

VITA
SCOTT D. LONGING, PH.D.

TTU Department of Plant and Soil Science
2911 15th St.
Box 42122
Lubbock, TX 79409-2122
Phone: (806) 834-1965
Fax (806) 742-0775
Email: scott.longing@ttu.edu

EDUCATION

- 1996 B.S. Arkansas Tech University, Biology
- 2001 M.S. University of Arkansas, Entomology
- 2006 Ph.D. Virginia Tech University, Entomology

PROFESSIONAL EXPERIENCE

- 2020 – Associate Professor and Graduate Program Coordinator, Department of Plant and Soil Science, College of Agricultural Sciences and Natural Resources, Texas Tech University.
- 2014-2020 Assistant Professor, Department of Plant and Soil Science, College of Agricultural Sciences and Natural Resources, Texas Tech University.
- 2012-2014 Visiting Assistant Professor, Department of Plant and Soil Science, College of Agricultural Sciences and Natural Resources, Texas Tech University.
- 2009-2011 Research Associate, Arkansas Cooperative Fish and Wildlife Research Unit, Department of Biological Sciences, University of Arkansas.
- 2007-2009 Post-Doctoral Researcher, Arkansas Water Resources Center, Department of Biological and Agricultural Engineering, University of Arkansas, Fayetteville.
- 2001-2002 Apiary Section Head, Arkansas State Plant Board, Little Rock, AR.

INTERNATIONAL EXPERIENCE

Contributing author of two chapters in The Business of Bees, Eds. J. Atkins and B. Atkins, Henley Centre for Governance, Accountability & Responsible Investment (GARI), Henley Business School, University of Reading, UK. (2016)

Contributing author of a chapter in Protecting Natural Capital and Biodiversity in the Agri-Food Sector (ed. Prof. Jill Atkins, Henley Center for Governance, Accountability & Responsible Investment), Ch. 14: Developing and implementing plans to conserve insect biodiversity in agricultural landscapes. (2022)

PROFESSIONAL SOCIETIES

Entomological Society of America, Entomological Society of America Southwestern Branch

HONORS AND AWARDS

- 2017. Junior Faculty Award, College of Agricultural Sciences and Natural Resources, Texas Tech University.
- 2017. Outstanding Recent Graduate Alumni Award, Entomology Department, Virginia Tech University.

AREAS OF EXPERTISE

Environmental drivers of aquatic and terrestrial insect communities:

- A. Conservation and restoration of insect pollinators and their habitats in agricultural grasslands, with a focus on native bee specialization.
- B. Aquatic insect ecology and conservation, with a focus on diving beetles in the genera *Heterosternuta* and related hydrophilines occurring in US Interior Highlands.

TEACHING

Introductory Entomology, PSS 2401, Texas Tech (Four lecture sections and six laboratory sections per year since 2012, including a Distance-D01 section)

Agricultural Compounds, PSS 4305, Texas Tech Univ. (One section per year since

2013) Pesticides, PSS 5307, Texas Tech Univ. (One section per year since 2013)

Integrated Pest Management, PSS 4305, Texas Tech Univ. (One section per year since

2015) Pollinator Biology and Ecology – Native Bees – PSS 5001, Texas Tech Univ., SP2019 Pollinators and Conservation Practices – PSS 5001, Texas Tech Univ., F2016.

Freshwater Biomonitoring, SP2007. Department of Crop, Soil and Environmental Sciences, University of Arkansas

Aquatic Entomology. Lab Instructor, 2002, 2004, 2006. Department of Entomology, Virginia Tech University.

Freshwater Biomonitoring. Lab Instructor, 2002. Department of Entomology, Virginia Tech University.

Guest Instructor (Texas Tech): Agronomy, Introduction to Horticulture, Freshman and Transfer Student Seminar,

Guest Instructor (University of Arkansas): Water Quality, Ecology, Environmental, Soil, and Water Conservation

Guest Instructor (Virginia Tech) Insects and Human Society, Insect Biology, Pesticide Usage, Biomonitoring Lab, Non-point Source Pollution,

PUBLICATIONS

Peer-Reviewed Publications:

202x. (submitted) T. Pham, S. Longing and M. Siebecker. *In review*. Consumption and degradation of different consumer plastics by mealworms (Coleoptera: Tenebrionidae): Effects of plastic type, time and mealworm origin. *Journal of Cleaner Production*.

202x. (submitted) Triplett, E., C. Hayes, Y. Emendack, S. Longing, C. Monclova, C. Simpson and H. Laza. *In review*. Leaf structural trait mediating pre-existing physical innate resistance to sugarcane aphids in sorghum under uninfested conditions. *Planta*.

GRANT PROPOSALS (AWARDED OR IN REVIEW)

2023. Montague, T., R. Wallace, J. Legako and S. Longing. Investigating Cold Tolerant Pomegranate Varieties as an Alternative Crop for Texas High Plains Growers. United States Department of Agriculture, 2023 Specialty Crop Block Grant, Texas Department of Agriculture (to be submitted, \$122,194)
2022. Collaborative Research: Partnership for conserving Osage Nation tallgrass prairie biodiversity and promoting Osage STEM engagement through bison grazing. National Science Foundation, Co-PIs B. Kelly, S. Longing, J. Hayman, O. Therasme. (\$804,970)
2022. Digitization of the bee (Hymenoptera: Anthophila) holdings at Texas Tech University with DNA barcoding for species of interest. PIs: S. Longing, J. Giron, R. Winston. Texas Parks and Wildlife, State Wildlife Grant Program. Awarded. \$107,592.
2022. Linking pollinators, resources and soil health in working farms. USDA SARE Young Scholar Enhancement Grant Program. PIs S. Longing and B. Kelly. \$5,000, awarded.
2019. A demonstration garden to promote pollinators, urban water conservation and community outreach. High Plains Underground Water District No. 1. PI S. Longing, V. Baliga and J. Young. \$9417.00, awarded.
2019. Non-target effects of autodissemination approaches for mosquito control Mosquito. American Mosquito Control Association. PI C. Brelsford and S. Longing. \$45,764, awarded.
2019. Assessing water use efficiency, soil health, and pollinators within a transition from irrigation to dryland management in the Texas High Plains. USDA Agricultural Research Service. PI K. Bhandari, S. Longing and C. West. \$299,208, awarded.
2018. Honey bee and other focal species in corn treated with atoxigenic strains of *Aspergillus flavus* Texas Corn Producers Board. \$45,764, awarded.
2015. High resolution image spectrometry of leaf stress and mechanical foliar damage caused by thrips in cotton seedlings. CASNR-TTU Project Revolution. PI-Carlos Portillo, Co-PIs S. Longing, G. Ritchie, and M. Sweeney. \$136,000, awarded.
2015. Demonstration of pollinator conservation practices and a framework for regional implementation on the Southern High Plains. USDA Conservation Innovation Grant, Lead PI, with PIs R. Cox, N. McIntyre, C. McKenney and C. West. \$380,579, awarded.
2014. Surveys and habitat assessments for endemic insects of the Monahans dune system. Texas Parks and Wildlife Department State Wildlife Grant. Lead PI with J. Cokendolpher. \$50,000, awarded.
2014. Developing Castor (*Ricinus communis* L.) with ultra-low levels of ricin. Evofuel Ltd. PIs D. Auld and S.D. Longing. \$19,999.
2013. Surveys and habitat assessments for endemic insects of the Monahans dune system-Continuation. Texas Parks and Wildlife Department State Wildlife Grant. Lead PI

- with J. Cokendolpher \$40,000, awarded.
2012. Surveys and habitat assessments for endemic insects of the Monahans dune system. Lead PI with J. Cokendolpher. \$73,272, awarded.
2010. Classification of Arkansas flow regimes, regional ecological-flow response relationships and environmental flows assessment for the Ozark region. PI with Dan Magoulick \$172,000, awarded.
2009. Biodiversity Surveys of Spring Habitats within the Ozark Highlands and Boston Mountain Ecoregions. Arkansas State Wildlife Grant Program, Lead PI with B. Haggard, M. Evans-White, F. Usrey and D. Bowles, \$50,000, awarded.
2007. *Heterosternuta sulphuria* (Coleoptera: Dytiscidae) Occurrence in the Sulphur Springs Headwater System and in Buffalo National River Tributaries (Arkansas, USA): Current Distribution, Habitat Conditions, and Biomonitoring Framework. Arkansas State Wildlife Grant program SWG T26-R-2, Lead PI with B. Haggard \$39,370, awarded.
2003. The influence of abiotic watershed factors on sedimentation and aquatic macroinvertebrate assemblages in southern Blue Ridge mountain streams. Graduate Research Development Project Award, Virginia Polytechnic Institute and State University, \$500, awarded.

