

Instructor Use of Generative AI

I integrate generative AI into my teaching to enhance—not replace—human learning, creativity, and critical thinking. I use AI applications as collaborative partners for ideation, drafting, feedback, and refinement of teaching materials, but I maintain full responsibility for content and accuracy. *I do not use this technology to assess student work.* I do not input other people's work or personally identifiable information into AI tools. My approach emphasizes ethical, transparent use aligned with academic integrity, equity, and the development of transferable skills. I also aim to model responsible engagement with emerging technologies, emphasizing thoughtful boundaries rather than rigid prohibitions. I strive for transparency around AI use by adding AI disclosure statements and/or citation to all work generated for this course in collaboration with AI tools.
