

West Gaines Seed

Entry Level

I am the West Gaines Seed Lubbock Retail Location Manager. We are currently looking for a young, smart, and ready-to-work individual to interview for a job opportunity with West Gaines Seed. This job would be mainly indoors in an office setting, with the occasional help loading and unloading our sales reps and delivery trucks with cotton seed or small grains in our warehouse. This would be done with a forklift and would be very minimal work to do outside of the office. The job would offer very competitive pay, especially coming straight out of college.

I was wondering if you had any individuals in mind that would be interested in this job opportunity. They would need to have recently graduated or be finishing school here in the summer semesters.

If you would please let me know if anyone comes to mind, I would greatly appreciate it. You can have any individual that you see fit email a resume to myself at **broberts@westgainesseed.com** or **bcoor@westgainesseed.com** that would be great.

Thank you!

BRADY ROBERTS