GRANT PROPOSALS (NOT AWARDED)

2022. Loss of pollinators and pollination services due to agrochemicals transported by particulate matter. USDA-NIFA Cooperative State Research Ed & Extension Service. Co-PIs P. Smith, S. Longing, (\$574,805)
2022. Loss of honeybees due to agrochemicals transported by particulate matter. National Honey Board. Co-PIs P. Smith, S. Longing. (\$126,815)
2022. RECON: Rubber Evolution through Crop Optimization for National Security. USDA Specialty Crop Research Incentive. PI: Cornish, K., C. Simpson et. al. Senior Key Personnel: Longing, S. (\$11,500,000).
2021. DREAMS: Domestic Rubber Latex Eco-Focused Agricultural and Manufacturing System. USDA NIFA SAS. PI Cornish, K., Co-PI Longing et al. \$9,996,670 (not awarded).
2021. SHIELD: Specialty High- Impact Elastomeric Latex Crop for Devices and Personal Protective Equipment. USDA NIFA SAS. PI Cornish, K., Co-PI S.D. Longing et al. \$8,000,000 (not awarded).
2021. Effect of autodissemination approaches used for mosquito control on non-target insect pollinators. PI C. Brelsfoard, Co-PI Longing. USDA AFRI. \$453,861 (not awarded).
2021. Enhancing Pollinator Biodiversity and Health in Pivot Irrigated Agriculture. USDA AFRI. PI A. Skidmore, Co-PI S. Longing, S. Vyavhare, S. Angadi. \$300,000 (not awarded).
2021. Pollinator Health in Agricultural Grasslands: Spatial and Temporal Resource Use, Threats, and Conservation. USDA AFRI. PI S.D. Longing, Co-PI P.N. Smith and N. McIntyre. \$300,000 (not awarded)
2020. Assessment of risk to honey bees with aerially dispersed agrochemicals. ApisM Foundation. (ORS: #21-0100, \$51,259). PIs P. Smith and S. Longing. In review.
2019. Native cavity nesting bees as indicators of agrochemical stress among pollinators. USDA-NIFA Cooperative State Research and Extension Service. PI P. Smith, S. Longing, E. Peterson. \$382,744, in review.
2019. Characterizing soil microbial communities in urban parks. The Lawn Institute. PI J. Young, L. Slaughter, S. Deb and S. Longing. \$19,822, in review.
2020. Sustainable and scalable manufacturing of premium latex using cutting-edge plant-wide model predictive control (SAMPLE). Lead PI: K. Cornish (Ohio State University) and 12 coauthors including Drs. Simpson and Longing (PSS) (ORS: #20-0992, \$1,210,52).
2020. Analysis of ecological and economic effects of converting a dryland cotton farm to CRP with lease hunting in western Texas. USDA Conservation Innovation Grant Program

- (ORS: #20-0756, \$418,961).
2020. Understanding resilience and productivity in the native grassland-agroecosystem matrix. Southern Sustainable Agricultural Research and Education (SARE) (ORS: #20-0885, \$99,430). Lead PI N. Gill, Co-PIs R. Cox and S. Longing.
2020. Effects of native vegetation on agroecosystem health. US Department of Agriculture-AFRI. (ORS: #20-0811, \$468,387). PI R. Cox, Co-PIs S. Longing and N. Gill.
2020. Enhancing pollinator biodiversity and health in pivoted irrigated agriculture. Subaward proposal of PIs S. Longing and P. Smith, (ORS: #20-0797, \$84,000). USDA-NIFA. Lead PI A. Skidmore, New Mexico State University.
2020. Native cavity nesting bees as indicators of agrochemical stress in pollinators. USDA-NIFA. (ORS: #20-0756, \$368,324). PIs P. Smith and S. Longing.
2020. Hispanics in agricultural sciences and natural resources: Future agricultural scientists in undergraduate research and communications. Lead PI R. Ritz. PIs C. Gibson, D. Mitchel, S. Longing, K. Schroeder, V. Machado, K. Nelson, and J. Isom. (ORS: #20-0391, \$250,000). USDA-NIFA.
2019. (Pre-Proposal). The Llano Estacado Urban LTER: Humans, Nature and Science in a Semi-Arid Urban Hub. NSF Long Term Ecological Research Program. PI R. Stevens, S. Longing, Natasja van Gestel, A. Landrum and S. Collins. National Science Foundation, Urban LTER.
2019. Bees occurring in treated and untreated alfalfa seed production fields in New Mexico. USDA ARS Alfalfa Pollinator Research Initiative. PI K. Bhandari, S. Longing, and C. West. \$25,000.
2019. Advancing sustainable production practices and native pollinator conservation in Texas pumpkins. Southern SARE. PI S. Singh, S. Longing, L. Slaughter, R. Saini, S. Loneragan and S. Longing. \$257,941.
2019. Water Conserving, Perennial Landscape Plants for Pollinator and Personal Attraction. Horticultural Research Institute. PI J. Young, S. Longing, D. Montague, V. Baliga, R. Plowman. \$21,526, unawarded.
2019. Ecological restoration of southwestern U.S. endemic *Nama* spp. (Hydrophyllaceae) for native specialist bees occurring in fragmented semi-arid grasslands. Western North American Naturalists. PI S. Longing and A. Sehrish. \$2,000, unawarded.
2019. Influence of Soil Health Management Practices on Soil-Plant-Pollinator Interactions and Ecosystem Services in Semi-Arid Production Systems. USDA Conservation Innovation Grant. PI S. Singh, L. Slaughter, S. Deb, S. Longing and C. Portillo. \$340,708, unawarded.
2018. Biological and environmental drivers of agrochemical exposure to insect pollinators. USDA-NIFA Pollinator Health Research and Application. Co-PIs S Longing, R Cox, P Smith, T. Anderson, N. McIntyre and G. Mayer. \$484,164, not awarded.
2018. Rangeland restoration through prairie remnants. USDA-NIFA Cooperative State Research Ed & Extension Service. Foundational and Applied Science Program. Co-PIs R. Cox, S Longing, \$453,929, not awarded.
2018. Biological control agents of plant pest tetranychoid mites to determine the peculiarities of their distribution and to make damage assessments. USDA Foreign Agriculture Service OCBF, Borlaug Fellowship. PI S. Longing. \$49,537, not awarded.
2018. Hispanics in agricultural sciences and natural resources: Future agricultural scientists in undergraduate research and communications. USDA-NIFA Cooperative State Research Ed & Extension Service, Hispanic-Serving Institutions Education Grants Program (HSI). PIs R.

