luke Stutler, Texas Tech University – Lubbock, 2017 – 2019 (non-thesis)
Bayer Crop Sciences (Lubbock, TX)
 6. Mark McDonald, Texas Tech University – Lubbock, 2016 – 2018
“Impact of conservation management practices on greenhouse gas emission in semi-arid, intensively cropped regions of Texas”
Recruitment Fellowship (Texas Tech Graduate School)
Completed Ph.D. at Texas A&M University (College Station, TX)
 7. Joseph Burke, Texas Tech University – Lubbock, 2015 – 2018
“Soil health management in cotton monocultures on the Texas High Plains”
Presidential Fellowship in Sustainable Land and Water Development (Texas Tech President’s Office)
Completed Ph.D. at Texas A&M University (College Station, TX)
 8. James Grant, Texas Tech University – Lubbock, 2015 – 2017
“The effects of inoculum density, management practices, and environmental factors on the development of *Verticillium dahliae* within cotton”

h. Graduated served as co-chair, M.S.:

1. Nicholas Boogades, Texas A&M University – College Station, 2021 – 2023
Diversity Fellowship (Texas A&M University)
2. Leah Ellman, Texas A&M University – College Station, 2019 – 2021
“Influence of Cover Crop Selection on Soil Microbial Activity During a Transition to Organic Agriculture”
Soil Conservationist with Natural Resource Conservation Service (Winona County, Mn).
3. Bryce DeLong, Texas Tech University – Lubbock, 2018 – 2020
“Weed Management and Economics in Bollgard® II XtendFlex™ Cotton Systems”
Private crop consultant working in the Texas Southern High Plains.
4. Amee Bumguardner, Texas Tech University – Lubbock, 2016 – 2018
“Soil potassium effects on cotton (*Gossypium hirsutum*) growth, yield, and quality in the Texas High Plains”
Completed Ph.D. at Texas Tech University (Lubbock, TX)

i. Graduated served on committee, M.S.:

1. Blaine Patton, Texas Tech University – Lubbock, 2021 – 2023
2. Maxwell Smith, Texas Tech University – Lubbock, 2021 – 2023
3. Garrett Wesley, Texas Tech University – Lubbock, 2020 – 2022 (non-thesis)
4. Payton Martinez, Texas Tech University – Lubbock, 2021 – 2022
(non-thesis)
5. Garrett Huddleston, Texas Tech University – Lubbock, 2020 – 2022
“*Trichoderma* and *Fusarium* Dynamics in Semi-arid West Texas Cotton Production”
6. Emma Schmidt, Texas Tech University – Lubbock, 2020 – 2021
“Pairing sequential extractions and X-ray absorption spectroscopy to analyze potassium fixation in agricultural soils”
7. Clay Braden, Texas Tech University – Lubbock, 2020 – 2021
“Profitability impacts of cropping systems in the Southern High Plains of Texas”
8. Cindi Hazelton, Texas Tech University – Lubbock, 2019 – 2022
“Consequences of *Cenchrus ciliaris* Invasion on Native Vegetation and Competition with Native Species in Semi-Arid Rangelands of South Texas”
9. Grace Ogden, Texas Tech University – Lubbock, 2018 – 2020
“The Influence of Glufosinate in Auxinic-based herbicide Systems”
10. Emily Capule, Texas Tech University – Lubbock, 2018 – 2020
(non-thesis)
11. Andrew Dunlap, Texas Tech University – Lubbock, 2016 – 2019
“Irrigation, Planting Date, and Maturity Affect Soybean Productivity in the Texas High Plains”
12. Tanner Drake, Texas Tech University – Lubbock, 2015 – 2019
“Effects of Fruit Placement in Upland Cotton by Water Regimes”

