3. What is the opportunity and what are you selling?
4. What is the situation in the world and how big is the market?
5. How is your business structured and how will you make money?
6. Who else is doing the same thing and how do you compare?
7. Who are your most important customers and how will you reach and inspire them to buy from you?
8. Do you have any strategic partners who will help?
9. Where are you today, and what have you accomplished so far?
10. How much money do you need and what will you do with it?
11. What is the deal for investors and how much money will they make?
12. When & how will investors or lenders make their money back?

JUDGING CRITERIA AND EVALUATION PROCESS

The competition is intended to reflect and simulate the real-world process of entrepreneurs seeking funding. Judges will consider market opportunity, social innovation, distinctive core competence, management capability, financial understanding, risk analysis and investment potential. A scorecard will be used to judge all submitted business plans. The scorecard is consistent with what most venture capital or early stage/angel investors need to understand on how to decide to invest on a particular venture. The scorecard tool has three functions: scoring preliminary round, a tie breaker in the final round, and used to provide feedback to the companies in the judge feedback session. Please keep in mind 5 points from each judge are automatically deducted for typographical errors- the impact is significant on final score averages. A scorecard is provided to finalists at orientation.

PRELIMINARY ROUND

The competition is supported by many TTU staff, alumni, and community volunteers. All judges are to be considered volunteers; there are two types of judges: first round judges and final round judges.

The first-round judges will be made up of TTU business faculty, the hub mentors and industry experts. The business plan submissions will be read and SCREENED by TTU business faculty/staff, industry experts and entrepreneurs/mentors utilizing a judge scorecard, similar to the sample below. The first round will determine which companies advance to the final round. A maximum total of 12 venture companies will advance to the final round competition.

FINAL ROUND SCORING

The Final Round Judges will utilize the TTU Accelerator Scorecard to grade business plan submissions during the Final Round Presentations. The TTU Accelerator Competition expects judges to score participants based on the risk and return assessment of the venture in the current economic climate. Judges' determination includes whether the business plan and the entrepreneur communicate proof of concept/ MVP, a defined market, demonstrates ability to implement and execute, opportunity for traction, coach ability, and willingness to invest in the future.
