

## OUR COMPANY

AgGro Innovations is a private, contract research company dedicated to providing the agricultural crop

protection industry with quality research. We have been conducting high-quality research for 10+ years.

AgGro Innovations is offering full-time summer internships for 2024, with competitive pay. Please read more for details.

## LOCATION

**WALLER, TEXAS**

**BEASLEY, TEXAS**

## INTERNSHIP OPPORTUNITES

- Competitive pay
- Fun, team-oriented culture
- Hands-on participation in field research of field crops and vegetables
- Experience in herbicide, fungicide, insecticide, PGR, GLP residue, and APHIS regulated trial work, involving numerous crops
- Training available for equipment operation

## JOB DESCRIPTION

The intern position is based out of Waller, TX, but would also involve work in Beasley, TX. Hours would range from 40-50 hours/week, depending on the workload. Tasks would include, but would not be limited to, assisting in field trial implementation, field trial maintenance, data collection, and tractor related activities.

Pay is dependent on previous experience.

## INTERNSHIP QUALIFICATIONS