- Ritz, S. Longing, D. McCallister, V. Machado, K. Schroeder, C. Gibson, and K. Nelson. \$249,449, not awarded.
2018. Identifying and expanding seed sources for native ecotype pollinator plants in the Texas High Plains. PIs S. Longing and R. Cox. National Fish and Wildlife Foundation, Monarch Butterfly and Pollinators Conservation Fund. PIs S. Longing and R. Cox. \$146,289, not awarded.
2018. Influence of soil health management practices on soil-plant-pollinator interactions and ecosystem services in semi-arid production systems. USDA Natural Resource Conservation Service Conservation Innovation Grants. PIs L. Slaughter, S. Longing, S. Deb, C. Portillo Quintero, JD Booker and S. Singh. \$681,421, not awarded.
2017. Overseeding Cover Crops in Perennial Grass Systems: Benefits to Livestock and Pollinator Foraging. Southern SARE, pre-proposal. Southern Region Sustainable Agriculture Research and Education. C.E. Cooper, P. DeLaune, L. Bellows and S. Longing. (not awarded).
2017. Will non-target shrub species become collateral damage following herbicide application to control mesquite (*Prosopis glandulosa* Torr.)? Prairie Biotic Research, Inc. C. Cooper and S. Longing (\$1,500)
2017. Assessment of Pollinator Risks Associated with Unique Mixtures of Aerially Dispersed Agrichemicals. Apis-M Foundation (<http://projectapism.org/>). P.N. Smith, S. Longing and T. Anderson. (\$69,210)
2017. Assessment of Pollinator Risks Associated with Unique Mixtures of Aerially Dispersed Agrichemicals. Texas Tech Davidson Foundation. P.N. Smith, S. Longing and T. Anderson. (\$69,210)
2017. LOI: Pollinator habitat restoration within a framework of native seed collection and processing by students. S. Longing and R. Cox. LOI to the Houston Livestock and Rodeo Show, March 26, 2017.
2017. SOI: Natural Resources and Endangered Species Research and Support at Fort Hood, Texas. W. C. Conway, S. R. Fritts, B. A. Grisham, S. Longing, A. Schwalb, R. D. Stevens
2016. Assessment of risks to bees, other pollinators, and agricultural sustainability on the Southern High Plains. CH Foundation, Texas Tech University. \$38,400, not awarded.
2016. Assessment of Pollinator Risks Associated with Aerialized Feed Yard-Derived Chemicals. USDA Agricultural Research Service. Phil Smith – PI, w T. Anderson – TTU TIEHH (\$500,000)
2016. Texas Tech University Regional Research and Training Center of Excellence for Emerging and Reemerging Vector-borne and Zoonotic Diseases of Significant Public Health Concern. DHHS – Centers for Disease Control and Prevention. Steve Presley – PI, with T. Anderson, D. Wang, J. Salazar-Bravo, R. Bradley, E. Smith, B. Dabbert and S. Longing. \$1,996,241, not awarded.
2016. Precision Agriculture, Playas and Pollinators: Towards Integrated Agricultural Systems on the Southern High Plains. Southern Regional Sustainable Agricultural Research and Education. PI, w/ A. Boren, E. Irlbeck, C. West and R. Cox. \$265,000, not awarded.
2015. Pollinator Pals: A program to enhance community education and outreach using native wildflower gardens. CH Foundation, Texas Tech University \$29,467.80, not awarded.
2015. Optimizing urban and suburban landscape design to maximize native pollinator diversity and populations. USDA-NIFA Standard Research and Extension Planning Project (SREP). PI-Dr. J. Young, with PIs S. Longing, C. McKenney, R. Williams, V. Baliga, R. Wallace and E. Bernard. \$2,499,231, not awarded.
2014. Students of Agriculture Engaging in STEM Learning Experiences. USDA Multicultural

- Scholars Program, USDA-NIFA Cooperative State Research Ed Extension Service. Lead PI L. Garcia, PIs R. Ritz, M. Brashears, C. Casanova, S. Longing, J. Malaga and C. Villalobos. (\$128,000.)
2013. Active Learning Faculty Incentive Program, Texas Tech University. Incorporating active learning into Introductory Entomology, PSS 2401 \$1,000, not awarded.
2013. Pollinator- and pollination-ecology of rare SGCN plants in their rare plant communities. Co-PI with J. Sharma, Texas Parks and Wildlife Department, State Wildlife Grant Program. (\$50,000).
2012. The *Neoporus* Complex (Coleoptera: Dytiscidae: Hydroporinae) as a framework for integrating multiple datasets in taxonomic revisions. Preliminary proposal submitted to the Division of Environmental Biology: Phylogenetics Systematics NSF13-508, National Science Foundation. Co-PI with M. Douglas, M. Douglas and B. Wolfe.
2012. Range extents of the endemic Sulphur Springs Diving Beetle, *Heterosternuta sulphuria* and *H. phoebeae*, aquatic SGCN in Ozark streams. State Wildlife Grant Program, Arkansas Game and Fish Commission (\$71,000).
2011. Spatial ecology of endemic species for conservation. National Science Foundation, Division of Environmental Biology, Population and Community Ecology. PI, with G. Huxel and A. Dowling (\$840,000).
2010. Survey of aquatic insect diversity in headwater Ozark streams: Baseline biological data to relate to global climate change models. With G. Huxel and P. Bacon. Arkansas State Wildlife Grant Program (Co-PI, \$54,744).
2010. Conservation actions for vulnerable *Heterosternuta sulphuria* populations in northwestern Arkansas. PI, with D. Magoulick, G. Huxel, and P. Bacon. State Wildlife Grant Program (PI, \$39,369.25).
2009. Urban water and biological conservation: Linking citizens to their watersheds in northwest Arkansas. PI, with A. Brown, S. Lewis, C. Slay. \$10,000.
2009. Surveys and conservation genetics of aquatic insect species of concern. Submitted to the U.S. Fish and Wildlife State Wildlife Grant Program. \$92,414, PI, with -S. Longing, with D. Magoulick, G. Huxel, A. Dowling and S. Yanoviak.
2008. Use of Vulnerable, Endemic Aquatic Species to Evaluate the Effect of Climate Change on Water Quality in an Interior Highlands Karst Ecosystem, Co-PI with B. Haggard and F. Usrey, EPA- G2008-STAR-D1, \$415,466.
2008. Aquatic insect surveys at Mount Magazine State Park and Hobbs State Park – Conservation Area with implementation of an educational component. Submitted to the U.S. Fish and Wildlife State Wildlife Grant Program. \$25,600. PI, with B. Haggard.
2007. Biological Assessment, Restoration, and Conservation of Illinois River Headwater Streams: Implementing the Headwater Stream Management and Conservation Program, PI, with B. Haggard and N. Brown. Wildlife Conservation Society. \$162,000.

GRADUATE STUDENTS (ADVISOR)

Graduated:

- 2022. Danielle Brown, MS non-thesis, Department of Plant and Soil Science, Texas Tech University.
- 2022. Holly Bergan, MS non-thesis, Department of Plant and Soil Science, Texas Tech University.
- 2021. Caleb Tomlinson. MS non-thesis, Department of Plant and Soil Science, Texas Tech University.
- 2021. Samuel Discua, Ph.D. Department of Plant and Soil Science, Texas Tech University. Scale-Dependent Bee (Hymenoptera: Anthophila) Community Patterns and Plant Attractiveness to Pollinators in the Texas High Plains.
- 2020. Amede Rubio, Ph.D., Department of Plant and Soil Science, Texas Tech University.

- Restoration ecology of giant reed grass in the Rio Grande Valley.
- 2018. Bianca Rendon, MS. Department of Plant and Soil Science, Texas Tech University. Co- occurrences and foraging interactions of native bees and managed bees on the Texas High Plains.
 - 2016. Christopher Jewett, MS. Department of Plant and Soil Science, Texas Tech University. Abundances of native and managed bees across pumpkin cultivars on the Texas High Plains.

