

# NSF CAREER PROPOSAL GUIDE

*Information in this document is provided to help guide writing of a CAREER proposal. It should not substitute for full review of NSF Solicitation and relevant PAPPG sections by proposal writers; review further details in each of these documents.*

## CAREER AT A GLANCE

### Deadline

July 26, 2023 (5:00 p.m. submitter's local time)

### Timeframe

5 years

### PI Limitations

A Principal Investigator (PI) may submit only one CAREER proposal per annual competition. A Principal Investigator may not participate in more than three CAREER competitions. No co-PIs are permitted.

### Submission

Submitted by TTU Office of Research Services (ORS) on behalf of faculty via Research.gov.

### Instructions

- ❖ **Solicitation NSF 22-586** (check site for possible 23- version update)  
[https://www.nsf.gov/publications/pub\\_summ.jsp?WT.z\\_pims\\_id=503214&ods\\_key=nsf22586](https://www.nsf.gov/publications/pub_summ.jsp?WT.z_pims_id=503214&ods_key=nsf22586)
- ❖ **Proposal and Award Policies and Procedures Guide (PAPPG) (NSF 23-1)** [https://nsf.gov-resources.nsf.gov/2022-10/nsf23\\_1.pdf](https://nsf.gov-resources.nsf.gov/2022-10/nsf23_1.pdf)
- See PAPPG Chapter II.D.2 for guidance on the required sections of a full research proposal submitted to NSF. Please note that the proposal preparation instructions provided in this program solicitation may deviate from the PAPPG instructions. -NSF 22-586

### Minimum Budget

Minimum \$400,000 total, including indirect costs. Contact Program Officers for budget expectations.

#### **BIO, ENG, OPP Divisions exception:**

Minimum \$500,000, including indirect costs. Contact Program Officers for budget expectations.

#### **CISE:**

Expected to support one month of PI salary per year, one graduate student per year, and two trips per year (see Solicitation for additional information, V.B.)

### Eligibility

Requirements as of application deadline:

- ✓ Hold a doctoral degree in a field supported by NSF;
- ✓ Be engaged in research in an area of science, engineering, or education supported by NSF;
- ✓ Hold at least a 50% tenure-track (or tenure-track-equivalent) position as an assistant professor (or equivalent title);
- ✓ Be untenured;
- ✓ Have not previously received a CAREER award. (Prior or concurrent Federal support for other types of awards for non-duplicative research does not preclude eligibility.)

### Timeline

*Proposal Submission Timeline (22-586)*

(particularly useful for those new to NSF or new to Research.gov)

**NSF Recommendation: Submit by 7 days ahead of proposal submission deadline.**

[https://www.research.gov/common/attachment/Common/Career\\_deadline.pdf](https://www.research.gov/common/attachment/Common/Career_deadline.pdf) (fyi, TTU has a SAM UEI)

## PREPARATION

### Check Credentials

Ensure you are registered with NSF and have access to Research.gov. Contact TTU Office of Research Services with questions.

### Get to know NSF and its Directorates and Offices

## PROJECT DESCRIPTION

❖ Solicitation section V.A. gives a brief description of expected elements\* in the Project Description. These should be followed.

In addition, consider the comprehensive list of elements below expected in a thorough proposal. Each element does not necessarily require a separate heading. Each element should show project intellectual merit, project broader impacts, and/or assurance that you are the right person to accomplish the project.

Use easy-to-follow organization with headings, sub-headings, lists, tables, pictures, etc. Use highlights (bold, italics) as appropriate to emphasize important points. Be concise. Use good grammar and punctuation.

**TTU RESOURCE:** Editor review is available through ORDC.

Proposal Elements:

- Description of proposed research\*
- Background
- Rationale and significance (to NSF, your field, TTU)
- Preliminary data where appropriate\* (literature review where appropriate)
- Hypothesis/overall objective/research question/etc.
- Specific objectives\*
- Methods and procedures\* (research design/approach)
- Significance of results\*
- Description of proposed educational activities\*
- Intended impact of educational activities\*
- Description of research and educational activities integration/synergism\*
- Description of team and experience and expertise (augmented in Biosketch)
- Research/education relevance for your career trajectory/goals as a researcher and educator
- Description of broader impacts (besides educational activities)\*
- Pitfalls and limitations, contingency plan(s)
- Expected outcomes
- Assessment and evaluation plan(s)/strategies\*
- Definition of project success
- Distribution/delivery of results
- Timeline
- Future measures planned or possible
- Results of prior NSF support\*

Although not part of the Project Description, all submission documents (e.g., Biographical Sketch, Facilities, Equipment and Other Resources, Data Management Plan) should support your efforts toward showing intellectual merit, broader impacts, and/or assurance that you are the right person and institution to accomplish the project.

## Broader Impacts

Include some amount of funds for broader impact activities in budget.

❖ See Solicitation section VI.A.2. for examples of broader impacts.

See NSF Strategic Plan's Strategic Goals and Objectives, page 28, for strategic objectives that broader impacts might fall under.

## BUDGET

❖ Allowable costs include funds for (Solicitation V.B.):

- postdoctoral fellows
- graduate students
- undergraduate students
- PI salary
- education or outreach activities

- support for an evaluator
- travel and subsistence expenses for the PI and U.S. participants when working abroad with foreign collaborators
- consultant expenses

❖ Additional allowable costs include funds for (PAPPG II.D.2.f.):

- fringe benefits
- equipment
- travel
- participant support costs
- materials and supplies
- publications/documentation/dissemination
- computer services
- subawards [note, Co-PIs not allowed on CAREER]
- indirect costs

## Merit Review Principles

- ❖ Review Solicitation section (VI.) for a description of the following three Principles expected in proposals:
  1. Quality
  2. Societal Goals
  3. Assessment and Evaluation

## Merit Review Criteria

1. Intellectual Merit
2. Broader Impacts

Both criteria are given full consideration.

### *Merit Review Criteria Elements*

1. What is the potential for the proposed activity to:
  - a) Advance knowledge and understanding within its own field or across different fields (**Intellectual Merit**); and
  - b) Benefit society or advance desired societal outcomes (**Broader Impacts**)?
2. To what extent do the proposed activities suggest and explore creative, original, or potentially transformative concepts?
3. Is the plan for carrying out the proposed activities well-reasoned, well-organized, and based on a sound rationale? Does the plan incorporate a mechanism to assess success?
4. How well qualified is the individual, team, or organization to conduct the proposed activities?
5. Are there adequate resources available to the PI (either at the home organization or through collaborations) to carry out the proposed activities?
