

**A few visuals of service activities that linked to funded research and outreach programs.**

**International:** Orchid biology workshops in **Costa Rica, Belarus, Nepal, and Mexico** to high school students, university students, indigenous peoples, academics, and conservation practitioners.

**National:** Habitat restoration and conservation in **California, Texas, and New Mexico**. Volunteers from the Houston Zoo assisted with conservation activities in a National Preserve in Texas, while at-risk youth and other members of Pueblo Isleta volunteered in New Mexico to assist with wetland restoration.
