Degree Based Program Fees

MBA Executive Format for Working Professionals Program Fee

- This program is a cohort based program consisting of up to seven semesters (including summer). Upon acceptance, each student is required to pay a program fee of up to $1,000, within two weeks of acceptance, to hold a place in the entering class. Expenses may include, but are not limited to, professional development activities, travel, course materials, and faculty and administrative support. Students enrolled in this program are eligible to be counted for formula funding and students who fail to complete the program according to their original cohort degree plan may be assessed additional fees or surcharges.
- For cohorts beginning prior to FY2021: Residents of Texas will be charged a flat fee each semester for a total program cost of up to $60,000. Nonresidents will be charged the same program fee as residents plus the applicable state tuition surcharge rate per semester credit hour as authorized annually by the Texas Higher Education Coordinating Board.
- For cohorts beginning during or after FY2021: Residents of Texas will be charged a flat fee each semester for a total program cost of up to $80,000. Nonresidents will be charged the same program fee as residents plus the applicable state tuition surcharge rate per semester credit hour as authorized annually by the Texas Higher Education Coordinating Board.

MS PFP Executive Format for Working Professionals Program Fee

- This program is a cohort based program consisting of up to five semesters (including summer). Upon acceptance, each student is required to pay a program fee of up to $1,000, within two weeks of acceptance, to hold a place in the entering class. Expenses may include, but are not limited to, professional development activities, travel, course materials, and faculty and administrative support. Students enrolled in this program are eligible to be counted for formula funding and students who fail to complete the program according to their original cohort degree plan may be assessed additional fees or surcharges.
- For cohorts beginning prior to FY2021: Residents of Texas will be charged a flat fee each semester for a total program cost of up to $34,250. Nonresidents will be charged the same program fee as residents plus the applicable state tuition surcharge rate per semester credit hour as authorized annually by the Texas Higher Education Coordinating Board.
- For cohorts beginning during or after FY2021: Residents of Texas will be charged a flat fee each semester for a total program cost of up to $38,000. Nonresidents will be charged the same program fee as residents plus the applicable state tuition surcharge rate per semester credit hour as authorized annually by the Texas Higher Education Coordinating Board.

MSIS Energy Concentration Executive Format Program Fee

- This program is a hybrid format, cohort based interdisciplinary program supported by the Graduate School, the Rawls College of Business, the School of Law and the Whitacre College of Engineering. Upon acceptance, each student may be required to pay a program fee of up to $1,000, within two weeks of acceptance, to hold a place in the entering class.
- For cohorts beginning during or after FY2021: Residents of Texas will be charged a flat fee each semester for a total program cost of up to $50,000. Nonresidents will be charged the same program fee as residents plus the applicable state tuition surcharge rate per semester credit hour as authorized annually by the Texas Higher Education Coordinating Board.

Technical Communications and Rhetoric (TCR) Online Orientation Fee

- This annual orientation supports the online PhD for technical communication and rhetoric and is conducted outside of the regular graduate curriculum. Expenses may include, but are not limited to, food, housing, professional development activities, materials, and administrative support.
- Students will be charged a flat fee of up to $2,000 during the spring term for each May orientation session until they successfully defend their dissertation.

International Faculty Master's Degree in Musical Performance Program Fee

- This program is offered to faculty members at international institutions of higher education in order to complete a 30 hour graduate degree program through Texas Tech University's College of Visual and Performing Arts. The program will consist of three semesters, including one partial or full semester on-site at TTU, one summer session on-site at the student's home institution, and one semester of blended instruction. Students enrolled in this program are eligible to be counted for formula funding.
- This program fee is billed in addition to charges for registration based tuition and fees for students enrolled at TTU. Students will be billed this additional fee of up to $5,667 per term for each fall, spring or summer semester.