Current:

- 2023 – present. Brianna Humphreys, MS non-thesis, Department of Plant and Soil Science.
 2023 – present. Sarah Salcido, MS non-thesis, Department of Plant and Soil Science.
 2022 – present. Cathy Martin, MS non-thesis, Department of Plant and Soil Science.
 2022 – present. Ashleigh Brown, MS non-thesis, Department of Plant and Soil Science.
 2022 – present. Molly Dunn, MS non-thesis, Department of Plant and Soil Science.
 2022 – present. Natalie Starich, MS non-thesis, Department of Plant and Soil Science.
 2022 – present. Mackenzie Talkmitt, MS non-thesis, Department of Plant and Soil Science.
 2021 – present. Kelly Cochran Coleman, MS non-thesis, Department of Plant and Soil Science.
 2021 – present. Chase Victorson, MS non-thesis, Department of Plant and Soil Science.

GRADUATE STUDENTS (COMMITTEE MEMBER)

Graduated:

- 2021. Eric Peterson. Department of Toxicology, Texas Institute of Environmental and Human Health), Texas Tech University. Project: Assessment of Pollinator Risks Associated with Aerialized Feed Yard-Derived Chemicals. (Dr. P.N. Smith)
- 2019. Kelbi Delaune, Ph.D. graduate student, (TTU-NRM). Effects of tributaries on the physical and chemical properties of the Rio Grande River. Department of Natural Resources Management, Texas Tech University (Dr. Allison Pease)
- 2018. Krishna Bhandari, PhD student, Department of Plant and Soil Science, Texas Tech University. Project: Pollinator and microbial communities associated with different forage grasses. (Dr. Chuck West)
- 2018. Britt Smith, PhD. Department of Natural Resources Management, Texas Tech University. Project: Influence of prescribed fire on arthropods in mesquite dominant rangelands of north-central Texas. (Dr. Robin Verble)
- 2017. Mary Mousumi Akter. Ph.D. graduate student, Department of Plant and Soil Science, Texas Tech University. Studies of *Arundo donax* allelopathy and use to control golden algae. (Dr. Reynaldo Patino)
- 2017. Dabney, Brittany (NRM-TTU). MS graduate student. Department of Natural Resources Management, Texas Cooperative Fish and Wildlife Research Unit, Texas Tech University. Effects of Glyphosate-Based Herbicide, Roundup, on Harmful Golden Alga (*Prymesium parvum*) (Dr. Reynaldo Patino).
- 2017. Eric Peterson, MS. (Texas Institute of Environmental and Human Health), Texas Tech University. Project: Assessment of Pollinator Risks Associated with Aerialized Feed Yard-Derived Chemicals. (Dr. P.N. Smith)
- 2016. Jonathan Knudson, MS. (TTU-NRM). Effects of wildland fire on any communities in Valles Caldera National Preserve. (Dr. Robin Verble)
- 2016. Elizabeth Roesler, MS. Department of Natural Resources Management and the Texas Cooperative Fish and Wildlife Research Unit, Texas Tech. Project: Develop of monitoring methods for the endangered gastropod, Pecos Assiminea (*Assiminea pecos*), at Bitter Lake National Wildlife Refuge. (Dr. Tim Grabowski)

- 2015. Alicia Patridge, MS. Department of Plant and Soil Science, Texas Tech University. Project: Bee diversity and community structure across different residential lawn management types. (Dr. Cynthia McKenney)
- 2014. Jacob Price, PhD. Department of Plant and Soil Sciences, Texas Tech University. Project: Epidemiology of wheat streak mosaic virus and Triticum mosaic virus in relation to vector spread from volunteer wheat and native CRP grasslands. (Dr. Jason Woodward)
- 2013. Jessica East, MS student, Department of Natural Resources Management, Texas Tech University. Project: Changes in food web structure along multi-scale environmental gradients in the Pecos River, USA. (Dr. Allison Pease)
- 2008. Kyle Kruger, MS student, Department of Biological and Agricultural Engineering, University of Arkansas. Project: Stressor-response relationships between urban stream quality and changes in land use in Fayetteville, Arkansas. (Dr. M. Matlock)

Current:

- 2022 – present. Raini Bulaclac. Department of Natural Resources Management, Texas Tech University. (advisor: C. Cooper-Norris). Bee communities across different seed mix plantings in the Southern High Plains.
- 2021 – present. Delaney Krasner. Department of Natural Resources Management, Texas Tech University (advisor: G. Perry)
- 2020 – present. Sri Jyosthsna Kancharlapalli. Department of Biological Sciences, Texas Tech University (advisor: C. Breilsfoard)
- 2020-present, Mickie Wilkinson, MS graduate student, New Mexico State University (Dr. A. Skidmore)
- 2017 – present. Melania Fernandez. Ph.D. graduate student, Department of Plant and Soil Science, Texas Tech University. Epiphytic orchid and fungal associations. (Dr. J. Sharma)

UNDERGRADUATE STUDENT –Mentoring

- 2022 – present. Joshua Winsauer. Undergraduate Researcher, Department of Natural Resources Management, Texas Tech University. Native Bee Taxonomy.
- 2022 – present. Shelby Hernandez. Undergraduate Researcher. Department of Plant and Soil Science, Texas Tech University. Digitization of Insect Specimen Holdings, Understanding Leaf Beetle Distributions in Texas National Parks: A Baseline from the Invertebrate Zoology Collection at the Museum of Texas Tech University.
- 2019. Kyle Ridenhour (TTU-NRM). Identification of water beetles occurring in freshwater habitats in the Ozark Plateau region.
- 2015 – 2019. Erick Barkowsky. Department of Plant and Soil Science, Texas Tech University. Pollinator communities in agricultural systems (including one co-authored scientific article).
- 2017 – 2019. Catherine Lechnar. Department of Plant and Soil Science, Texas Tech University. Pollinator resource use in urban center on the Llano Estacado.
- 2018. Torie Whisenant, Department of Plant and Soil Science, Texas Tech University. Identification of female *Agapostomon texanus* and *Agopostomon angelicus* based on wing morphometric analysis.
- 2017. Brian Guevara, University of Zamorano Student Intern. Project: Is body size of metallic green sweat bees *Agapostemon spp.* (Hymenoptera: Halictidae) related to floral resource abundance? Poster presentation at the 2017 Entomological Society of America Southwestern Branch Annual Meeting, Austin, TX.
- 2017. Torie Whisenant, Department of Plant and Soil Science, Texas Tech University. Project: Habitat associations of darkling beetles (Coleoptera: Tenebrionidae) at the Monahans Dune System of Western Texas. Poster presentation, Entomological Society of America Southwestern Branch

- Annual Meeting, Austin, TX.
- 2016. Roberto A.M. Gomez. University of Zamorano Student Intern. Project: Habitat associations of the endemic Jerusalem cricket, *Stenopelmatus monahanensis*, from the Monahans sandhills in western Texas.
 - 2016. Wilbur G. Usedo. University of Zamorano Student Intern, Department of Plants and Soil Science, Texas Tech University. New distributional records of bees (Hymenoptera: Anthophila) from the Southern High Plains.
 - 2016. Tyler Bennet. Department of Plant and Soil Science, Texas Tech University. Seasonal size distributions and sex ratios of the endemic Jerusalem cricket, *Stenopelmatus monahanensis*, from the Monahans sandhills.
 - 2014. Jessica LeFors, Department of Plant and Soil Science, Texas Tech University, Special Problems Course: Lacewing predation on aphids and whiteflies in high tunnel peppers.
 - 2011. Toshiki Hayashi, Undergraduate Research, Biological Sciences, University of Arkansas. Project: Observations of flight, responses to microhabitat drying, and morphology of ecologically- segregated, endemic congeners.
 - 2008. Lindsey A. Mack. Department of Crop, Soil, and Environmental Sciences, University of Arkansas. Project: Survey of endemic water beetles and co-occurring invertebrates from groundwater seeps at Hobbs State Park Conservation Area.