13. Kyle Russell, Texas Tech University – Lubbock, 2017 – 2019
“Weed Management Systems in Auxin Tolerant Cotton and Non-Auxin Tolerant Cotton Response to Simulated Dicamba Drift”
14. Ashmita Rawal, Texas Tech University – Lubbock, 2017 – 2019,
“Determination of base saturation percentage in agricultural soils via portable x-ray fluorescence spectrometer”
15. Catherine Kobylinski, Texas A&M University – College Station, 2016–2019
“Combining GPR and EMI for Root Phenotyping in Multiple Soil”
16. Md Mahbubul Islam, Texas Tech University – Lubbock, 2017 – 2018
(non-thesis)
17. Lauren Tomlin, Texas A&M University – College Station, 2016 – 2018,
“The impacts of double cropping in a winter wheat system on soil health and crop yields”
18. Brady Arthur, Texas A&M University – College Station, 2016 – 2018,
“Investigation of the ability to credit residual nitrogen based on soil texture and nutrient management zone identification using soil electrical conductivity, pH, and reflectance”
19. Kelsey House, Texas Tech University – Lubbock, 2015 – 2017
(non-thesis)
20. Heather Elkins, Texas A&M University – College Station, 2015 – 2017,
“Cotton, *Gossypium hirsutum* L., cultivars differential response to salinity”
21. Hardy Parsons, Texas Tech University – Lubbock, TX, 2014 – 2018,
“Cotton boll distribution, yield, and fiber quality in response to irrigation”

j. Graduated served as chair, Ph.D.:

1. Lauren Selph, Lauren Selph, Texas Tech University – Lubbock, 2021 – 2024
2. Amee Bumguardner, Texas Tech University – Lubbock, 2018 – 2022
“Optimizing Fertilizer Management and Irrigation in Cotton Cropping Systems”
Accepted a research faculty position with Mississippi State University (Tupelo, MS).
3. Gondah Zolue, Texas Tech University – Lubbock, 2015 – 2020
“Biochar as an Amendment to Improve the Quality of Highly Degraded Soil”
Borlaug International Development Fellow
4. Nana Kusi, Texas Tech University – Lubbock, 2015 – 2019
“Potassium uptake, utilization, and chemistry in cotton and soils of the Texas Southern High Plains”
Currently an Extension Agronomist at South Carolina State University (Orangeburg, SC).

k. Graduated served as co-chair, Ph.D.:

1. Joseph Burke, Texas A&M University – College Station, 2018 – 2022
“Benefits and consequences of no-tillage and cover crops in semi-arid cotton production”
Strategic Initiative Assistantship in Water and Soil Health (Texas A&M AgriLife Research)

Accepted a faculty position with Texas A&M AgriLife Research (Lubbock, TX); start date of May 1, 2023.

2. Mark McDonald, Texas A&M University – College Station, 2018 – 2021
“Conservation management and nitrogen fertilizer timing effects on semi-arid microbial production of nitrogen gases”
Strategic Initiative Assistantship in Water and Soil Health (Texas A&M AgriLife Research)
A postdoctoral scholar at Argonne National Laboratory (Chicago, IL).
3. Clayton White, Texas Tech University – Lubbock, 2016 – 2021
“Cover crop and weed management strategies in no-tillage cotton systems in the Texas High Plains”
Research scientist with Texas A&M AgriLife Research (Lubbock, TX).

I. Graduated served on committee, Ph.D.:

1. Billi Jean Petermann, Texas Tech University – Lubbock, 2019 – 2023
2. Amin Ferdous, Texas Tech University – Lubbock, 2018 – 2023
3. Kyle Russell, Texas Tech University – Lubbock, 2020 – 2023
“Influence of 2,4-D on susceptible cotton”
4. Haibin Gu, Texas Tech University – Lubbock, 2020 – 2022
“Application of unmanned aerial systems in precision agriculture and plant breeding”
5. Christopher Miller, Texas Tech University – Lubbock, 2017 – 2021
“Effects of Huisache (*Acacia farnesiana*) and Honey Mesquite (*Prosopis glandulosa*) on Understory Forage Characteristics and Soil Nutrients in the Texas Gulf Prairies”
6. Perejitei Bekewe, Texas A&M University – College Station, 2017 – 2021
“Building soil and food security in wheat production systems in Texas”
7. Irish Pabuayon, Texas Tech University – Lubbock, 2018 – 2021
“A Fresh Look at Resource Assimilation and Partitioning in Cotton”
8. Autumn Acree, Texas Tech University – Lubbock, 2017 – 2020
“Contemporary Advancements in Soil Characterization: Geochemical, Morphological, and Spectroscopic Approaches”
9. Rebecca McCullough, Texas Tech University – Lubbock, 2016 – 2019
“Impact of Groundwater Resources and Crop Insurance on Agricultural Producers in the Southern High Plains of Texas”
10. Henrique Da Los Carvalho, Texas A&M University – College Station, 2016 – 2019, “Alteration of sorghum (*Sorghum bicolor* L. Moench) leaf optical properties by epicuticular waxes and its effect on surface energy balance and transpiration”
11. Curtis Schaefer, Texas Tech University – Lubbock, TX, 2014 – 2017,
“Testing the cotton maturity and irrigation timing paradigm”
12. Xiaoxiao Lui, Texas Tech University – Lubbock, TX, 2014 – 2017,
“Effect of different production practices on the development of Verticillium wilt and cotton fiber quality”

