

REMOTE WEBSITE LAUNCH

Using the Net Control Application on the podium machine you can send a command to launch a specific website in Firefox by following these steps:

	Open Net Control 2 via the start menu or desktop icon.
	Select all 36 machines by pressing Ctrl + A or clicking on the select all icon toward the top left of the screen.
	Click on the Programs button from the ribbon.
	Choose the Command Prompt tab.
	In the Run program/URL box enter the command you would like to run, for Firefox to open a specific page that would be: "C:\Program Files (x86)\Mozilla Firefox\firefox.exe" "***URL**"
	Click on Run or press the Enter key. <i>** Firefox will open to this URL if it is not already running, if it is already running it will open the site in a new tab.</i>
