The 911 Lifeline Law states a person under 21 won’t be charged for possessing or consuming alcohol if they call 911 because of alcohol poisoning. Call for help if any of the following applies:

- **M** Mental confusion
- **U** Unresponsive
- **S** Snoring/gasping for air
- **T** Throwing up
- **H** Hypothermia
- **E** Erratic breathing
- **L** Loss of consciousness
- **P** Paleness/blue skin

When someone cannot sit up by themselves, use the recovery position to ensure they’re safe. Never leave an incapacitated person alone.
