Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students who are admitted to the Counseling Psychology program have an opportunity during their first semester to submit waiver requests based on coursework, taken at other institutions and that is substantially equivalent to PSY program requirements. These waivers are reviewed on a case-by-case basis. In general, coursework required is decreased by the same number of hours granted by approved waivers. Students with a master's degree from another program may reduce their time to completion by approximately one year depending on how closely that program overlaps with the UT Counseling Psychology PhD program.