VII. GRANTS AND CONTRACTS

A. Awarded Grants

a. External

1. Lewis, K.L., S. Ale, C. Bednarz, J.A. Burke, P.B. DeLaune, J.L. Foster, A. Wright, A. Word, and F.J. Pancho Abello. 2023. Row Crops to Perennial Pasture: Feeding the World, Conserving Water, Enhancing Soil, and Safeguarding the Climate. FFAR. Jan 2024 – Dec 2028. \$1,992,330.82.
2. Burke, J.A., K.L. Lewis, A. Berthold, S. Sharma, G. Baath, A. Wright, E. Kimura, J. Bell, W. Keeling, T. Gentry, B. Guerrero, B. Arnall, J. Lofton, Phillips, A. Hagerman, D. McCallister, Wald, P. Jamar, and Bawa. 2024. Soil health demonstrations to increase regenerative agricultural intensification in the Southern High Plains. NRCS CIG. \$4,999,387.
3. Bagavathiannan, M., K.L. Lewis, et al. 2024. **NIFA-SAS**
4. Kimura, E., **K.L. Lewis**, P. DeLaune, P. Dotray, J. Grichar, J. McGinty, M. Baring, F. Abello, and C. Monclova-Santana. 2023. Improving Texas Peanut Grower Profitability. Texas Peanut Producers Board. January 2024 – June 2025. Co-PI. \$90,000. (\$17,000 to program).
5. **Lewis, K.L.**, J.A. Burke, P.B. DeLaune, J. Foster, C.J. Cobos, and S. Ale. 2023. Carbon Assessment and Modeling. Texas Corn Producers Board, Cotton Incorporated, and Sorghum Checkoff. 2024. \$60,000. (\$40,000 to program).
6. Pieralisi, B., B. Arnall, **K.L. Lewis**, et al. 2023. Evaluating biological amendments across the Cotton Belt. Cotton Incorporated Core. 2024. PI. \$7,500 (\$7,500 to program).
7. **Lewis, K.L.**, W. Keeling, R. Noland, M. Maeda, and P. DeLaune. 2023. Reevaluating nutrient demands of modern cotton cultivars in the Southern High Plains and Rolling Plains of Texas. Texas State Support – Cotton Incorporated. 2024. PI. \$30,000 (\$30,000 to program).
8. **Lewis, K.L.** 2023. Developing a Fertigation Strategy for Subsurface Drip Irrigation on Texas' Southern High Plains. The Fertilizer Institute. 2024. PI. \$15,000 (\$15,000 to program).
9. **Lewis, K.L.**, J.A. Burke, P.B. DeLaune, J. Foster, C.J. Cobos, and S. Ale. 2023. Carbon Assessment and Modeling. Texas Corn Producers Board, Cotton Incorporated, and Sorghum Checkoff. 2024. \$60,000. (\$40,000 to program).
10. Bagavathiannan, M., **K.L. Lewis**, et al. 2023. Fostering Sustainable Organic Cotton Production in the US through Research and Outreach on Organic Regenerative Practices. USDA-NIFA Organic Research and Extension Initiative. \$3,498,357 (\$260,000 to program).
11. Goodwin, J.G., **K.L. Lewis**, S.L. Webb. 2023. Investigating climate smart grazing management on Conservation Reserve Program acres to improve soil and grassland health, and habitat for grassland birds in the Texas High Plains. Farm Services Agency, Conservation Reserve Program Monitoring Assessment and Evaluation. Proposal No. 2312592. \$867,530 (\$251,106 to program).
12. **Lewis, K.L.**, J.A. Burke, P.B. DeLaune, J. Foster, C.J. Cobos, and S. Ale. 2022. Carbon Assessment and Modeling. Texas Corn Producers Board, Cotton Incorporated, and Sorghum Checkoff. 2023. \$60,000. (\$40,000 to program).
13. White, C.D.R., **Lewis, K.L.**, J.A. Burke, P.B. DeLaune, J.W. Keeling, W. Keeling, and C.J. Cobos. 2022. Developing sustainable and resilient sorghum-

