

Built on Rawls.

TEXAS TECH UNIVERSITY  
Rawls College of Business

MASTER OF SCIENCE IN

# FINANCE

The Rawls College Master of Science in Finance program provides graduates with the expertise needed to lead in the financial sector. Through our one-year, 36-hour program, learn how to make informed financial decisions and evaluations, balance the relationship between risk and return, and evaluate financial data through advanced proficiency in spreadsheets and databases. Upon graduation, you will have the skills and knowledge needed to succeed in the many fields of finance, including corporate finance, security analysis and valuation, investment management, commercial and investment banking, real estate analysis and investments, and more.
