

PAID STUDENT INTERNSHIP ANNOUNCEMENT

Young Scholar Enhancement Grants Program (YES Internship)

Southern Sustainable Agricultural Research and Education

We are seeking to hire a student internship to participate in a study involving native pollinators and soils in the Southern High Plains agricultural region. The student intern will actively learn field and laboratory methods used to assess pollinator communities and soil conditions across different agricultural production systems. A large portion of activities will be centered around collecting and curating native bees. Student interns will explore relationships of native bee communities and soils from an agroecosystem perspective, to inform conservation actions for pollinators and healthy soils on farms.

Internship Period: Six weeks beginning 1 July 2022. Pay: \$11.00 per hour.

How to apply: Please submit a CV and statement of interest and relevant experience to Dr. Scott Longing (scott.longing@ttu.edu).