- cotton rotational cropping systems in the semi-arid Texas Great Plains. National Institute of Food and Agriculture, Commodity Board Co-funding Topics (A1811). 2023. \$299,744 (\$9,000 to program).
14. ECOM USA, LLC, et al. 2023. Climate-smart cotton through a sustainable and innovative supply chain approach. \$30,000,000. Subaward: K.L. Lewis, E. Kimura, J. McGinty, and W. Keeling. USDA-NRCS. 2023 – 2027. \$1,073,426 to AgriLife.
 15. Duff J. et al. 2022. Conservation of Natural and Sustainable Environmental Resources with Verified Engagement. USDA-NRCS. \$65,000,000. Subaward: Climate Smart Sorghum Nitrogen Management, KSU Tomlinson, P., L. Haag, A. Obour, and D. Ruiz Diaz, OSU Arnall, B., J. Lofton, and J. Warren, TX A&M Bell, J., K. Lewis, and P. DeLaun. 2023 - 2026. \$2,018,214 (FUNDED-negotiating contracts).
 16. Kimura, E., **K.L. Lewis**, P. DeLaune, P. Dotray, J. Grichar, J. McGinty, M. Baring, F. Abello, and C. Monclova-Santana. 2022. Improving Texas Peanut Grower Profitability. Texas Peanut Producers Board. January 2023 – June 2024. Co-PI. \$90,000. (\$17,000 to program).
 17. **Lewis, K.L.** 2022. Developing a Fertigation Strategy for Subsurface Drip Irrigation on Texas' Southern High Plains. The Fertilizer Institute. 2023. PI. \$15,000 (\$15,000 to program).
 18. Pieralisi, B., B. Arnall, **K.L. Lewis**, et al. 2022. Evaluating biological amendments across the Cotton Belt. Cotton Incorporated Core. 2023. PI. \$7,500 (\$7,500 to program).
 19. **Lewis, K.L.**, W. Keeling, and P. DeLaune. 2022. Impact of cotton cropping systems and management strategies on the productive capacity of soil in the Texas Southern High Plains. Texas State Support – Cotton Incorporated. 2023. PI. \$17,000 (\$17,000 to program).
 20. **Lewis, K.L.**, W. Keeling, R. Noland, M. Maeda, and P. DeLaune. 2022. Reevaluating nutrient demands of modern cotton cultivars in the Southern High Plains and Rolling Plains of Texas. Texas State Support – Cotton Incorporated. 2023. PI. \$30,000 (\$22,260 to program).
 21. **Lewis, K.L.**, and M. Maeda. 2022. Developing a Fertigation Strategy for Subsurface Drip Irrigation on Texas' Southern High Plains. Texas State Support – Cotton Incorporated. 2023. PI. \$18,000 (\$18,000 to program).
 22. DeLaune, P.B., **K.L. Lewis**. 2022. Intensified Annual and Perennial Cropping Systems to Increase Carbon Sequestration and System Resiliency. Texas NRCS CIG. Co-PI. 2022 – 2025. \$200,000 (\$39,813 to program).
 23. **Lewis, K.L.**, J.A. Burke, and C.J. Cobos. 2022. Enhancing human health on the Texas High Plains with sustainable and resilient cropping systems that mitigate wind erosion and control dust. Institute for Advancing Health Through Agriculture. 2022 – 2025. \$414,450. (\$414,450 to program).
 24. **Lewis, K.L.**, J.A. Burke, and C.J. Cobos. 2022. Soil carbon assessment of Anaconda, MT reclaimed sites. BP Remediation Management Services Company. 2022 – 2023. \$104,068. (\$104,068 to program)
 25. **Lewis, K.L.**, J.A. Burke, and C.J. Cobos. 2022. Ag beneficial use of produced water. Solaris Water. 2022. \$105,673. (\$105,673 to program)

