

How to complete “Program for the Doctoral Degree” form (see example below):

Turn in this checklist with your departmental and graduate school forms

- a. Download the form from the grad school at <http://www.depts.ttu.edu/gradschool/Forms.php>.
- b. Your major is “Psychology (Experimental)” regardless of your particular program within the Experimental Division.
- c. There is no residency requirement in Psychology, so put “NA.”
- d. List all courses completed and all courses yet to be completed—making no distinction between the two - *in the same order in which they appear on the “Experimental Division: Doctoral Degree Program” form.*
- e. Use the exact course number.
- f. Do not put course titles on the graduate school form.
- g. All programs in the Experimental Division should include “Psy 7000 (18 hrs.)” and “Psy 8000 (12 hrs.)” even though you will undoubtedly accumulate more than these minimum numbers of hours.
- h. If the number of hours is not 3, provide the number of hours in parentheses (e.g., “18 hrs”).
- i. There is no tool or language requirement in psychology.
- j. You can delete or move headings such as “Minor” and “Tool or Language” to provide additional space.
- k. For transfer courses, there is no need to list the equivalent Texas Tech course number unless you want the course to appear on your Texas Tech transcript as well as the transcript from your previous institution.
- l. The degree plan must be signed by the program director, not the student’s research advisor.
- m. The degree plan must fit on a single page.

Name _____