PRESENTATIONS

2023. **Longing, S.**, J. Winsauer, S. Cox and B. Kelly. Biodiversity Targets in Agricultural Grasslands: Specialized Rophitine Bees and Bristly Nama. Southern Sustainable Agricultural Research and Education (SARE) Young Scholar Enhancement Grant Intern. SARE Administrative Council Meeting.
2023. Winsauer, J., S. Hernandez, J. Giron and **S. Longing**. 2023 (submitted). Native Bee Biodiversity Digitization Project. Center for Transformative Undergraduate Experiences Symposium, Texas Tech University, April 11-14th 2023. (Faculty Mentor)
2023. Kabat, K., **S. Longing** and M. Barnes. 2023 (submitted). Diet of Jerusalem crickets (*Ammopelmatus monahanensis*) in western Texas. Texas Academy of Science Annual Meeting, Angelo State University, March 3-4, 2023.
2022. Hernandez, S., **S. Longing** and J. Giron. 2022. Understanding Leaf Beetle Distributions in Texas National Parks: A Baseline from the Invertebrate Zoology Collection at the Museum of Texas Tech University, Transformative Undergraduate Experiences Symposium, Texas Tech University. (Faculty Mentor)
2021. Brelsfoard, C. L., Sri Jyosthsna Kancharlapalli, **S.D. Longing**. Non-target effects of autodissemination for mosquito control. American Mosquito Control Annual Meeting, March 2-5, 2021. Online-virtual meeting.
2021. Kancharlapalli, Sri Jyosthsna, **S. D. Longing**, C. L. Brelsfoard. Examination of non-target effects of autodissemination approaches in lab and semi-field conditions. American Mosquito Control Annual Meeting, March 2-5, 2021. Online-virtual meeting.
2020. Vafaie, E., V. Baliga, **S. Longing** et al. Using citizen science to identify pollinator-attractive plants. North Central and Southwestern Branch Meeting, Entomological Society of America, Oklahoma City, OK. March 17, 2020. (Cancelled)
2020. **Longing, S.D.**, Peterson, E., P.N. Smith and N. McIntyre. Exposure of foraging wild bees to neonicotinoids in the U.S. Southern High Plains. North Central and Southwestern Branch Meeting, Entomological Society of America, Oklahoma City, OK. March 17, 2020. (Cancelled)
2020. **Longing, S.D.** Entomology Instruction: Bees and their habitats in the southern High Plains. High Plains Master Naturalists. October 29, 2020 (virtual).
2019. **Longing, S.D.**, Peterson, E. M., Wooten, K. J., Subbiah, S., Smith, P., McIntyre, N. 2019. Field- exposure of neonicotinoids to wild bees in the Southern High Plains region. Society

- of Environmental Toxicology and Chemistry International Conference, Society of Environmental Toxicology and Chemistry, Toronto, Canada.
2019. Peterson, E.M. Tomlinson, C., **Longing, S.D.**, Smith, P., McIntyre, N. 2019. Nest bundles used to characterize agrochemical exposure to native pollinators near cattle feed yards and row crop agriculture. Society of Environmental Toxicology and Chemistry International Conference, Toronto, Canada.
2019. S.A. Discua* and **S.D. Longing**. 2019. Attractiveness of drought tolerant plants to insect pollinators. Entomological Society of America - Southwestern Branch Annual Meeting, Entomological Society of America, Tulsa, OK.
2019. Longing, S.D. and R. Cox. 2019. Community Composition and Functional Diversity in Pollinator Habitat Seed Mixes: Do Designer Plants Meet Their Goals? Entomological Society of America - Southwestern Branch Annual Meeting, Entomological Society of America, Tulsa OK.
2018. Longing, S.D., N.E. McIntyre, R.D. Cox, C.P. West and C. McKenney. 2018. Demonstrations of pollinator habitat and a framework for regional implementation in the U.S. Southern High Plains. 73rd SWCS International Annual Conference: Culture, Climate and Conservation, Albuquerque, New Mexico (July 29 – August 1, 2018). (volunteered)
2018. Longing, S.D. 2018. Pollinator communities and habitat associations in Southern High Plains Agroecosystems. USDA Knox City Pollinator Field Day and Workshop, Knox City USDA Plant Materials Center, Knox City, Texas. (May 29-30, 2018) (invited)
2018. Whisenant, T., S.A. Discua and S.D. Longing. Identification of female *Agapostomon texanus* and *Agapostomon angelicus* based on wing morphometric analysis. Center for Transformative Undergraduate Experience Annual Undergraduate Research Conference, Texas Tech University, April 2018.
2018. Lechnar, C. and S.D. Longing. Preliminary assessment of late-season insect communities occurring on flowering plants in a semi-arid region. Center for Transformative Undergraduate Experience Annual Undergraduate Research Conference, Texas Tech University, April 2018.
2018. Bhandari, K.B., C.P. West, S.D. Longing, V. Acosta-Martinez, and D. Klein. Arthropod and soil microbial communities in forage-livestock systems. Annual meeting of Agronomy Society of America and Crop Science Society of America, Baltimore, Maryland (November 4-7, 2018). (volunteered)
2018. Bhandari, K.B., C.P. West, S.D. Longing, and V. Acosta-Martinez. Insect and soil microbial community size in native and introduced pastures. Texas Tech University 2018 Graduate school poster competition, Lubbock, TX (October 12-13, 2018) (volunteered)
2018. Bhandari, K.B., C.P. West, S.D. Longing and V. Acosta-Martinez. Insect and soil microbial community size in native and introduced pastures. International arid lands conference, Lubbock, TX (Aug 13-14, 2018). (volunteered)
2017. Bhandari, K.B., C.P. West, S.D. Longing and V. Acosta-Martinez. Arthropod and soil microbial community size and composition in native and introduced pastures. Annual meeting of Crop Science Society of America, Tampa, Florida (October 22-25, 2017). (volunteered)
2017. Bhandari, K.B., C.P. West, S.D. Longing and V. Acosta-Martinez. 2017. Arthropod and soil microbial community composition of 'WW-B.Dahl' Old World bluestem pasture systems. Annual meeting of American Forage and Grassland Council, Roanoke,

- Virginia (January 22-24, 2017). (volunteered)
2017. Longing, S. Pollinators on the Southern High Plains. Annual meeting of The Wildlife Society Special Section: Partnerships for Healthy Pollinators, Albuquerque, NM. (invited)
2017. Rendon*, B. and S. Longing. Co-occurrences and behavioral interactions of wild bees and managed honey bees on flowering plants. Entomological Society of America Annual Meeting, Denver CO. (volunteered)
2017. Jewett*, C. and S. Longing. An assessment of pollinators abundances and environmental relationships at cultivar, field and landscape scales in cultivated pumpkins on the Texas High Plains. Entomological Society of America Annual Meeting, Denver CO. (volunteered)
2017. Discua*, S., S. Longing and N. McIntyre. A multivariate community and scalar habitat analysis of Anthophila (Hymenoptera: Apoidea) in the Texas High Plains agricultural region. Entomological Society of America Annual Meeting, Denver CO. (volunteered)
2017. Whisenant*, T., B. Guevera*, S. Discua* and S. Longing. Morphometric analysis of wing venation of female *Agapostemon spp.* Entomological Society of America Annual Meeting, Denver CO. (volunteered)
2017. Discua, S. and S. Longing. Quantifying pollinator attractiveness among drought-tolerant plants in the Southern High Plains, Texas USA. Entomological Society of America Annual Meeting, Denver CO. (volunteered)
2017. Discua*, S., S. Longing, and N. McIntyre. Scalar habitat analysis of bee communities across agroecosystems on the Texas High Plains. Oral presentation at the 2017 Entomological Society of America Southwestern Branch Annual Meeting, Austin, TX. (volunteered)
2017. Guevara, B., S.A. Discua and S.D. Longing. Is body size of metallic green sweat bees *Agapostemon spp.* (Hymenoptera: Halictidae) related to floral resource abundance? Poster presentation at the 2017 Entomological Society of America Southwestern Branch Annual Meeting, Austin, TX. (volunteered)