26. Cason, John. B. McCutchen, B. Whitney, C. Simpson, D. Baltensperger, D. Kurouski, E. Kimura, F. Abello, J. Verchot, J. Brady, J. Benavidez, P.B. DeLaune, **K.L. Lewis**, L. Ribera, M. Meki, M. Burow, M. Baring, W. Ravelombola, W. Grichar, M. Molina Risco, and M. Molina. 2022. Research, Development, and Evaluation of ‘Diesel Nut’ Oil- Crop Feedstocks. Chevron. 2022 – 2027. \$6,359,339 (\$232,278 to program).
27. Maeda, M.M., and **K.L. Lewis**. 2022. Evaluating digestate in cotton/wheat rotations. Shell. 2022 – 2024. \$119,216 (\$119,216 to program).
28. **Lewis, K.L.**, P.B. DeLaune, J.L. Foster, J. Bell, J.A. Burke, and C.J. Cobos. 2021. Soil carbon assessment across Texas. Texas Corn Producers Board, Cotton Incorporated, and Sorghum Board. \$62,000. (\$40,000 to program)
29. **Lewis, K.L.**, T.A., Berthold, J. Bell, P.B. DeLaune, F.M. Rouquette, G. Smith, B. Pinchak, S. Ale, J.W. Keeling, B. Wyatt, T. Gentry, E. Kimura, L. Gregory, M. Maeda, B. McCarl, J.K. Smith, W.W. Keeling, K. Wagner, D. McCallister, A. Mirchi, A.C. Rocateli, D. Bagnall, S. Sharma, J. Warren, A. Jilling, S. Byrd, B. Guerrero, C. Dunn, J.A. Burke, and C.J. Cobos. 2021. Sustainable agricultural intensification and enhancement through the utilization of regenerative agricultural management practices. National Institute of Food and Agriculture, Sustainable Agricultural Systems (SAS, A9201). Proposal No. 2021-05752. September 2021 – August 2026. \$10,000,000 (\$900,702 to program).
30. Kimura, E., **K.L. Lewis**, P. DeLaune, P. Dotray, J. Grichar, J. McGinty, M. Baring, F. Abello, and C. Monclova-Santana. 2021. Improving Texas Peanut Grower Profitability. Texas Peanut Producers Board. January 2022 – June 2023. Co-PI. \$90,000. (\$17,000 to program)
31. **Lewis, K.L.**, W. Keeling, and P. DeLaune. 2021. Impact of cotton cropping systems and management strategies on the productive capacity of soil in the Texas Southern High Plains. Texas State Support – Cotton Incorporated. 2022. PI. \$13,500 (\$13,500 to program).
32. **Lewis, K.L.**, W. Keeling, R. Noland, M. Maeda, and P. DeLaune. 2021. Reevaluating nutrient demands of modern cotton cultivars in the Southern High Plains and Rolling Plains of Texas. Texas State Support – Cotton Incorporated. 2022. PI. \$30,000 (\$22,260 to program).
33. **Lewis, K.L.**, and M. Maeda. 2021. Developing a Fertigation Strategy for Subsurface Drip Irrigation on Texas' Southern High Plains. Texas State Support – Cotton Incorporated. 2022. PI. \$18,000 (\$18,000 to program).
34. Slaughter, L., **K.L. Lewis**, and G. Ritchie. 2021. Potential use and efficacy of beneficial microorganisms to enhance cotton productivity and soil health in the Texas Southern High Plains (#18-085TX). Texas State Support - Cotton Incorporated. 2022. Co-PI. \$10,000 (\$0 to program; TTU).
35. Slaughter, L., **K.L. Lewis**, and J. Sharma. 2021. Exploration and Discovery of the Cotton Microbiome in the Texas Southern High Plains. Texas State Support - Cotton Incorporated. 2022. Co-PI. \$20,000 (\$0 to program; TTU).
36. **Lewis, K.L.**, M. Maeda, and G. Ritchie. 2021. Developing a Fertigation Strategy for Cotton using Subsurface Drip Irrigation. Fluid Fertilizer Foundation. January 2022 – December 2022. PI. \$15,000 (\$15,000 to program).

