PGA

OMNI[®] HOTELS & RESORTS

PGA FRISCO GOLF OVERVIEW

PGA of America has teamed up with Omni Hotels & Resorts, City of Frisco, and its Economic and Community Development Corporations, and Frisco ISD to build a world class Omni PGA Frisco Resort, private golf club and lifestyle destination in Frisco, TX.

Anchoring PGA Frisco is the new home to PGA of America's new state-of-the-art, 106,000 sq. ft. headquarters, along with Omni PGA Frisco Resort and a multitude of other experiences and features within. The combined efforts of Omni Hotels & Resorts and PGA of America have laid the groundwork for PGA Frisco to foster a plugged-in, forward-thinking lifestyle experience-driven golf community that will lead the sport into the future.

When complete in Spring 2023, the development will feature Fields Ranch East and Fields Ranch West championship golf courses, a par-3, 10-hole short course totaling 46 holes as well as a 75,000 sq. ft. putting course within the 660-acre property. Gil Hanse and Beau Welling were hand-selected to design Fields Ranch East and Fields Ranch West championship golf courses.

Upon opening, Fields Ranch East will host the 83rd KitchenAid Senior PGA Championship May 23-28, 2023. An additional 26 championships are scheduled in Frisco through 2034, including two PGA Championship events, and the KPMG Women's PGA Championship. Hanse designed the 7,800-yard Fields Ranch East course with smallish greens that artfully combine gentle undulations and stronger slopes, placing a premium on accurate approach shots. This course provides a dramatic setting for avid golfers.

Welling designed Fields Ranch West to offer a sense of community where players of varying skill levels can have a positive experience in a remarkable, naturalistic setting. Fields Ranch West spans 7,400 yards and has the highest elevation on the property, Fields Overlook, which showcases panoramic views across the PGA Frisco property.

INTERNSHIP OPPORTUNITY

As a PGA Frisco intern, there are general expectations you must fulfill. Applicants must be enrolled in either a 2 or 4-year turf program and have at least one year of experience working on a golf course. Interns will be subject to longer hours and flexible work schedules and will be dedicated to the golf course maintenance team. You will work closely with Superintendents and Assistant Superintendents learning all aspects of the maintenance operation, particularly the intricacies of growing a variety of warm season grasses.

Essential Duties & Responsibilities:

- Assist with final preparations of grow-in and opening of facilities
- Preparations for the 83rd KitchenAid Senior PGA Championship
- Hand watering
- Moisture monitoring
- Calibration/ fertilization
- Plant protectant planning & applications
- Irrigation repairs, planning & programming
- Team leadership
- Participation in agronomic planning & execution

Fields Ranch Internship

Our team's goal is to provide a unique and tailored internship program that will teach and provide the skills necessary to be a successful turfgrass manager. Interns will work in a multidisciplinary environment across all departments in equipment management, application processes, irrigation maintenance and crew leadership.

Our team will conduct an onboarding assessment to establish learning objectives, goals and expectations and ensure exposure to all aspects of turfgrass management. There will be weekly education topics and facetime with top university and industry professionals throughout the summer.

COMPENSATION

Provisions as follows:

- Twenty dollars per hour plus reasonable overtime
- Discounted housing opportunities
- Uniforms
- Meals
- Golfing privileges
- Opportunities for monetary monthly service rewards
