

Hello all,

Please forward to those that you believe are qualified and/or interested, I would ask that you all circulate this widely. There are 10 Pathway Intern positions in the Soil and Plant Science Division (SPSD) targeting Soil Scientists and 4 Pathway Intern positions in SPSP targeting Ecologists. Please note that all of the Soil Scientist Pathway Intern positions for SPSP are GS-02/03 and upon conversion to competitive service are full performance level GS-11, the Ecologist Pathway Intern positions for SPSP are GS-03 and upon conversion to competitive service are full performance level GS-11. For reference GS-02 denotes completion of high school or a GED diploma, GS-03 denotes the completion of 1 full academic year of post-high school study.

Among the locations for Soil Scientists the South Central Region is particularly interested in candidates for the **Robstown, TX MLRA Soil Survey Office**, other locations include: Flint, MI; Marietta, OH; Owensboro, KY; Mill Hall, PA; Davis, CA; Rapid City, SD; Springfield, IL; Waverly, IA; and Lincoln, NE. Link to the announcement follows and is open from October 11<sup>th</sup> – October 28<sup>th</sup>: <https://www.usajobs.gov/job/682514000>

Among the locations for Ecologists the South Central Region is particularly interested in candidates for the **Kerrville, TX MLRA Soil Survey Office**, other locations include: Flagstaff, AZ; Tucson, AZ; and Santa Fe, NM. Link to the announcement follows and is open from October 11<sup>th</sup> – October 28<sup>th</sup>: <https://www.usajobs.gov/job/682594600>

Thank you,

J. Josiah “Jo” Parsley  
Soil Survey Regional Director  
South Central Region
