

MASTER'S STUDENTS PRACTICUM EXCEPTION FORM

Counseling Psychology Program Texas Tech University

This application applies to Master's students who wish to:

- Begin clinic practicum in their first semester of training
- Apply to an external practicum prior to completion of the 3 semester internal clinic practicum requirement

This application must be filled out by the student and submitted to the Practicum Coordinator for approval. A separate form must be completed for each request. Also please attach a copy of your CV for review.

Today's date:

This application pertains to:

Begin clinic practicum in the first-year Fall semester of training

Apply to an external practicum prior to completion of clinic practicum requirement

Semester(s) in which practicum is sought:

Name of practicum site:

Name of on-site supervisor:

Student Information

Number of clinical hours completed _____

Name

Year in Program

Academic Advisor

Past Clinical Experience

In the box below, please provide an explanation of your theory of change. That is, what do you think makes therapy work? Your answer may include a theoretical orientation that you have worked with, but you need to explain what elements of that theory create change in clients. Note that some theoretical orientation may not be considered acceptable by Counseling faculty (e.g., conversion therapy). Also, please indicate if you worked primarily with adults or children.

If applying for external practicum early:

If you are applying for an external practicum, when do you plan to complete the three required semesters of practicum in the psychology clinic?

If you are applying for an external practicum, when do you plan to complete the three required semesters of practicum at the TTU Student Counseling Center?

Please return this completed form electronically to the Practicum Coordinator.
