

Established in 1892, Chicago GC was the first 18-hole golf course in North America as well as a founding member of the USGA. Designed by C.B. Macdonald and renovated by Seth Raynor. Chicago Golf Club is home to unique and legendary architectural characteristics, such as classic template holes. The course sits on 220 acres of wide open land with about 80 of those being “low maintenance” fescues. CGC is located in Wheaton, IL approximately 25 miles West of Downtown Chicago. Chicago Golf Club is currently rated #13 on Golf Digest’s Top 100 list and #19 on Golf.com’s world ranking. Additionally, golf digest ranked us #7 in the country for playing conditions. We are in the beginning stages of preparation to host the 2032 US Women’s Open, as well as the 2036 Walker Cup.

We are currently hiring Interns and AIT’s for the 2025 season. These aspiring turf professionals will be involved in all aspects of golf course and grounds maintenance. Tasks will include water management, spray applications, aggressive cultural practices, mowing of playing surfaces and operation of all equipment on property all with one end goal, playability. Additionally, each Turf Professional will be presented opportunities to manage the entire staff and will serve as project/task leaders to help build crucial management and leadership skills, under the guidance of a young, forward-thinking management team.

We are four years out of our bunker and fairway expansion renovation to restore Chicago Golf Club back to Raynor’s original intent. Two acres of approaches were added, as well as four acres of fairway. 13 abandoned bunkers were uncovered and restored to their original form. Each individual will have the opportunity to work hands on with the management team to preserve the restorations into the future with sound agronomic practices. Along with the bunker and fairway restoration, a new Toro Infinity two-wire irrigation system was added. Everyone will be taught to become comfortable with the operation and repair of the new irrigation system. In February of 2024, we installed a new pump station. We are currently under construction expanding our maintenance facility to provide an enhanced work experience for all members of our staff. Work is scheduled to be completed by February 2025.

Chicago Golf Club is synonymous with playability, we strive to provide the membership and their guests with championship conditions daily. You will be exposed to various methods of sustainably producing supreme playing conditions across all surfaces while emphasizing plant and soil health. At Chicago Golf Club, we take pride in advancing the careers of future turf professionals. In the past 8 seasons there have been 8 Superintendents and 22 Assistants produced across the nation. We want you to succeed and WILL help you get to the next level.

Wages will be \$16 an hour plus time and a half for overtime for interns, and \$17 an hour plus overtime for AITs. Free on-site housing is provided and includes a full kitchen, laundry, and wireless internet. Employees may golf on the Mondays that the course is closed. Uniforms are provided, with an allowance for additional work-related clothing items. The club will cover all local and national dues, IL state pesticide license and offers scholarships towards continuing education.