2016. Gomez, R.A.M., W. G. Usedo, S. Discua and S. Longing. Habitat associations of the endemic Jerusalem cricket, *Stenopelmatus monahansensis*, from the Monahans sandhills in western Texas. Center for Active Learning and Undergraduate Engagement Undergraduate Research Conference, Texas Tech University, March 30th, 2016.
2016. Usedo, W.G., R.A.M. Gomez, S. Discua and S. Longing. New distributional records of bees (Hymenoptera: Anthophila) from the Southern High Plains. Center for Active Learning and Undergraduate Engagement Undergraduate Research Conference, Texas Tech University, March 30th, 2016.
2016. Bennet, T., R.A.M. Gomez, W.G. Usedo, S. Discua and S. Longing. Seasonal size distributions and sex ratios of the endemic Jerusalem cricket, *Stenopelmatus monahanensis*, from the Monahans sandhills. Center for Active Learning and Undergraduate Engagement Undergraduate Research Conference, Texas Tech University, March 30th, 2016.
2015. Patridge, A., S. Longing, S. Discua and C. Mckenney. Relationships of bees and urban lawn characteristics in Lubbock, TX, USA. Poster presented at the 2015 annual meeting of the Entomological Society of America, Minneapolis, MN.
2015. Discua, S. and S. Longing. Diversity patterns of native bees (Hymenoptera: Apoidea) across native prairies and croplands on the Southern High Plains. Poster presented at the 2015 annual meeting of the Entomological Society of America, Minneapolis, MN. Volunteered.
2015. Importance of Pollinator Conservation. Second Saturday Education Program – Lubbock Memorial Arboretum Foundation, Lubbock, TX November 14th, 2015.
2015. Morris, M, S. Longing and S. Discua. Effects of soil moisture on the burrowing behavior of a Jerusalem cricket, *Stenopelmatus monahansensis* (Orthoptera: Stenopelmatidae). National Conference on Undergraduate Research, Eastern Washington University.
2015. Morris, M, S. Longing and S. Discua. Effects of soil moisture on the burrowing behavior of a Jerusalem cricket, *Stenopelmatus monahanensis* (Orthoptera: Stenopelmatidae). Texas Tech Undergraduate Research Conference.
2014. S. Longing, S. Discua and J. Cokendolpher. First comprehensive surveys of nine endemic insects at the Monahans sandhills in western Texas. Entomological Society of America Annual Meeting, Portland, Oregon.
2014. Discua, S., S. Longing, J. Cokendolpher and J. Scott. Adult emergence phenology of nine endemic insects of the Monahans sandhills in western Texas. Entomological Society of America Annual Meeting, Portland, Oregon.
2014. Discua, S., S. Longing and J. Cokendolpher. Occupancy modelling of nine endemic insects from the Monahans sandhills in western Texas. Entomological Society of America Annual Meeting, Portland, Oregon.

2014. Discua, S. S. Longing and J. Cokendolpher. Distributions and GIS modelling of the potential habitat of nine endemic insects at the Monahans sandhills in western Texas. Entomological Society of America Annual Meeting, Portland, Oregon.
2014. Discua, S., S. Longing, J. Cokendolpher and J. Scott. Adult emergence phenology of nine endemic insects of the Monahans sandhills in western Texas. Entomological Society of America Annual Meeting, Portland, Oregon.
2014. Longing, S. D. Leasure and D. Magoulick. Natural flow regimes of the Ozark and Ouachita Highlands. Texas Institute for Environmental and Human Health Fall Seminar Series, Texas Tech University.
2014. Lefors J., S. Longing, T. Kirkpatrick and D. Johnson. Lacewing predation on aphids and whiteflies in high tunnel peppers. Arkansas Entomological Society Annual Conference. 2014. Lefors J., S. Longing, T. Kirkpatrick and D. Johnson. Lacewing predation on aphids and whiteflies in high tunnel peppers. Texas Tech Undergraduate Research Conference.
2014. Scott, J., S. Longing, S. Discua, J. Robles and J. Cokendolpher. A solar powered UV light trap for collecting insects. Texas Tech Undergraduate Research Conference.
2014. Scott, J., S. Longing, S. Discua, J. Robles and J. Cokendolpher. A solar powered UV light trap for collecting insects. Annual meeting of the Southwestern Branch Entomological Society, San Antonio, TX.
2014. Longing, S., S. Discua, and J. Scott. Preliminary investigation of habitat associations of the endemic *Epitragosoma arenaria* (Coleoptera: Dytiscidae) at the Monahans sandhills. Annual meeting of the Southwestern Branch Entomological Society, San Antonio, TX.
2014. Discua, S., S. Longing and J. Cokendolpher. Habitat, trap-type and seasonal associations of nine endemic insects at the Monahans sandhills. Annual meeting of the Southwestern Branch Entomological Society, San Antonio, TX
2013. Distributions, ecology and conservation of diving beetles across endemic hotspots in Arkansas and Tennessee, USA. Invited Member Symposium: When a Blind Beetle Crawls Over the Surface of the Globe, or Under the Water: Biodiversity and Systematics of Aquatic Beetles. Invited Member Symposium. Entomological Society of America Annual Meeting, Austin TX. With G.W. Wolfe and D.R. Leasure
2013. Distribution, Conservation and Current Status of Three Endemic *Heterosternuta* (Coleoptera: Dytiscidae: Hydroporinae) in Arkansas. With P.A. Bacon and G.L. Harp. Annual meeting of the Arkansas Academy of Sciences. Magnolia, Arkansas.
2013. Biogeography and Conservation of Diving Beetles in the Southeastern U.S. Invited Seminar, Department of Biological and Environmental Sciences, Georgia College and State University, Milledgeville, GA.
2013. Natural Flow Regimes of the Ozark and Ouachita Mountain Region. Annual Meeting of the American Fisheries Society. D. Leasure, D. Magoulick and S. Longing.
2012. A new automated tool for multi-scale sampling of spatial environmental data to predict the distribution of the Sulphur Springs diving beetle in northwest Arkansas. Entomological Society of America Annual Meeting, Knoxville, TN. With D. Leasure and G. Huxel.
2012. STREAMSCAPES: An automated tool for multi-scale sampling of environmental GIS data with a case study of the Sulphur Springs Diving Beetle. Ecological Society of America Annual Meeting, Portland, Oregon. With D. Leasure, P. Bacon and G. Huxel.
2012. Observations of flight, responses to microhabitat drying, and morphology of ecologically- segregated, endemic congeners occupying groundwater influenced habitats on the Ozark Plateau. Southeastern Branch – Southwestern Branch Joint Annual Meeting, Entomological Society of America, Little Rock, Arkansas. With undergraduate student T. Hayashi.
2011. Hydrologic classification of Arkansas's streams and rivers. Arkansas Cooperative Fish and Wildlife Research Unit Annual Meeting, Little Rock, AR. With D. Magoulick.