37. Howe, J., T. Gentry, and **K.L. Lewis**. 2021. Soil Health Literature Review. Soil Health Institute. June 2021 – December 2021. Co-PI. \$40,000 (\$10,000 to program).
38. **Lewis, K.** 2021. Faculty Fellow - 104B State Water Resources Institute Program. Department of Interior's U.S. Geological Survey. March 2021 – December 2021. \$14,000 (\$14,000 to program).
39. Maeda, M. and **K.L. Lewis**. 2021. Acetic acid evaluation in cotton and corn. Shell. 2021. \$37,593 (\$26,543 to program).
40. **Lewis, K.L.**, D. Porter, J. Bell, and D. McCallister. 2020. Evaluation of integrated advanced irrigation technologies and soil conservation practices on water use efficiency and soil health. Texas Corn Producers Board (NRCS cost share). January 2021 – December 2021. PI. \$27,460 (\$7,560 to program).
41. Kimura, E., **K. Lewis**, P. DeLaune, P. Dotray, J. Grichar, J. McGinty, M. Baring, F. Abello, and C. Monclova-Santana. 2020. Improving Texas Peanut Grower Profitability. Texas Peanut Producers Board. January 2021 – June 2022. Co-PI. \$90,000. (\$17,000 to program)
42. **Lewis, K.L.**, M. Maeda, and G. Ritchie. 2020. Developing a Fertigation Strategy for Cotton using Subsurface Drip Irrigation. Fluid Fertilizer Foundation. January 2021 – December 2021. PI. \$15,000 (\$15,000 to program).
43. DeLaune, P., **K. Lewis**, W. Keeling, W. Keeling, and E. Kimura. 2020. Diversifying Organic Cotton Production in Semi-Arid Environments of Texas. NIFA-Organic. September 2020 – August 2023. Co-PI. \$499,937 (\$241,084 to program).
44. Siebecker, M. and **K. Lewis**. 2020. A Molecular and Kinetics Based Approach to Understand Potassium Sorption and Fixation to Soil Clay and Oxide Minerals in Agricultural Fields. NIFA-AFRI. September 2020 – August 2022. Co-PI. \$335,489 (\$0 to program; TTU).
45. Guo, W., **K. Lewis**, and G. Ritchie. 2020. Optimizing Nitrogen Management in Dryland Cotton using Precision Agriculture Technologies in the Southern High Plains. Texas State Support – Cotton Incorporated. 2021. Co-PI. \$30,000 (\$2,500 to program; TTU).
46. Slaughter, L., **K. Lewis**, and G. Ritchie. 2020. Potential use and efficacy of beneficial microorganisms to enhance cotton productivity and soil health in the Texas Southern High Plains (#18-085TX). Texas State Support - Cotton Incorporated. 2021. Co-PI. \$10,000 (\$0 to program; TTU).
47. Slaughter, L., **K. Lewis**, and J. Sharma. 2020. Exploration and Discovery of the Cotton Microbiome in the Texas Southern High Plains. Texas State Support - Cotton Incorporated. 2021. Co-PI. \$20,000 (\$0 to program; TTU).
48. **Lewis, K.L.**, W. Keeling, and P. DeLaune. 2020. Impact of cotton cropping systems and management strategies on the productive capacity of soil in the Texas Southern High Plains. Texas State Support – Cotton Incorporated. 2021. PI. \$13,500 (\$13,500 to program).
49. **Lewis, K.L.**, W. Keeling, R. Noland, M. Maeda, and P. DeLaune. 2020. Reevaluating nutrient demands of modern cotton cultivars in the Southern High Plains and Rolling Plains of Texas. Texas State Support – Cotton Incorporated. 2021. PI. \$30,000 (\$17,100 to program).

