

# TTU/LISD MIDDLE SCHOOL STEM CHALLENGE June 9-13, 2014

For a week this summer, four students will be asked to represent your school in the TTU/LISD Middle School STEM Challenge. STEM stands for Science, Technology, Engineering and Mathematics; all things you will use to solve a problem! Over the five days, students will work with a teacher and a Texas Tech University student to construct a project. At the end of the week, each team will put it all on the line with a school vs. school challenge to see who solved the problem the best.

***No homework. No tests. No books to hide behind.***

Hands will get dirty, and bragging rights and school pride are on the line. Think you have what it takes?

Talk to your science teacher today for more information!

## The TTU/LISD Middle School STEM Challenge is supported by:

-  Texas Tech University STEM Center for Outreach, Research & Education
-  National Science Foundation
-  Lubbock Independent School District
-  The Halliburton Foundation