2011. Ecology of some unique Ozark-endemic aquatic insects. Arkansas Master Naturalists Certification Lecture Series, Withrow Springs State Park, Arkansas.
2010. Genetic population structure of *Heterosternuta sulphuria* across affected and reference watersheds in the Ozark Highlands and Boston Mountain ecoregions. North American Benthological Society Annual Meeting, Santa Fe, NM. (Poster with G. Huxel, P. Bacon, and A. Dowling).
2009. Distribution and ecology of some endemic water beetles and their potential contribution to stream assessments, Biological Sciences Fall Seminar Series, University of Arkansas.
2009. North American Benthological Society Annual Meeting, Grand Rapids, Michigan. Status and ecological indicator potential of *Heterosternuta sulphuria* populations (Coleoptera: Dytiscidae: Hydroporinae) for watershed conservation in Arkansas (Poster with P. Bacon).
2009. EPA Region 4 RTAG, Dallas, TX. Nutrient criteria development for the Red River Watershed Phase 1: Data distributions, landscape associations, and comparisons with EPA recommended water quality criteria.
2009. Arkansas Water Resources Center Annual Meeting. Ecological restoration strategies using aquatic invertebrates at the Watershed Research and Education Center. Fayetteville, Arkansas.
2008. An interstate approach to nutrient criteria development for the Red River watershed: Data acquisition, and preliminary analysis. American Water Resources Association Annual Meeting, New Orleans, LA.
2008. Aquatic insect conservation through the Arkansas Wildlife Action Plan. Department of Entomology fall seminar series, University of Arkansas.
2008. Rearing of previously unknown larvae of *Heterosternuta sulphuria* (Coleoptera: Dytiscidae: Hydroporinae). Arkansas Entomological Society Annual Meeting, Fayetteville, Arkansas.
2008. Restoration in small agricultural and urban streams of northwest Arkansas using invertebrates. American Ecological Engineering Society, Reno, NV (Poster with B. Haggard)
2008. Nutrient Criteria Development for the Red River watershed. U.S. Environmental Protection Agency Joint Meeting Region 4 and Region 6, Atlanta, GA.
2008. Finding a needle in a channelized haystack: Updated distribution of an endemic diving beetle in Arkansas. Arkansas Watershed Research Center Conference, Fayetteville, Arkansas.
2008. EPA Region 6 RTAG Meeting, Dallas, TX. Red River Nutrient Criteria Development Project: Phase I.
2008. Ecomunch Seminar Series, Biological Sciences, University of Arkansas. BioBlitz at the Buffalo National River: The Hydroporinae and other aquatic beetles of small streams and springs in the Ponca Wilderness Area. Biological Sciences Department, University of Arkansas.
2007. Baseline bioassessment of a headwater, Ozark Highlands stream system before restoration and the development of macroinvertebrate assemblage rehabilitation trajectories. Southern Water Quality Conference, Fayetteville, AR.
2007. Watershed Research and Education Center and Baseline Bioassessment. SERA17 Conference, Fayetteville, AR.
2007. Establishing rehabilitation trajectories of benthic invertebrate assemblages in a heavily degraded headwater stream system. Ecomunch Seminar Series, Biological Sciences, University of Arkansas.
2007. Dominant benthic macroinvertebrates in Southern Blue Ridge streams: Evidence of assemblage equilibrium associated with historical watershed disturbances. The Nature Conservancy, Ozark Highlands Office, Fayetteville, AR.
2007. Freshwater bioassessment in Ozark Highlands and Southern Blue Ridge headwater streams. Spring Seminar Series, Department of Crop, Soil, and Environmental Sciences, University of Arkansas.

2007. Baseline bioassessment of the Watershed Research and Education Center stream system. Dale Bumpers College of Agriculture and Life Sciences Environmental Task Force Meeting, University of Arkansas.
2006. Ecological studies of benthic macroinvertebrates for determining sedimentation impacts in Chattahoochee National Forest streams. Ph.D. defense seminar, Department of Entomology, Virginia Tech University.
2004. Systematic sampling of benthic macroinvertebrates in southern Blue Ridge streams. Virginia American Water Resources Association Annual Meeting, Blacksburg, VA.
2004. Determining benthic macroinvertebrate assemblage patterns and the influence of reach-scale sedimentation in forested, mountain streams. Virginia Tech Stream Team presentation, Department of Biological Sciences.
2003. Preliminary investigations of benthic macroinvertebrates and streambed sedimentation associated with small, forested streams in the Chattahoochee National Forest (Georgia, USA). North American Benthological Society Annual Meeting, Vancouver, B.C., Canada (Poster with J. R. Voshell, Jr.).
2001. Population dynamics of the lesser mealworm (Coleoptera: Tenebrionidae) in a turkey brooder house. Fall Seminar Series, Department of Entomology, Virginia Polytechnic Institute and State University, Blacksburg, Virginia. 2001.
2001. Beekeeping in Arkansas: Honeybee diseases and status. Arkansas Beekeeping Association Annual Meeting. Jonesboro, AR.
1999. Biology and management of the lesser mealworm (Coleoptera: Tenebrionidae) in turkey production systems. Arkansas Entomological Society Annual Meeting, Hot Springs, AR.

PROFESSIONAL DEVELOPMENT

- 2019. STEM Teaching and Learning Mini Conference, Texas Tech University, Teaching, Learning and Professional Development Center (TLPDC), Lubbock, TX, (October 14, 2019).
- 2017. STEM Teaching, Engagement and Pedagogy (STEP) Program Workshop: Moving Beyond “Groupwork” by Creating High Performance Student Teams. Texas Tech Teaching and Learning Professional Development Center. April 3rd, 2017.
- 2016-2017 Faculty Fellow, Texas Tech STEM Teaching, Engagement, and Pedagogy (STEP) Program, Teaching and Learning Professional Development Center, Texas Tech University.
- 2016. STEP Program: There is Nothing Passive About Active Learning (STEM). Texas Tech Teaching and Learning Professional Development Center. September 14th, 2016.
- 2016. Southern Plains Undergraduate Research Consortium, Department of Agricultural Education and Communications, Texas Tech University. Arbor Hotel and Conference Center, Lubbock, TX, March 23rd, 2016
- 2015. Working Through the Logistics of Service Learning (Panel), Texas Tech Teaching Learning and Professional Development Center Course: Blackboard Learn 9.1, November 3rd, 2015.
- 2015. Texas Tech Teaching Learning and Professional Development Center, Teaching and Learning Workshop, Tenure Academy. November 10th, 2015.
- 2015. Texas Tech Teaching Learning and Professional Development Center Course: Blackboard Learn 9.1, Basic Training.
- 2014. Texas Tech Teaching Learning and Professional Development Center Course: Blackboard Learn 9.1, CAYUSE
- 2014. Texas Tech Teaching Learning and Professional Development Center Course: Blackboard Learn 9.1, OrgSync.
- 2014. Texas Tech University Water Workshop, College of Agricultural Sciences and Natural

- Resources. November 11th, 2014.
- 2009. Population Viability Analysis IV: Modeling Occupancy for Conservation, December 7 – 10, 2009, National Conservation Training Center, Shepherdstown, WV.
- 2009. Southern In-stream Flow Network and Ecological Limits of Hydrologic Alteration Workshop, Nashville, TN, 2009.

ACADEMIC COMMITTEES & SERVICE

- 2021 – Present. Graduate Council. Graduate School, Texas Tech University (UNIVERSITY)
- 2021 – Present. Student Affairs Subcommittee. Graduate School, Texas Tech University (UNIVERSITY)
- 2020 – Present. Research and Graduate Studies Committee, College of Agricultural Sciences and Natural Resources, Texas Tech University (COLLEGE)
- 2020-2021. Internal Reviewer, Graduate Program Review, Physics and Astronomy, Texas Tech University (UNIVERSITY)
- 2020 – Present. Undergraduate Research Committee, Department of Plant and Soil Science, Texas Tech University. (DEPARTMENT)
- 2015 – Present. Social Committee, Chair, Department of Plant and Soil Sciences, Texas Tech University (DEPARTMENT)
- 2013 – present. Faculty Advisor, Texas Tech Entomology Club, Department of Plant and Soil Sciences (DEPARTMENT) (*currently not an official club, Jan 2021*)
- 2013 – Present. State Supervisor, Future Farmers of America *Entomology CDE*, College of Agricultural Sciences and Natural Resources. (COLLEGE, DEPARTMENT)
- 2013 – 2020. Recruitment, Retention, and Career Development Committee, College of Agricultural Sciences and Natural Resources, Texas Tech University. (COLLEGE)
- 2017. Outreach and Academic Engagement Ad Hoc Committee, Texas Tech University, College of Agricultural Sciences and Natural Resources representative. (UNIVERSITY)
- 2014 – 2017. TTU Worldwide eLearning Committee, College of Agricultural Sciences and Natural Resources Representative, Texas Tech University. (UNIVERSITY)
- 2012-2013. Undergraduate Curriculum Committee, Department of Plant and Soil Science, Texas Tech University, 2012 (DEPARTMENT)
- 2012. Outstanding PhD and MS Student Award Committee, Department of Plant and Soil Science, Texas Tech University (DEPARTMENT)