50. Kimura, E., **K. Lewis**, P. DeLaune, P. Dotray, J. Grichar, J. McGinty, M. Baring, F. Abello, and C. Monclova-Santana. 2019. Improving Texas Peanut Grower Profitability. Texas Peanut Producers Board. January 2020 – June 2021. Co-PI. \$90,000. (\$17,000 to program)
51. **Lewis, K.L.**, D. Porter, J. Bell, and D. McCallister. 2019. Evaluation of integrated advanced irrigation technologies and soil conservation practices on water use efficiency and soil health. Texas Corn Producers Board (NRCS cost share). January 2020 – December 2020. PI. \$27,460 (\$7,560 to program).
52. **Lewis, K.L.**, D. Porter, J. Bell, and D. McCallister. 2019. Evaluation of integrated advanced irrigation technologies and soil conservation practices on water use efficiency and soil health. NRCS – Conservation Innovation Grants, Texas. January 2020 – December 2020. PI. \$74,810 (\$19,397 to program).
53. Guo, W., **K. Lewis**, and G. Ritchie. 2019. Optimizing Nitrogen Management in Dryland Cotton using Precision Agriculture Technologies in the Southern High Plains. Texas State Support – Cotton Incorporated. 2020. Co-PI. \$30,000 (TTU).
54. Slaughter, L., **K. Lewis**, and G. Ritchie. 2019. Potential use and efficacy of beneficial microorganisms to enhance cotton productivity and soil health in the Texas Southern High Plains (#18-085TX). Texas State Support - Cotton Incorporated. 2020. Co-PI. \$10,000 (TTU).
55. Slaughter, L., **K. Lewis**, and J. Sharma. 2019. Exploration and Discovery of the Cotton Microbiome in the Texas Southern High Plains. Texas State Support - Cotton Incorporated. 2020. Co-PI. \$20,000 (TTU).
56. **Lewis, K.L.**, W. Keeling, and P. DeLaune. 2019. Impact of cotton cropping systems and management strategies on the productive capacity of soil in the Texas Southern High Plains. Texas State Support – Cotton Incorporated. 2020. PI. \$17,500 (\$17,500 to program).
57. **Lewis, K.L.**, W. Keeling, G. Ritchie, R. Noland, M. Maeda, J. Dever, and P. DeLaune. 2019. Reevaluating nutrient demands of modern cotton cultivars in the Southern High Plains and Rolling Plains of Texas. Texas State Support – Cotton Incorporated. 2020. PI. \$30,000 (\$15,460 to program).
58. Byrd, S., **K. Lewis**, G. Morgan, and J. Howe. 2019. Evaluation of foliar fertilizers in cotton for plant growth, reproductive development, yield, fiber quality, and financial returns. Fluid Fertilizer Foundation. 2020. \$6,000 (\$2,000 to program).
59. Frame, W., **K. Lewis**, T. Raper, G. Harris, and R. Stewart. 2019. An integrated approach for nitrogen management in upland cotton (*Gossypium hirsutum*) across the U.S. Cotton Belt. 4R Research Fund, International Plant Nutrition Institute. 2019 – 2023. \$874,980 (\$175,000 to program)
60. Kimura, E., **K. Lewis**, P. DeLaune, P. Dotray, J. Grichar, J. McGinty, M. Baring, F. Abello, and C. Monclova-Santana. 2018. Improving Texas peanut grower profitability. Texas Peanut Producers Board. January 2019 – June 2020. Co-PI. \$90,000 (\$15,000 to program).
61. **Lewis, K.L.**, P. DeLaune, T. Gentry, W. Keeling, E. Kimura, and J. Keeling. 2018. Organic and Conventional Agriculture: Learning from Each Other to

- Promote Soil Health and Economic Viability in West Texas. USDA-SARE, Full Proposal. 2019 – 2021. \$299,697 (\$162,857 to program)

X. PROFESSIONAL HONORS AND AWARDS

- 2021 Researcher of the Year Award. Fluid Fertilizer Foundation.
- 2021 Research Faculty Award. Awards in Excellence Program, Department of Soil and Crop Sciences, Texas A&M University.
- 2021 TWRI Faculty Fellow Program - 104B State Water Resources Institute Program. Department of Interior's U.S. Geological Survey. \$14,000 (\$14,000 to program).
- The Dr. J. Tom Cothren Outstanding Young Cotton Soil Scientist Award, Agronomy, Physiology, and Soil - Beltwide Cotton Conference, 2019
- Tom Slick Senior Graduate Research Fellowship Award. College of Agriculture and Life Sciences, Texas A&M University, 2014.
- Memorial Scholarship Ph.D. Graduate Student Award, American Society of Mining and Reclamation, 2013.
- Soil and Crop Sciences Graduate Research Support Award, Texas A&M University, 2012.
- Soil and Crop Sciences Graduate Teaching Support Award, Texas A&M University, 2011.
- Patricia Nemec Consulting Scholarship in Agricultural Consulting, 2009.
- IMC Graduate Research Assistantship Award, Aug 2008 - Dec 2010.

I acknowledge that the CV being submitted is the most current and is correct as of the date of the signature.

Sincerely,

Signature: 

K. Lewis, 72
