

# Marsha Sharp Center for Student-Athletes

## General and Subject Tutors

We are currently looking for tutors to start the Fall 2023 semester. We are always in need of tutors. In the last year, we have had appointments or requests for AAEC 2305, AGED 5302, AGLS 3302, ANSC 1401, ANSC 2310, and PSS 1411.

The Marsha Sharp Center is currently looking for tutors to start the Fall 2023 semester. The MSC is an on-campus tutoring center that operates Monday-Thursday 8:00 am-9:00 pm, Friday 8:00 am-5:00 pm, and Sunday 5:00-9:00 pm. Within that time frame, tutors are given the ability to designate when they would like to be available for work, creating their own schedule. As a student employee, the maximum a tutor can work is 20 hours/week. We are always looking to hire qualified candidates in a variety of subject areas. This is a position that could carry into future semesters. Undergraduate tutors make \$13/hour and graduate students make \$14/hour.

**Subject Tutors** work with student-athletes one-on-one as a supplement to what the student is learning in class. Subject tutoring is content-specific, helping the student to understand core concepts discussed in the course. Subject tutors must have extensive background knowledge and understanding of the course material.

**General Tutors** meet one-on-one with students to build and develop time management skills, reading and writing strategies, effective note-taking skills, test preparation and test-taking strategies, and general student self-advocacy skills. General tutors must have good organizational and communication skills. Future or previous educators preferred.

**Qualifications:**

1. GPA of 3.0
2. At least a sophomore credit-wise
3. Be in good standing with the university.
4. Have strong interpersonal skills
5. Proficient in the English language. (Spoken clearly and grammatically adept)
6. Extensive knowledge and understanding of the course material you intend to tutor.
7. Available for required training

**Application:** <https://forms.office.com/r/xZDELGjMgi>

Thank you for your time!

**Megan Metz, M.S.**

**Tutorial Coordinator**
