

Undergraduate Research Position Available

Liu Lab | Institute of Genomics for
Crop Abiotic Stress Tolerance

The Dr. Degao Liu Lab in the Department of Plant and Soil Science is actively seeking motivated undergraduate students to join our cutting-edge research team. We offer exciting opportunities for students passionate about advancing plant genome editing and photosynthesis engineering.

To learn more about our research focus, please visit our website:

https://www.depts.ttu.edu/IGCAST/Staff/Degao_Liu.php

Interested students should send a cover letter detailing their research experience and interests, along with a CV, to Dr. Degao Liu at degliu@ttu.edu.
