

End Year Annual Evaluation

Student Name Academic Year Date

At the end of each year the Counseling Psychology Program faculty meets to review the progress of all graduate students in the program. Feedback is sought from all department faculty. Unless there is an unusual situation, we give feedback to students only annually, at the end of the Spring semester. The next step in the feedback process is for each academic advisor to communicate the information from that meeting as well as any additional feedback from the advisor to each of his or her advisees. This letter, which will become a permanent part of your departmental file, is your official end of the year evaluation.

Faculty, please provide feedback for the student regarding the following competency areas using the following scale. Ratings should be based on the student’s level of matriculation (number of years in the program) at the time of this evaluation.

1 = making unsatisfactory advancement 2 = making slight advancement

3 = making satisfactory advancement

4 = making very good advancement 5 = making exceptional advancement

Score

Research

Ethical and legal standards

Individual and cultural diversity

Professional values, attitudes, and behaviors

Communications and interpersonal skills

Assessment

Intervention

Knowledge of supervision models and practice

Consultation and interprofessional/interdisciplinary skills

Attendance in classes