NON-ACADEMIC COMMITTEES

- 2017 – 2019, Steering Committee, Bayer CropScience Feed a Bee Program
- 2015 – 2016. Steering Committee, Texas Pollinator PW Annual Meeting, Lubbock, TX.
- 2016. Farm, Orchard and Garden (FOG) Committee, South Plains Food Bank, Lubbock, TX.
- 2012. President, Arkansas Entomological Society.
- 2010. Invertebrates and Karst Invertebrate Team Leader, Arkansas Wildlife Action Plan.
- 2010 – 2012. Southern Instream Flow Network – Arkansas Environmental Flow Team.
- 2006 – 2008. Environmental Concerns Committee, City of Fayetteville, AR.
- 2008. Aquatic Invertebrate Habitat Committee, Priorities for Research and Conservation, State Wildlife Grant Program, Arkansas Game and Fish Commission.

ACADEMIC ENGAGEMENT AND OUTREACH

- 2023. NSF I-Corps Regional Program (<https://www.depts.ttu.edu/research/icorps/>). *In process*, submitted application Jan 2023. BioMetricsAG – Biological conservation in agriculture.
- 2022. Insect Biodiversity. Smith Elementary. Entomology Club Outreach. October 14, 2022.
- 2022. National Ranching Heritage Center. 53rd Annual Ranch Day. Entomology Club Exhibit – Insects of Ranch Lands. April 2, 2022.
- 2020. Pollinator habitat enhancements and outreach involving nature at the Lubbock Children’s Home. S. Longing. (January 2020-present, planning)
- 2019. TTU Ecopreserve (Proposed Space Allocation). In 2019, I submitted a land allocation form to set aside a parcel of land as a new TTU Ecopreserve that would serve education, research and outreach.
- 2019. Pollinators in Urban Gardening. Lubbock Water Smart Series, City of Lubbock, Lubbock TX. S. Longing (June 2019).
- 2018 – present. Southern States Pollinator Team: Identifying pollinator attractive plants through citizen science in Oklahoma and Texas. (Texas Tech University, Texas A&M University, Tarleton State University and Oklahoma State University).
- 2018. Native Bee Research in the Llano Estacado (Insect Contribution, 2019 Exhibit). Museum of Texas Tech University, Lubbock, Texas.
- 2018. Insect Exhibit. National Ranching Heritage Center Celebrates John R. Erickson’s newest book, Ranch Life Book 3: Ranch Wildlife. Sept. 7th, Lubbock Memorial Civic Center, Lubbock, Texas. 2018 – present. Native plant restoration team. Natural Ranching Heritage Center, Texas Tech University, Lubbock, Texas.
- 2018 - present. Assist farmers and other landowners in enhancing pollinator habitat. (In 2019, a framework will be built to accept donations for service, to support pollinator research and student learning.
- 2018. The Pollinator Trail – A network of small farms to demonstrate and promote pollinator conservation. Funded through a 2015 USDA Conservation Innovation Grant. The Pollinator Trail is a network of nine “farmers market” farms where pollinator habitat improvements began in 2016 and are ongoing.
- 2018 - present. Website: Southern High Plains Pollinators (and other anthophilous insects and their habitats) <https://scottlonging.wixsite.com/pollinators> . This website is companion to The Pollinator Trail and provides information on common pollinators and other insects occurring in grassland habitats where pollinator habitat improvements are a goal. Created through a grant from the USDA Conservation Innovation Grant Program (2015-2018).
- 2017. Turfgrass, Horticulture and Pollinator Research Open House, Department of Plant and Soil Science, Texas Tech University, Quaker Avenue Research Farm. July 8th, 2017.
- 2016. Museum of Texas Tech, Climate Science Center – Community Sustainability and Entomology, October 16, 2016.
- 2016. Llano Estacado Audubon Society – Pollinators on the High Plains, November 7th. Lubbock Lake Landmark, Lubbock, TX.
- 2016. Bayer Feed a Bee and The Wildlife Society National Pollinator Planting Event, Quaker Farm and Carolyn Lanier Farm. Enhancement of pollinator habitats, October 21st and 22nd.
- 2016. South Plains Chapter – Lubbock Master Naturalists Training. Entomology: Insect Pests and Beneficials. Lubbock Memorial Arboretum, Lubbock, TX.
- 2015. Wildflower garden establishment at the Texas Tech Early Childhood Development Center, in cooperation with Texas Tech Occupation Therapy Graduate Students, Texas Tech University, Lubbock, TX.

- 2014. Harwell Elementary Garden Club, Lubbock, TX. Assists weekly with the establishment and maintenance of the school garden and bee hotel.
- 2014. Texas Tech Early Childhood Development Center, Introductory Entomology – Service Learning Projects. Entomology for Kids. Texas Tech University, Lubbock, TX.
- 2014. Highpoint Village – Introductory Entomology Service Learning Projects. Entomology for Disadvantaged Adult Learners. Lubbock, TX.
- 2013. Growing Recruits for Urban Business, South Plains Food Bank Carol Lanier Farm. Pollinator Habitat Enhancement. Lubbock, TX.
- 2015. Pollinator Partnership National Pollinator Week – Harwell Elementary Garden Club Pollinator Day – Organizer, June 17th.
- 2015. 6th Annual Butterfly Release, Lubbock Arboretum Festival – Insect Pollinators, June 13th.
- 2015. Children’s Garden Camp, Lubbock Arboretum – Insect Collecting Activities, August 3-7.
- 2014. Children’s Garden Camp, Lubbock Arboretum – Insect Collecting Activities, August 11th – 15th.
- 2014. Texas Tech Research Carnival, Entomology Research Exhibit, November 18th.
- 2014. South Plains Food Bank G.R.U.B. Program, Lubbock, TX. Insect Pollinator Workshop, November 22nd.
- 2014. Texas Tech Early Childhood Development Center Halloween Carnival, Insect Activities.
- 2011. Kings River Watershed Partnership: Introduction to Bioassessment Using Benthic Macroinvertebrates.
- 2011. Harbor School, Springdale Arkansas. Introduction to Entomology.
- 2011. Girl Scout Troop, Washington Elementary – Aquatic Insects at Wildcat Creek, Water Badge.
- 2008. Riparian planting of 300 trees in the riparian corridor of the UA Watershed Research and Education Center stream system.
- 2008. University of Arkansas Upward Bound Program for Youth – Wildcat Creek. Introduction to scientific data collection and freshwater bioassessment using benthic macroinvertebrates.
- 2008. National Park Service, Buffalo National River. BioBlitz at BNR: The Hydrophorinae and other aquatic beetles of small streams and springs in the Ponca Wilderness Area, Buffalo National River.
- 2006 – 2010. Department of Entomology Insect Festival, University of Arkansas. Aquatic Insects.
- 2004. Field Instructor, Virginia Science Education Leadership Association and Virginia Naturally/Virginia Resource-Use Association. Tools, Tips, and Resources for Inquiry-Based Field Investigations: A Professional
- Development Meeting. “Using Freshwater Macroinvertebrates to Teach Ecology: How Are They Adapted to Perform Essential Jobs in the Factory We Call an Ecosystem?”
- 2004. Field Instructor; Insect Walk at Claytor Lake State Park.
- Blacksburg Natural Heritage Program, Insect Diversity Brown’s Farm Pond, Blacksburg, VA, 2002.
